READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

**SUBSCRIPTION INFORMATION: (717) 766-0211
GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Order

Per Curiam:

And Now, this 6th day of February, 2015, pursuant to this Court's Order of April 13, 1984, No. 47 Judicial Administration Docket No. 1, provisions related to the filing of statements of financial interest by judicial officers were established and by subsequent Orders of March 22, 2005, No. 271 Judicial Administration Docket No. 1, and of January 23, 2006, No. 282 Judicial Administration Docket No. 1, provisions relating to the electronic filing of these statements were established;

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that all prior orders are rescinded and all judicial officers, as defined herein, shall file a statement of financial interest in accordance with the following provisions on a form prescribed by the Administrative Office of Pennsylvania Courts ("AOPC") and approved by this Court or such amended form as may be issued in the future.

1. *Persons Required to File:*

For purposes of this Order, a judicial officer is defined as a justice of the Supreme Court, a judge of the Superior or Commonwealth Court, a judge of the Court of Common Pleas, a judge of the Municipal Court of Philadelphia, a magisterial district judge, and all senior jurists who are active or eligible for recall to judicial service.

2. *Filing:*

This requirement does not apply to judicial officers who are certified as senior jurists within that period of time.

Such filing may be accomplished electronically through the use of a secure log-in supplied by the AOPC. The submission of a statement through electronic means signifies the user's intent to sign the document. By submitting the statement electronically, the individual certifies the electronic filing is true and correct. All statements of financial interest submitted electronically through the secure log-in procedure shall be accepted for filing by the AOPC.

3. *Failure to File; Falsification of Information:*

Upon failure of any judicial officer to file the required statement within the time allowed, the AOPC shall give notice to such judicial officer that failure to comply with this Order within 10 days may result in the suspension of the judicial officer from his or her duties.

Following receipt of this notice, if the judicial officer fails to file the statement within the 10-day period, the AOPC shall immediately notify the Chief Justice of Pennsylvania and the Judicial Conduct Board of Pennsylvania of the delinquency in filing.

The knowing and willful falsification of any information required to be reported pursuant to this Order, or the knowing and willful failure to report information as required by this Order, may result in the suspension of the judicial officer from his or her duties, and shall constitute a charge of misconduct and result in referral of

the case to the Judicial Conduct Board for disposition. *See In re Bruno*, _____ Pa. _____, 101 A.3d 635 (2014) (explaining the separate constitutional functions of the Judicial Conduct Board, Court of Judicial Discipline and Pennsylvania Supreme Court).

4. *Public Access:*

All statements of financial interest filed pursuant to this Order shall be made available for public inspection and copying during regular office hours.

5. *Retention:*

The AOPC shall preserve statements of financial interest for a period of 10 years from the date of receipt.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective immediately.

The hearing and business meeting are open to the public and will take place at the Washington Crossing Historic Park Visitor Center, 1112 River Road, Washington Crossing, PA.

Public hearing. The public hearing on March 10, 2015, will begin at 1:30 p.m. Hearing items will include draft dockets for the withdrawals, discharges and other water-related projects listed as follows and for resolutions: (1) authorizing the Executive Director to award a contract to the lowest responsible bidder for taxonomic identification of benthic macroinvertebrates in samples collected from the Delaware River and its tributaries; (2) authorizing the Executive Director to award a contract to the lowest responsible bidder for analysis of water, sediment and tissue samples from ambient waters of the Delaware River Basin for organic chemicals including polychlorinated biphenyls and mercury; (3) delegating limited authority to the Executive Director to enter into settlement agreements and to waive administrative late fees for good cause shown; and (4) authorizing and directing the Executive Director to initiate rulemaking to provide for the One Process—One Permit Program and to enter into an Administrative Agreement with New Jersey for demonstration of the program.

The hearing also will include an opportunity for docket holders that recently received notices of violation from the Commission in connection with monitoring requirements or effluent limitations contained in their dockets to show cause why a penalty should not be assessed for the alleged violations in accordance with the provisions of Article 7 of the Rules of Practice and Procedure and Section 14.17 of the Delaware River Basin Compact. Written comments on matters scheduled for hearing on March 10, 2015, will be accepted through the close of the hearing that day. After the hearing on all scheduled matters has been completed, the meeting will include an opportunity for public dialogue.

