READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 246—MINOR COURT CIVIL RULES

PART I. GENERAL [246 PA. CODE CH. 200] Design of Forms

Introduction

The Minor Court Rules Committee is planning to recommend that the Supreme Court of Pennsylvania adopt an entirely new Pa. R.C.P.D.J. No. 212 to provide for the design of forms used in district justice proceedings. The Committee has not submitted this proposal for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. The Committee's Report should not be confused with the official Committee Notes to the rules. The Supreme Court does not adopt the Committee's Notes or the contents of the explanatory Reports.

The text of the proposed rule precedes the Report.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel, Michael F. Krimmel, Counsel, Supreme Court of Pennsylvania, Minor Court Rules Committee, 5035 Ritter Road, Suite 700, Mechanicsburg, PA 17055, or e-mail to: minorcourt.rules@supreme.court.state.pa.us no later than Thursday, January 24, 2002.

REPORT

Proposed Pa. R.C.P.D.J. No. 212

Design of Forms

Proceedings in district justice courts, more so than in other courts, rely heavily on the use of preprinted standard forms. Forms are used for basic pleadings, notices, and virtually all other case-related documents. Most forms used in district justice proceedings are computer generated, produced by the District Justice Automated System (DJS). Traditionally, when individual rules have specified that a form is to be used for a certain document, the rules have made reference to "a form prescribed by the State Court Administrator." In drafting proposed new rules and amendments to existing rules, the Committee has decided that the use of this language in individual rules is cumbersome and unnecessary.

As an alternative, the Committee proposes an entirely new Pa. R.C.P.D.J. No. 212 to be a general rule regarding the design of forms. In proposing such a rule, the Committee contemplates that references to forms in individual rules could be eliminated, except where the content of a form is to be expressly dictated by the rule.

The proposed new rule, which is modeled after Pa.R.Crim.P. 104, would provide that "[t]he Court Administrator of Pennsylvania, in consultation with the Minor Court Rules Committee, shall design and publish forms necessary to implement these rules."

[246 PA. CODE CHS. 200—500]

Definitions; Subpoenas to Attend and Testify in Civil and Landlord/Tenant Matters

Introduction

The Minor Court Rules Committee is planning to recommend that the Supreme Court of Pennsylvania amend Pa. R.C.P.D.J. Nos. 202 and 421; adopt an entirely new Pa. R.C.P.D.J. No. 213; and rescind Pa. R.C.P.D.J. Nos. 317 and 510 to further provide for definitions and to provide for subpoenas to attend and testify in civil and landlord/tenant matters and to make other technical or "housekeeping" amendments. The Committee has not submitted this proposal for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. The Committee's Report should not be confused with the official Committee Notes to the rules. The Supreme Court does not adopt the Committee's Notes or the contents of the explanatory Reports.

The text of the proposed changes precedes the Report. Additions are shown in bold; deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel, Michael F. Krimmel, Counsel, Supreme Court of Pennsylvania, Minor Court Rules Committee, 5035 Ritter Road, Suite 700, Mechanicsburg, PA 17055 or e-mail to: minorcourt.rules@supreme.court.state.pa.us no later than Thursday, January 24, 2002.

DEFINITIONS; SUBPOENAS TO ATTEND AND TESTIFY IN CIVIL AND LANDLORD/TENANT MATTERS

I. Background

The Committee undertook a review of Rule 421 when it came to the Committee's attention that Rule 421C, that provides for the issuance of subpoenas in determination of property claims hearings (Rule 420 hearings), was not consistent with Rule 317 (relating to subpoena of witnesses in civil actions) and Rule 510 (relating to subpoena of witnesses in landlord/tenant actions). The Supreme Court had previously approved amendments to Rules 317 and 510 to provide for the issuance of subpoenas duces tecum. In recommending these amendments the Committee apparently overlooked the subpoena provision in Rule 421. The Committee had initially proposed that Rule 421 be amended to provide for the issuance of subpoenas duces tecum in Rule 420 hearings to make it consistent with the other subpoena rules. See 31 Pa.B. 2920 (June 9, 2001).

Upon consideration of comments received in response to that initial proposal, however, the Committee has revised its proposal. The Committee received comments indicating that three separate rules governing subpoenas caused unnecessary duplication and confusion. The Committee agreed. Accordingly, the Committee now proposes the addition of a new general rule governing subpoenas in the 200 Series (RULES OF CONSTRUCTION; GENERAL

PROVISIONS). Further, the Committee proposes that Rules 317 and Rule 510 be rescinded, and that Rule 421 be amended to delete the references to subpoenas.

Further, the Committee proposes amendments to Rule 202 (Definitions) to add two new definitions. First, relating to the rule changes discussed above, the Committee proposes that the word "subpoena" be defined in Rule 202. The Committee proposes that substantially the same definition for "subpoena" as is used in Pa.R.C.P. No. 234.1 be adopted in Pa. R.C.P.D.J. No. 202. The definition provides for subpoenas to attend and testify as well as subpoenas duces tecum. Secondly, the Committee noted that the word "verified" was used in the rules but was not defined. Upon review of the three instances where the word currently is used in the rules, the Committee determined that it also should be defined in Rule 202. The Committee proposes that the same definition for "verified" as is used in Pa.R.C.P. No. 76 be adopted in Pa. R.C.P.D.J. No. 202.²

Finally, in conjunction with the proposed amendments to Rules 202 and 421, the Committee also recognized the need for several technical or "housekeeping" amendments to these rules.

II. Discussion of Rule Changes

A. Rule 202

In conjunction with the proposed amendment to the rule to add the words "subpoena" and "verified" as described above, the Committee also recognized the need for two technical amendments to this rule. First, the Committee proposes that the introductory language in the rule be amended to more closely mirror that in Pa.R.C.P. No. 76 so as to more clearly state how terms in the rules are to be defined and construed. Also, the Committee proposes that the rule be restructured to remove the numbered list of definitions and to list the definitions in alphabetical order. The Committee believes that this technical change will present the list of defined terms in a more logical order and will better facilitate future additions to or deletions from the list.

B. New Rule 213

As noted above, the Committee proposes an entirely new rule, Pa. R.C.P.D.J. No. 213, to generally provide for subpoenas in civil and landlord and tenant matters.

Subdivision A makes clear that district justices may issue subpoenas throughout the Commonwealth. Subdivisions B and C of the proposed rule impose limitations on the use of subpoenas. Subdivision B makes clear that subpoenas may be used to command a person to attend and to produce documents or things only at a trial or hearing in an action or proceeding pending before the district justice. Subdivision C makes clear that subpoenas may not be used to compel a person to appear or produce documents or things ex parte.

The proposed Note cross references Pa.R.C.P. No. 234.1 and Pa. R.C.P.D.J. Nos. 202 and 325³. It also makes clear

² A proposal to add the word "verified" to the Rule 202 definitions, and to make other format changes to Rule 202, was previously published at 31 Pa.B. 5938 (October 27, 2001). The Committee is not making any changes to that proposal, however it is now being incorporated into the subpoena rule proposal as both proposals affect Rule 202.

³ Recommendation No. 3 Minor Court Rules 2001 includes a recommendation to renumber existing Rule 325 as new Rule 210.

that the district justice has the discretion to limit the production of documents or things to those that are relevant to the cause of action before the district justice. This same note was included in Rule 317.

C. Rules 317 and 510

In light of the Committee's proposed new Rule 213, the Committee further proposes that Rule 317 (relating to subpoena of witnesses in civil actions) and Rule 510 (relating to subpoena of witnesses in landlord and tenant actions) be rescinded.

D. Rule 421

The Committee proposes a number of amendments to Rule 421. First, regarding subpoenas, the Committee proposes that subdivision C, relating to subpoenas in determination of property claim hearings, be rescinded.

Secondly, in subdivision B, the Committee proposes minor changes to make the notice of determination requirement consistent with the notice requirement in Rule 324 relating to notice of judgment in civil actions.

Third, in subdivision D, the Committee proposes that the time period for filing a Statement of Objection run from "the date of entry of the order or determination" to make this time period consistent with the general appeal periods in civil and landlord/tenant actions that run from the date of entry of the judgment.

Finally, the Committee proposes minor changes to the rule to address gender neutrality issues, to correct cross-references in the Note, and to conform to modern drafting style.

RULES AND REGULATIONS

Title 64—SECURITIES

SECURITIES COMMISSION

[64 PA. CODE CHS. 202, 203, 301—304 AND 606]

National Securities Markets Improvement Act of 1996 Amendments

Statutory Authority

The Securities Commission (Commission), under the authority contained in sections 202(i), 203(r), 301(b), 302(f), 303(a), (c) and (d), 304(a), (d) and (e), 606(d) and 609(a) of the Pennsylvania Securities Act of 1972 (act) (70 P. S. §§ 1-202(i), 1-203(r), 1-301(b), 1-302(f), 1-303(a), (c) and (d), 1-304(a), (d) and (e), 1-606(d) and 1-609(a)) amends and adopts regulations concerning the subject matter of the act.

Publication of Notice of Proposed Rulemaking

Notice of proposed rulemaking appeared at 31 Pa.B. 4174 (August 4, 2001).

Public Comments

Section 606.031(c)(3)(i)(G) (relating to advertising literature). Although the Commission received no public comments during the 30-day public comment period, it did receive a verbal comment after the close of the public comment period concerning this provision. As proposed, this provision would require a highly specific legend to be placed on all advertisements for securities that had an effective registration statement with the Commission under section 206 of the act (70 P. S. § 1-206) which offering was being made under section 3(a)(4) or (11) of the Securities Act of 1933 (15 U.S.C.A. § 77c(a)(4) and (11)) or Rule 504 (17 CFR 230.504) adopted thereunder. Since Rule 504 and section 3(a)(4) of the Securities Act of 1933 offerings often are made in several states simultaneously, a specific legend requirement may run counter to the Mid-Atlantic Regional Review Protocol of which the Commission is a signatory. The proposal also creates a higher compliance requirement than what currently exists in § 606.031(e)(8). The Commission has no evidence that the existing legend requirement is inadequate and therefore adopted a provision which reflects the current legend requirement.