Draft dockets and resolutions scheduled for hearing are posted on the Commission's web site at www.drbc.net 10 days prior to the hearing date. Additional public records relating to the hearing items may be examined at the Commission's offices. Contact Project Review Section assistant Victoria Lawson at (609) 883-9500, Ext. 216, with any questions concerning these items.

The public is advised to check the Commission's web site periodically prior to the hearing date, as items scheduled for hearing may be postponed if additional time is deemed necessary to complete the Commission's review. In reviewing docket descriptions, the public is also asked to be aware that project details commonly change in the course of the Commission's review, which is ongoing.

The public is advised that during the public hearing on March 10, 2015, the staff will continue the practice of offering a shorter presentation than in the past for the subset of draft dockets that consist of renewals where a

project has undergone no substantive changes. Interested parties will have the same opportunity to comment on or ask questions concerning these dockets as they have historically had, and if any member of the public requests additional information about a project during the hearing, staff will be prepared to offer more detail. DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Draft Application for Community Development Block Grant—National Disaster Resilience Competition; 2015 Allocation

There is a public comment period to review the draft Application prepared by the Commonwealth for the 2015 Community Development Block Grant (CDBG)—National Disaster Resilience Competition (NDR) funds. The public comment period is from February 21, 2015, through March 9, 2015.

The United States Department of Housing and Urban Development (HUD) issued a notice at 79 FR 62654 (October 20, 2014) which establishes the Nationwide com-

petitive grant process for \$1 billion of CDBG-NDR funds. The Commonwealth is an eligible applicant for this competitive grant. The grant is to be administered by the Department of Community and Economic Development (Department), or another Commonwealth agency designated by the Governor. The HUD notice published at 79 FR 62654 requires the Commonwealth to notify and provide its citizens an opportunity to comment and provide input on the draft Application or any substantial amendment to the Application, or both.

The purpose of the CDBG-NDR program is to assist disaster recovery in the most impacted and distressed areas declared a major Federal disaster in 2011, 2012 or 2013. The allocations for this funding will be based on a review of the applications submitted by 67 eligible applicants from Presidentially-declared disasters that occurred in 2011, 2012 or 2013, and estimates of remaining unmet need. These funds are separate and distinct from the annual allocation of CDBG funds, and any CDBG-Disaster Recovery funds.

The draft Application and supporting documentation is available for a 15-day public comment period and can be viewed on the Department's web site under the Disaster Recovery section at <http://www.newpa.com/community/disaster-recovery>. The text is available to sight-impaired persons by means of the Department's web site at the link listed previously. A translation into Spanish is also available on the Department's web site. The final version of the Application will be submitted to HUD no later than March 16, 2015.

Persons who would like to provide written comment on the draft Application may send those comments to Larry Belmont, Department of Community and Economic Development, Center for Community Financing, 400 North Street, 4th Floor, Harrisburg, PA 17120, labelmont@pa.gov. Comments must be received before 5 p.m. on March 9, 2015.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
 PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) requires the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

23-0038F: Delaware County Regional Water Quality Control Authority (DELCORA) (P. O. Box 999, Chester, PA 19016) for a new air pollution control system and increase in sewage sludge throughput to 55 tons dry sludge per day for each of two incinerators located in the City of Chester, **Delaware County**. DELCORA is a major facility. The new air pollution equipment train for each incinerator includes a quench, multi-venturi scrubber, wet electrostatic precipitator and regenerative thermal oxidizer, which were determined to be Best Available Technology (BAT). Currently, the top hearth of each incinerator functions as an afterburner. The top hearth will be modified to accept the sludge feed, since the afterburner function has been located downstream. There will be a slight increase in the allowable emissions of particulate matter due to the higher throughput. Allowable emissions of other air pollutants will remain at the