Comments of the Independent Regulatory Review Commission (IRRC)

Section 303.041 (relating to broker-dealer capital requirements). This new regulation provides that, when Commission representatives are conducting an examination under section 304(d) of the act of the offices of a broker-dealer or investment adviser registered with the Commission, the Commission representatives are to have physical access to all areas where files routinely are kept. By letter dated October 4, 2001, IRRC suggested, that for clarity, the Commission provide examples of the types of files that its representatives would be reviewing during the examination.

In response to IRRC's comments, the Commission, in adopting these final-form regulations, added subsection (b) which describes, without limitation, the types of files that would be subject to review during an examination. These files included all documents required to be kept by Chapter 304 (relating to postregistration provisions), rules of the United States Securities and Exchange

Commission or the National Association of Securities Dealers and any documents relating to these required records.

Persons Affected by the Final-Form Regulations

Nonprofit organizations are affected by the changes to regulations relating to pooled income funds and charitable gift annuities. Another regulation affects Canadian issuers who issue securities to persons covered by certain tax advantaged plans which transactions are effected by Canadian broker-dealers eligible to rely on an exemption from broker-dealer registration in § 302.065 (relating to Canadian broker-dealer exempt). Auctioneers licensed by the State Auctioneer Board are affected by the regulation exempting them from broker-dealer and agent registration. Broker-dealers and agents are affected by the amendments impacting on registration requirements, examination requirements, required books and records retention and net capital requirements. The final-form regulations on advertising affect issuers of securities which may publish an advertisement in this Commonwealth in connection with a securities offering.

Fiscal Impact

The final-form regulations impose no new compliance costs and reduce compliance costs by expanding exemptions, eliminating required filings with the Commission and reducing the amount of information which must be maintained by registrants.

Paperwork

The final-form regulations repeal Forms 302-F1, AU-1 and AU-2 required for auctioneers to claim an exemption from broker-dealer and agent registration for the occasional auctioning of securities. As previously indicated, paperwork will be reduced further by elimination of filing of currently mandated reports and information with the Commission and permitting storage of required records in electronic form.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 13, 2001, the Commission submitted a copy of proposed rulemaking published at 31 Pa.B. 4174 to IRRC and the Chairpersons of the House Committee on Commerce and Economic Development and the Senate Committee on Banking and Insurance for comment and review. In accordance with section 5(b) of the Regulatory Review Act, the Commission provided IRRC and the Committees with a copy of a detailed Regulatory Analysis form prepared in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available upon request.

By letter dated October 4, 2001, IRRC provided the Commission with its comments on the proposed rulemaking. The Commission's response to those comments is contained in this Preamble.

In preparing the final-form regulations, the Commission considered all comments received from the public and IRRC. The final-form regulations were submitted on October 30, 2001, to the House Committee on Commerce and Economic Development, the Senate Committee on Banking and Insurance and IRRC. Final-form regulations were deemed approved by the House Committee on Commerce and Economic Development and the Senate Committee on Banking and Insurance on November 20, 2001. IRRC met on December 6, 2001, and approved the final-form regulations.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Amendment to the Consolidated Plan Strategy

The Commonwealth's Consolidated Plan for FFY 2000-2004 contains strategy, priorities and a list of action steps for Federal housing and community development programs that will be pursued during this 5-year period. The action steps to be pursued in 2002 include the items listed in the Five Year Consolidated Plan for Federal Fiscal Years (FFY) 2000—2004. These action steps entail a broad range of activities including but not limited to, activities for the homeless, special needs groups and other actions that will address critical housing and community development needs in this Commonwealth. The 2002 Action Plan does not have a repetitious listing of those activities.

The Commonwealth is providing public notice of the following amendment to its 2002 Action Plan.

CDBG Changes

The Department of Community and Economic Development (Department) will no longer include Dauphin County and Borough of Steelton as members of its United States Department of Housing and Urban Development (HUD) nonentitlement areas participating in the State Small Cities Program, since the areas have qualified to participate as direct Federal recipients. Therefore, the allocation to be received by the Commonwealth from HUD will be reduced by the amount determined by HUD's funding formula.

The 2000 Census population figures have also affected a number of State entitlement entities, as provided for in the act of October 11, 1984 (P. L. 906, No. 179). Six new entitlement boroughs or townships have been created by virtue of their having achieved the required population threshold of 4,000 persons. They are:

Blair Township, Blair County
 Franklin Township, Carbon County
 Upper Nazareth Township, Northampton County
 Wayne Township, Schuylkill County
 Cresson Borough, Cambria County
 Wharton Township, Fayette County

In addition, three municipalities that have slipped below 4,000 in population have lost their State entitlement status. They are:

Portage Township, Cambria County
 Mahoning Township, Carbon County
 Conewango Township, Warren County

The State entitlement status of two municipalities is also in dispute since their census population has not been finalized. One of these, Green Township in Indiana County is an existing State entitlement whose 2000 population figures have fallen below 4,000. There is presently a dispute over boundary lines. If a census correction increases their population to 4,000 or above, they will be reinstated to State entitlement status.

The second municipality whose population is in dispute is Brothersvalley Township in Somerset County, where the 2000 population is above 4,000, which would grant State entitlement status. Official census figures will determine if this township becomes an entitlement community or remains a nonentitlement entity.

Secretary

NPDES APPLICATIONS

PART I PERMITS

Under the Federal Clean Water Act and The Clean Streams Law, the following parties have applied for an NPDES permit or to renew their current permit to discharge controlled wastewaters into the waters of this Commonwealth or to conduct other activities required by the NPDES permit. For renewal applications listed in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements. For all new permit applications, renewal application with major changes or applications for permits not waived by EPA, the Department, based upon preliminary reviews, also made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications listed in Section II.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permits are invited to submit a statement, to the office noted before the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding the applications. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (DEP) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

DEP has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support mate-

rials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the Act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

48-309-114: Essroc Cement Corp. (3251 Bath Pike, Nazareth, PA 18064-8928) for modification to the coal/clinker/gypsum handling systems and the clinker/gypsum silos which includes two additional clinker conveyors and a fabric collector in Lower Nazareth Township, **Northampton County**. The particulate emissions from the fabric collector will not exceed the Best Available Technology standard of 0.01 grain/DSCFT. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements. The facility currently has a Title V Operating Permit No. 48-00004. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V Operating Permit through an administrative amendment at a later date.

S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments or objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES

permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Public Notice of Extension of Comment Period to Draft Comprehensive Stormwater Management Policy

The Department of Environmental Protection (DEP) is seeking public comment on a proposal to update its current stormwater management program, using existing authority, to improve water quality, sustain water quantity (including ground water recharge and stream base flow) and integrate upcoming stormwater management obligations. The DEP is announcing an additional 30 days to comment on this program.

The draft proposal is available on DEP's website at www.dep.state.pa.us (directLINK "Comprehensive Stormwater Policy") or can be obtained by contacting Stuart Gansell at (717) 783-7420, e-mail to sgansell@state.pa.us or DEP Office of Water Management, Bureau of Watershed Management, 10th Floor, Rachel Carson State Office Building, P. O. Box 8555, Harrisburg, PA 17105-8555.

At the 15 water forums held throughout this Commonwealth in the Spring of 2001, stormwater management was a consistent and recurring concern of citizens and municipal officials. The DEP is facing challenges to its existing approach in litigation before the Environmental Hearing Board. The Commonwealth must also implement Phase II stormwater controls under the Federal Clean Water Act within the next several years.

The DEP proposes a best management practices (BMP) approach to stormwater management that generally encourages, and sometimes requires, minimization and infil-

tration of stormwater flows. This approach will reduce pollutant loadings to streams, recharge groundwater tables, enhance stream base flow during times of drought and reduce the threat of flooding and stream bank erosion resulting from storm events. Permit conditions will require BMPs as the means of managing stormwater from both Phase I and Phase II construction, as well as postconstruction stormwater flows.

Administratively, the DEP proposes to integrate its permitting programs with stormwater management plans developed on a watershed basis under the Stormwater Management Act (Act 167). Act 167 county plans will include water quality and quantity protections implemented by municipalities within the watershed. In addition, the DEP will, in appropriate circumstances, rely on these Act 167 plans to meet the NPDES permitting requirements for municipalities under the Federal Clean Water Act Phase II municipal stormwater permitting program.

Written comments should include the name, address and telephone number of the person commenting. Written comments will be accepted by postal or e-mail at the addresses previously listed. Comments submitted by facsimile or voice mail will not be accepted.

The comment period now extends through January 28, 2002, and comments received by that date will be considered in the formulation of the final guidance for Comprehensive Stormwater Management Policy (document identification number, 392-0300-002).

Persons in need of accommodations as provided for in the Americans with Disabilities Act of 1990 should contact Stuart Gansell at (717) 783-7420 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) or (800) 654-5988 (voice) to discuss how the DEP can accommodate their needs.

Inpatient Hospital Services

This announcement provides final public notice of the Department of Public Welfare's (Department) payment methodology for the period July 1, 2001, through December 31, 2003. The payment methodology affects acute care general hospitals, private psychiatric hospitals, psychiatric units of general hospitals, rehabilitation hospitals and rehabilitation units of general hospitals.