level of the current Title V permit or decrease due to the more efficient air pollution control equipment. Allowable emissions of the following air pollutants for both incinerators in tons/year are: particulate matter 26.2, sulfur oxides 65.8, nitrogen oxides 82.56, carbon monoxide 103.44 and volatile organic compounds 6.0. Emissions of beryllium, mercury, lead, arsenic, cadmium, nickel and chromium are limited by the provisions of 40 CFR Part 61 Subparts C and E (National Emission Standards for Beryllium and Mercury), and Part 503 Subpart E Standards for Use or Disposal of Sewage Sludge, Incineration), as currently provided by the facility's operating permit. The facility is subject to the requirements of 40 CFR Part 60 Subpart O (Standards of Performance for Sewage Treatment Plants), which regulates particulate matter.

The sewage sludge incinerators are an affected source under 40 CFR Subpart M (Emission Guidelines and Compliance Times for Existing Sewage Sludge Incinerator Units). A federal plan with the regulatory authority to carry out the provisions of the Subpart is pending from the Environmental Protection Agency (EPA). The Plan Approval contains the condition that the permittee comply with the more stringent requirements of the Plan Approval as issued or the federal plan, when the federal plan becomes available. The Plan Approval will include monitoring, testing and recordkeeping requirements designed to keep the facility operating within all applicable air quality requirements.

A minor modification is concurrently being issued with this renewal. The modification replaces an operating hour restriction of a back-up enclosed flare with an equivalent heat input limitation. The renewal and modification of this operating permit does not authorize any change in method of operation of the landfill or back-up enclosed flare, nor does it authorize any increase in air emissions of any regulated pollutants above previously approved levels. The permit includes monitoring, recordkeeping, and reporting requirements designed to address all applicable air quality requirements.

and reporting requirements to ensure the facility complies with the applicable air quality regulations. Among other items, the conditions include provisions from 40 CFR 63 Subpart ZZZZ for an emergency generator, and from 40 CFR 63 Subpart BBBB for the gasoline loading racks and storage tanks. Coal Applications Received

New Stanton District Office: 131 Broadview Road, New Stanton, PA 15672, 724-925-5500

02880102 and NPDES Permit No. PA0591190. William J. Kisow (82 South Petrie Road, Coraopolis, PA 15108). Renewal application for reclamation only to an existing bituminous surface mine, located in Kennedy and Robinson Townships, **Allegheny County**, affecting 15.7 acres. Renewal application received: January 30, 2015.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

HAZARDOUS SITES CLEANUP ACT OF OCTOBER 18, 1988

Notice of Interim Response; Kuhn's Landfill; Darlington Township, Beaver County

The Pennsylvania Department of Environmental Protection ("DEP"), under the authority of the Hazardous Sites Cleanup Act, 35 P.S. Section 6020.101 et. seq. ("HSCA"), has proposed an interim response at the Kuhn's Landfill ("Site"). The Site is located on Ridge Road in Darlington Township, Beaver County and was used for the disposal of municipal and industrial waste from approximately 1964 until 1980.

The Department's investigation of the Site has determined that certain inorganics and organics have been released at the Site which are hazardous substances as defined by the Hazardous Sites Cleanup Act. These hazardous substances have been released at the Site at concentrations that exceed applicable standards. Based on these findings, the Department has determined that a response is appropriate.

The Department considered the following three alternatives to address the threats at the Site: 1) no action; 2) place a fence around contaminated soil areas, removal and disposal of gel type waste identified in the remedial investigation report; and 3) capping contaminated areas with soil, removal and disposal of gel type waste.

Alternative 3 was chosen because it complies with the applicable or relevant and appropriate requirements and is cost effective.

This notice is being provided under Section 506(b) of the Hazardous Sites Cleanup Act. The Administrative Record which contains information forming the basis and documenting the selection of this response action is available for public review and comment at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222 and is available for review between 9 a.m. and 4 p.m.

The Administrative Record will be open for comment until May 21, 2015. Persons may submit written comments into the record, during this time only, by sending them or delivering them to Edward Litwin, Project Manager, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222.