The Department published a public notice at 31 Pa.B. 2853 (June 2, 2001) which stated that the Department would negotiate with representatives of the hospital industry, the possibility of renewing the existing Hospital Payment Rate Agreement (agreement), which governs the payment methods and standards applicable to hospitals participating in the Medical Assistance Fee-for-Service Program. The agreement was effective July 1, 1999, and expired on June 30, 2001, with regard to disproportionate share and medical education payments. The payment rates under the agreement are in effect through December 31, 2001.

Although, the Department did not receive any formal comments, the Department has met extensively with representatives of the hospital industry. These negotiation sessions provided a forum for the representatives of the hospital industry to voice their comments and together, the interested parties have reached a consensus on the terms of an agreement.

The Department will use the basic payment methods set forth in the expired rate agreement as follows:

Base Payment Rates:

Effective July 1, 2001, there will be no change to a hospital's or unit's base payment rate.

January 1—
June 30, 2002

Effective January 1, 2002, the Department will increase each hospital's or unit's base payment rate by 4%.

July 1—
December 31, 2002

Effective July 1, 2002, the Department will increase each hospital's or unit's base payment rate by 1%.

January 1—
June 30, 2003

Effective January 1, 2003, the Department will increase each hospital's or unit's base payment rate by 3.1%.

July 1—
December 31, 2003

Effective July 1, 2003, the Department will increase each hospital's or unit's base payment rate by 1%.

Inpatient Disproportionate Share; Outpatient Disproportionate Share; and Direct Medical Education Payments:

- As provided under the Department's current methods, for all fiscal years of the agreement, the Department will pay eligible hospitals their inpatient and outpatient disproportionate share and direct medical education payments quarterly during the month following the end of the quarter.

- The Department will redetermine eligibility for inpatient disproportionate share effective July 1, 2002, using current methods for determining eligibility. Additionally, the Department will retain current eligibility for outpatient disproportionate share and direct medical education and the prospective payment for direct medical education.

- FY 2001-2002: Effective July 1, 2001, the aggregate amount of inpatient and outpatient disproportionate share and direct medical education shall be limited to \$94.225 million total funds. Effective January 1, 2002, the aggregate amount of inpatient and outpatient disproportionate share and direct medical education shall be limited to \$95.167 million total funds. Allocation of these funds between the three programs will be in direct proportion to the distribution of these funds between the three programs under the July 1, 1999 through June 30, 2001, Hospital Rate Agreement or in some other proportion acceptable to the Department.

- FY 2002-2003: Effective July 1, 2002, the aggregate amount of inpatient and outpatient disproportionate share and direct medical education payments shall be limited to \$98.118 million total funds. Effective July 1, 2002, the aggregate amount of inpatient and outpatient disproportionate share and direct medical education payments shall be limited to \$99.099 million total funds. Allocation of these funds between the three programs shall be as determined through the eligibility redetermination process effective July 1, 2002, acceptable to the Department and the industry.

Fiscal Impact

This change will result in a cost of \$12.148 million in total funds (\$5.599 million in State funds and \$6.548 million in Federal funds) for Fiscal Year 2001-02, a cost of \$39.119 million in total funds (\$17.945 million in State funds and \$21.173 million in Federal funds) for Fiscal

Intergovernmental Transfer of Funds; Extension of County Nursing Facility Payments; and Disproportionate Share Payments

The purpose of this announcement is to provide advance notice under 42 CFR 447.205 that during FYs 2003-2007, the Department of Public Welfare (Department) intends to make changes in its payments to nursing facilities participating in the Medical Assistance Program.

The Department entered into an agreement with the County Commissioners Association of Pennsylvania which authorizes the transfer of funds to the Commonwealth from several counties (as authorized under Federal law (42 U.S.C.A. § 1396b(w)(6)(A) and 42 CFR 433.51(b)). The funds from this intergovernmental transfer (IGT) will be used as the State share for a portion of the county transition payments during FYs 2003-2007 and the disproportionate share incentive to qualified nursing facilities during FYs 2003-2005.

The Department intends to revise its method for setting payment rates for county nursing facilities participating in the Medical Assistance Program during FYs 2003-2007 to allow for county transition payments to be paid. The payments are currently authorized through June 30, 2003.

The Department also intends to revise the disproportionate share incentive payments to qualified nursing facilities for FYs 2003-2005. Currently, the disproportionate share per diem is to be doubled during FYs 1999-2003. The IGT of October 1, 2001, states that for FYs 2003-2005, the disproportionate share per diem incentive shall be paid at two times the disproportionate share per diem incentive calculated in accordance with 55 Pa. Code § 1187.111(c) (relating to disproportionate share incentive payments).

These proposed changes in nursing facility payments during FYs 2003-2007 are contingent upon: (1) approval by the Federal government of amendments to the Commonwealth's State Plan authorizing the county transition payments and the disproportionate share incentive payments; (2) the Commonwealth's receipt of intergovernmental transfers of funds from county governments in amounts sufficient to make these payments; and (3) the promulgation of regulations to permit county transition payments during FYs 2003-2007 and double disproportionate share payments during FYs 2003-2005.

The estimated increase in annual aggregate expenditures during FYs 2003-2007 is \$45.280 million in total funds (\$20.657 million in State funds). The Department will publish revisions to 55 Pa. Code Chapter 1187 (relating to nursing facility services) to implement the changes with respect to the county transition payments.

A copy of this notice is available for review at the local county assistance offices throughout this Commonwealth.

Interested persons are invited to submit written comments to the Department within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Comments should be addressed to Department of Public Welfare, Office of Medical Assistance Programs, Attention: Regulations Coordinator, Room 515 Health and Welfare Building, Harrisburg, PA 17105.

Persons with a disability may use the AT&T Relay Services by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users), or may use the Department's TDD by calling (717) 787-3616. Persons who require another alternative should contact Thomas Vracarich at (717) 783-2209.

The proposed changes are dependent upon the Federal government's approval of amendments to Pennsylvania's State Plan authorizing the county transition and disproportionate share payments, receipt of sufficient intergovernmental transfers of funds from county governments and promulgation of regulations permitting county transition and double disproportionate share payments.

Medical Assistance Program Prior Authorization

The purpose of this notice is to add an item to the Medical Assistance (MA) Program's list of items and services requiring prior authorization.

Section 443.6(b)(7) of the Public Welfare Code (62 P. S. § 443.6(b)(7)) authorizes the Department of Public Welfare to add items and services to the list of services requiring prior authorization by publication of notice in the *Pennsylvania Bulletin*.

Prior authorization for OxyContin®/oxycodone sustained release medication will be required for the following prescriptions dispensed on and after January 7, 2002:

- 1) Prescriptions that exceed dosages of greater than three tablets per day of any single strength of OxyContin®/oxycodone sustained release medication.
- 2) Prescriptions for more than two different strengths of OxyContin®/oxycodone sustained release medications to be taken concurrently.

Other prescriptions for OxyContin®/oxycodone sustained release medication will not require prior authorization.

This prior authorization requirement was presented to the MA Advisory Committee for review and comment at the October 25, 2001, meeting. In addition, the requirements for prior authorization were developed with input from an expert panel, coordinated by the Pennsylvania Medical Society that included pharmacists, a consumer representative and physician specialties representing anesthesiology, addiction medicine, pain management, hematology/oncology and family practice.

Prior Authorization of Home Health Visits Revisions

The purpose of this notice is to announce revisions to the prior authorization requirements for home health services published at 29 Pa.B. 76 (January 2, 1999). Included in this list were all home health services.

The Department of Public Welfare has allowed for 2 postpartum visits, which both required prior authorization. Review of the Department's prior authorization history for these post-partum services for mother and child since January 1999 has found that these requests have rarely been disapproved. For that reason, the Department will no longer require prior authorization for postpartum home health services effective with dates of service January 1, 2002.

All other home health services continue to require prior authorization before payment will be made, as set forth at 29 Pa.B. 76.

Fiscal Impact

This change will result in minimal fiscal impact, which can be absorbed within current funding levels.

The Department does not publish a listing of these approved speed-timing devices because they are approved individually by serial number and police department. Finding Erie County

Under the provisions of section 2002(b) of the Administrative Code (71 P. S. § 2002(b)), the Secretary of Transportation makes the following written finding:

The Department of Transportation plans to realign West 38th Street in the City of Erie, Erie County. The realignment will use lands of the City of Erie's Glenwood Park. The effect of this project on the City of Erie's Glenwood Park will include the following measures to minimize harm to the resource.

1. Landscaping will be enhanced along the project corridor.

2. At the City of Erie's request, an underpass structure will be constructed to provide access between City of Erie property on either side of the relocated West 38th Street.

3. The Hungarian Monument, a resource within Glenwood Park, will be dismantled, stored and reassembled at a visible location along the relocated West 38th Street.

4. The existing horseshoe courts, a resource within Glenwood Park, will be replaced at a location designated by the City of Erie and the Erie Horseshoe Club.

The Secretary has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code, and has concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize such effect.

No adverse environmental effect is likely to result from the realignment of West 38th Street.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(d) of the Regulatory Review Act (71 P. S. § 745.5(d)) provides that the designated standing committees may issue comments within 20 days of the close of the public comment period, and the Independent Regulatory Review Commission (Commission) may issue comments within 10 days of the close of the committees' comment period. The Commission's Comments are based upon the criteria contained in section 5.1(h) and (i) of the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)).

The Commission issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted by the date indicated.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Issued</i>	<i>Final-Form Submission Deadline</i>
Example:			
16A-4510	State Board of Cosmetology Examination Fees	12/13/01	11/13/03
	(31 Pa.B. 5713 (October 31, 2001))		

State Board of Cosmetology Regulation No. 16A-4510 Examination Fees December 13, 2001

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which have not been met. The State Board of Cosmetology (Board) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by November 13, 2003, the regulation will be deemed withdrawn.