In addition, persons may present oral comments for inclusion in the Administrative Record at a public hearing scheduled for April 14, 2015 at 5:00 p.m. at the Darlington Township Municipal Building located at 3590 Darlington Road, Darlington, PA 16115. Persons wishing to present comments must register with John Poister at the Department's Southwest Regional Office, in writing at: 400 Waterfront Drive, Pittsburgh, PA 15222 or by telephone at (412) 442-4203 before noon, April 14, 2015.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceeding, should contact John Poister at (412) 442-4203 or through the Pennsylvania AT&T Relay Service at (800) 654-5954 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting

a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Availability of Pennsylvania's Statewide Transition Plan for Home and Community-Based Settings

The Department of Human Services (Department) is making available for review and public comment Pennsylvania's proposed Statewide Transition Plan for Home and Community-Based Settings. Comments received will be used to formulate Pennsylvania's Final Statewide Transition Plan that will be submitted to the Centers for Medicare and Medicaid Services (CMS).

Background

CMS published a final rule for home and community-based services (HCBS) at 79 FR 2948 (January 16, 2014) with an effective date of March 17, 2014. This final rule, among other things, amends the Medicaid regulations for HCBS waivers under section 1915(c) of the Social Security Act (42 U.S.C.A. § 1396n(c)) to provide requirements regarding person-centered plans of care, characteristics of

settings that are home and community-based as well as settings that may not be home and community-based. See 42 CFR Parts 430, 431, 435, 436, 440, 441 and 447. These requirements reflect CMS' intent that individuals receiving services and supports through Medicaid waivers receive services in settings that are integrated in and support full access to the greater community.

All 1915(c) Medicaid waivers must comply with these requirements. In this Commonwealth there are ten 1915(c) Medicaid HCBS waivers:

- Adult Autism Waiver
- AIDS Waiver
- Aging Waiver
- Attendant Care Waiver
- COMMCARE Waiver
- Consolidated Waiver
- Independence Waiver
- Infant, Toddlers and Families Waiver
- OBRA Waiver
- Person/Family-Directed Support Waiver

The final rule recognized that a transition period may be needed for states with existing approved 1915(c) HCBS waivers to meet the provisions of the final rule. The final rule provides the Commonwealth with the opportunity to develop a transition plan that encompasses a period of up to 5 years after the effective date of the regulation to meet the provisions of the final rule. For more details about the Home and Community-Based Services Final Rule, refer to the CMS HCBS web page at <http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Long-Term-Services-and-Supports/Home-and-Community-Based-Services/Home-and-Community-Based-Services.html>.

On June 30, 2014, the Department submitted amendments to CMS for the Aging, Independence and Attendant Care waivers, including an initial Statewide Transition Plan in compliance with the final rule. Through follow-up discussions with CMS, these waiver amendments were withdrawn, along with the Statewide Transition Plan. This second submission incorporates feedback and stakeholder input from the initial public comment period, along with feedback and stakeholder input received through subsequent submissions of individual waiver amendments.

Transition Plan

The Department has made Pennsylvania's proposed Statewide Transition Plan for all ten 1915(c) Medicaid HCBS waivers available at <http://www.dhs.state.pa.us/dhsorganization/officeoflongtermliving/hcbswaiver/index.htm>. The proposed Statewide Transition Plan includes the steps the Department anticipates taking to achieve compliance in the following areas: Assessment; Remediation Strategies; and Outreach and Engagement of Stakeholders.

A hard copy of the Statewide Transition Plan may be requested by contacting the Department at the mailing address or e-mail address provided in the Submitting Written Comments and Feedback section. Individuals should include their full name and mailing address when making a request.

Change to an Additional Class of Disproportionate Share Payments

The purpose of this notice is to announce the Department of Human Services' (Department) intent to increase the funding allotted for Fiscal Year (FY) 2014-2015 for disproportionate share hospital (DSH) payments to certain qualifying Medical Assistance (MA) enrolled hospitals that advance the Department's goal of enhancing access to multiple types of medical care in economically distressed areas of this Commonwealth. The Department is not otherwise changing the qualifying criteria or payment methodology for this payment.