Remaining language in Chapter 7—Consistency with other regulations; Clarity.

The Board is proposing to delete examination fees in Sections 7.2(a) and (b). However, there is existing language in Chapter 7, which refers to those fees and examinations given by the Board. These existing provisions are discussed in the following paragraphs.

First, Section 7.32a lists the required contents of examination applications. Sections 7.32a(a)(3) and (b)

require applications to include the examination fees prescribed by Section 7.2. Will applicants continue to submit examination fees to the Board?

Second, Section 7.32g(a) requires payment of the "examination and license fees prescribed in § 7.2." This subsection and the two subsections need to be consistent with the Board's proposal to provide clarity for readers of Chapter 7. The Board should delete references to examination fees in Section 7.2 from Sections 7.32a(a)(3) and (b) and 7.32g(a) and Chapter 7 in its entirety.

Third, language in Section 7.31(a) states that individuals who want a teacher's, manager's, cosmetologist's, cosmetician's or manicurist's license must "pass the examination given by the Board for that license" (emphasis added). The Beauty Culture Law authorizes the Board to select and approve the examinations that applicants must pass for licensure. However, this proposed regulation acknowledges that the professional testing organization gives the examinations and charges the fees for this service. Should the words "pass the examination given by the Board for that license" be replaced with "pass the examination required by the Board for that license"?

STATE EMPLOYEES' RETIREMENT SYSTEM

Adoption of the Group Annuity Mortality Tables; Resolution No. 2001-103

Whereas, the State Employees' Retirement System (SERS) has historically utilized the 1971 Group Annuity Mortality (GAM) tables to determine actuarial equivalence; and

Whereas, based upon the recommendation of the SERS actuary, the State Employees' Retirement Board (Board), at its March 2001 meeting resolved to change to the use of the more recent 1983 GAM (GAM 83) tables for the purpose of benefit calculations; and

Whereas, in order for SERS to begin utilizing the GAM 83 tables for the purpose of benefit calculations beginning on January 1, 2002, the Board must formally adopt the GAM 83 tables through this Resolution; and

Whereas, a detailed explanation of the planned utilization of the GAM 83 tables follows as an exhibit; and

Whereas, this resolution and the following detailed explanation will be published in the *Pennsylvania Bulletin* prior to January 1, 2002;

Now Therefore, in consideration of the foregoing recitals that are made a part hereof, it is hereby:

Resolved, this 5th day of December, 2001, that the Board adopt the GAM 83 tables for the purpose of benefit calculations as explained in the document entitled: "Applying Actuarial Equivalence Factors-Methodology for Determining "Better-of," which follows as an exhibit to this resolution.

Applying Actuarial Equivalence Factors Methodology for Determining "Better-of"

Background

The Pennsylvania State Employees' Retirement System (SERS) uses a complex array of actuarial tables to determine actuarial equivalence for optional settlements and early retirement. The State Employees' Retirement Board has decided to move SERS from the 1971 to 1983 Group Annuity Mortality (GAM) table to determine actuarial equivalence to conform to the change in the tables used by the actuary for costing bases.

Currently, there are three sets of actuarial tables used for determining actuarial equivalence for SERS covered employees. The reason for the different sets of actuarial tables is the United States Supreme Court decisions in *Arizona Governing Committee v. Norris*, 463 U.S. 1073, 103 S. Ct. 3405, 77 L.Ed. 1236 (1983), decided in August 1983 and *Florida v. Long*, 487 U.S. 223, 108 S.Ct. 2354, 101 L.Ed. 206 (1988), decided in 1988. These decisions required that pension plans pay equal benefits for men and women. The issue was further complicated by the requirement that the remedy (the equalization of benefits) could not be accomplished by reducing higher benefits to lower levels for current employees.

In conformance with the Supreme Court decisions, the approach taken by SERS was to equalize benefits earned after August 1983 for members who entered SERS before August 1983. SERS currently uses "blended" sex-neutral actuarial tables for employees hired on or after August 1, 1983. For employees hired before August 1, 1983, the benefits resulting from service credited before August 1, 1983 continued to be calculated using the existing sex-distinct actuarial tables, while benefits resulting from service credited on or after August 1, 1983 uses "topped up" actuarial tables. The reason for the three sets of tables is that the Supreme Court stated that *Norris* only had to apply to benefits resulting from service after August 1983 and because the prohibition against "blending" tables to produce equal benefits does not apply to employees hired on or after August 1, 1983.

For the December 31, 2000 valuation SERS used the 1983 GAM sex-distinct tables for all post-retirement mortality for the purpose of determining employer costs to fund the pension plan. As a result, SERS has decided to move to the 1983 GAM tables for actuarial equivalence and for determining benefits. Actuaries can, and do, use sex-distinct tables to produce the best estimate of costs. But, SERS' use of the 1983 GAM unisex (blended) table for actuarial equivalence purposes is still controlled by *Norris*.

Therefore, SERS's adoption of the 1983 GAM tables for actuarial equivalence parallels SERS' adoption of the 1971 tables after *Norris*.