In making these payments, the Department ensures that no acute care general hospital receives a DSH payment that is in excess of its hospital-specific DSH upper payment limit and the Commonwealth is not exceeding its aggregate annual DSH allotment.

FISH AND BOAT COMMISSION

Temporary Changes to Fishing Regulations; Striped Bass

The Executive Director of the Fish and Boat Commission (Commission), acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), has taken immediate action to amend 58 Pa. Code § 61.2 (relating to Delaware River, West Branch Delaware River and River Estuary). Specifically, the Executive Director has amended this section to decrease the creel limit for striped bass in the River Estuary (from the Pennsylvania line upstream to Calhoun Street Bridge) during the periods January 1 through March 31 and June 1 through December 31 to one fish, and to

change the slot limit during the period April 1 through May 31 to 21 to 25 inches. The Executive Director also has amended the section to decrease the creel limit for striped bass in the Delaware River (from the Calhoun Street Bridge upstream) to one fish. This action is being taken to meet the requirements of the Atlantic States Marine Fisheries Commission (ASMFC).

ASMFC's management plan for striped bass calls for management actions when the coast-wide spawning stock biomass (SSB) or fishing mortality rates reach thresholds set within the management plan. The SSB threshold is 127 million pounds, and the current SSB is just above this at 128 million pounds. At the current fishing mortality rates, there is concern that the SSB will fall below the threshold in the near future. In addition to these concerns, recruitment of young fish has been relatively low in many of the years since 2004. In response to these concerns, the ASFMC Striped Bass Management Board,

which includes the Commonwealth as a member, has directed all coastal states to reduce fishing mortality rates by 25% beginning in 2015. The amendments to 58 Pa. Code § 61.2 are designed to meet this objective.

To address the coast-wide regulation directed by the ASMFC, the Commission's Executive Director has taken immediate action to make the following modifications to fishing regulation:

§ 61.2. Delaware River, West Branch Delaware River and River Estuary.

* * * * *

(d) The following seasons, sizes and creel limits apply to the Delaware River, West Branch Delaware River and Delaware River tributaries, from the mouths of the tributaries upstream to the limit of the tidal influence and the Lehigh River from its mouth upstream to the first dam in Easton, Pennsylvania:

SPECIES	SEASONS	MINIMUM SIZE	DAILY LIMIT
STRIPED BASS and HYBRID STRIPED BASS	From Pennsylvania line upstream to Calhoun Street Bridge:		
	January 1 until March 31 and June 1 until December 31	28 inches	1
	April 1 through May 31	[20] 21 to [26] 25 inches	2
	From Calhoun Street Bridge upstream: open year-round	28 inches	1
	* * * * *		

The Executive Director has found that this action is necessary and appropriate for the management of fish and to conserve and preserve fishing opportunities. The temporary modifications will go into effect on March 1, 2015, and will remain in effect until the Commission, by appropriate action, amends 58 Pa. Code § 61.2. At its meeting on May 5, 2015, the Commission will consider the publication of a notice of proposed rulemaking containing the proposed amendments and soliciting public comments for 30 days.

The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Investigation and Enforcement and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Investigation and Enforcement hereby represents as follows:

3. That respondent was issued a Certificate of Public Convenience by this Commission on March 20, 1961, at A-00087686.
4. That respondent has failed to maintain evidence of Liability insurance on file with this Commission. The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$500 and cancellation of the Certificate of Public Convenience.

Wherefore, unless respondent pays the penalty of \$500 or files an answer in compliance with the attached notice and/or causes its insurer to file evidence of insurance with this Commission within twenty (20) days of the date of service of this Complaint, the Bureau of Investigation and Enforcement will request that the Commission issue an Order which (1) cancels the Certificate of Public Convenience held by respondent at A-00087686 for failure to maintain evidence of current insurance on file with the Commission, (2) fines Respondent the sum of five hundred dollars (\$500.00) for the illegal activity described in this Complaint, (3) orders such other remedy as the Commission may deem to be appropriate, which may include the suspension of a vehicle registration and (4) imposes an additional fine on the respondent should cancellation occur.