A. Beginning with retirements with an effective date on or after January 1, 2002, employees hired on or after

August 1, 1983 will have their benefits calculated using the 1983 GAM unisex tables rather than the 1971 GAM unisex tables. Almost all post-August 1, 1983 members will receive benefits under the 1983 GAM tables equal to or better than they would have received under the 1971 GAM tables.

B. For employees hired before August 1983, benefits will be calculated two ways and the employee will receive the benefit based on whatever method produces the "better" benefit. (Determination of the "better" benefit is described below.) Benefits will be calculated using the 1983 GAM unisex table applied to all benefits, regardless of whether the service underlying those benefits was credited before or after August 1, 1983. This benefit will be compared to a benefit calculated using the current methodology applying 1971 GAM tables to post-July 1983 service and sex-distinct 1971 tables to pre-August 1983 service).

Determination of "Better of"

A member's Maximum Single Life Annuity (MSLA) will be used to determine the "better" benefit when comparing GAM71 and GAM83 tables. When establishing the benefit of a pre-August 1983 hire, SERS will compute the member's MSLA using the GAM71 tables (sex distinct and "topped up") and the GAM83 tables. The tables that generate the larger benefit will be the basis for any option the member may select and any other actuarial calculation. If the two methods produce the same MSLA, then the set of actuarial tables that produces the higher present value of MSLA will be used.

Return to Service—How to Apply the "Better-of" Comparison

When a member retires, a "better of" comparison will be performed and his annuity will be determined using the factors that provide him with a higher benefit. At return to service, the member's annuity is frozen. The calculation of the benefit at subsequent retirement depends on the credited service after the return. If the member has less than 3 "new" service credits, the member will receive a two-part benefit. The first part of the benefit is a monthly benefit derived from the frozen present value using the same tables that were used at first retirement, based on the member's current age. The second part of the benefit is a benefit for the new service; the better-of test is performed on the new service benefit only.

If the member has 3 or more service credits at subsequent retirement, the member will receive the larger of the following:

- A benefit based on "thawing" the frozen present value, where the total years of service and a new high-three average salary are determined. The new benefit is offset by the actuarial value of the retirement benefits received while on the first retirement. The better-of test is performed again, on the total benefit.
- The two-part benefit described above. The benefit derived from the frozen present value is based on the same tables that were used at first retirement, and the second part of the benefit is a benefit for the new service. The better-of test is performed on the new service benefit only.

Change of Option—How to Apply the "Better-of" Comparison

A member who elected a joint and survivor option is allowed to change the retirement option under two circumstances:

1. a change in marital status; or
2. the designated survivor predeceases the member.

The "better of" table that was originally determined to produce the better retirement benefit would be used as the basis for all optional benefits, including any changes in optional benefit elections.

Domestic Relation Orders—How to Apply the "Better-of" Comparison

This would only be an issue for members who received a benefit estimate under a Domestic Relations Order (DRO) before the change in actuarial equivalence factors and retire after the change. However, since all elements used to determine the DRO were estimates, it will not be necessary to revisit the calculation.

Class C Supplemental Benefit—How to Apply the "Better-of" Comparison

When calculating the member's Maximum Single Life Annuity under GAM71, male "topped up" factors for the Class C Supplemental Benefit, as is done currently, will be used. When calculating the member's Maximum Single Life Annuity under GAM83 however, GAM83 factors for all benefits, including the Class C Supplemental Benefit, will be used.

Death Benefits (Act 500)—How to Apply the "Better-of" Comparison

Following the same procedure as used when the Norris decision was implemented, all Act 500 death benefits will be calculated using the table that applies to new members of SERS. Therefore all Act 500 death benefits will be calculated using the 1983 Group Annuity Mortality Table for deaths after January 1, 2002.

Disability Retirements—How to Apply the "Better-of" Comparison

For the reasons stated above, the 1983 GAM tables will be used for determining disability retirement benefits for

members hired after August 1983. For pre-1983 hires, the member's MSLA will be used to determine the better retirement benefit when comparing GAM71 and GAM83 tables. However, the benefit determination for disabled retirements does not include the calculation of the MSLA.

It is to the member's advantage to have the early retirement portion of the basic disability benefit be the better benefit. Therefore, the table that generates the largest early retirement benefit, of the total basic disability retirement benefit, will be used as the basis for any option the member may select. If all tables produce the same early retirement benefit, then the table that produces the higher present value for the early retirement benefit will be used as the basis for any option the member may select.

If a hazardous duty member (enforcement officers and State Police) has less than 5 years of service, the disability supplement is the difference between the annual basic disability benefit described above and the member's share of the annual disability benefit. The member's share is the accumulated deductions divided by the initial reserve factor, unless the disability is a joint and survivor disability.

Members who have less than 5 years of service at disability would most likely have entered after 1983, and therefore the member's share of the basic disability benefit would be determined using the 1983 GAM table.
