READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PART I. RULES OF APPELLATE PROCEDURE

[210 PA. CODE CHS. 1 AND 21]

Order Adopting Amendments to Pa.R.A.P. 124, 2135 and 2171, and Notes; No. 146 Appellate Court Rules; Doc. No. 1

Order

Per Curiam:

And Now, this 16th day of May, 2003, upon the recommendation of the Appellate Court Procedural Rules Committee, the proposal having been published before adoption at 32 Pa.B. 2751 (June 8, 2002);

It Is Ordered, pursuant to Article V, Section 10 of the Constitution of Pennsylvania that the amendments to the Pennsylvania Rules of Appellate Procedure 124, 2135, and 2171, and Notes thereto, are adopted in the following form.

This Order shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective 60 days after adoption.

Annex A

TITLE 210. APPELLATE PROCEDURE

PART I. RULES OF APPELLATE PROCEDURE

ARTICLE I. PRELIMINARY PROVISIONS

CHAPTER 1. GENERAL PROVISIONS

DOCUMENTS GENERALLY

Rule 124. Form of Papers; Number of Copies.

(a) *Size and other physical characteristics.* [No paper or other document may be filed in an appellate court on any paper other than paper approximating 8 1/2 inches by 11 inches in size. Any paper or other document filed in an appellate court shall be sufficient as to format and other physical characteristics if it substantially complies] All documents filed in an appellate court shall be on 8 1/2 inch by 11 inch paper and shall comply with the following requirements:

(1) [Prepared] The document shall be prepared on white paper (except for covers, dividers and similar sheets) of good quality [with typed or printed matter 6 1/2 inches by 9 1/2 inches].

* * * * *

(3) [The lettering shall be clearly legible and, except as otherwise prescribed in Rule 2171 (method of reproduction) for printed paperbooks, shall be not smaller than typewriting pica with line spacing (except for quotations) not closer than typewriting double spacing.] The text must be double spaced, but quotations more than two lines long may be indented and single spaced. Except as provided in subdivision (2), margins must be at least one inch on all four sides.

(4) The lettering shall be clear and legible and no smaller than point 11. The lettering shall be on only one side of a page, except that exhibits and similar supporting documents and paperbooks may be lettered on both sides of a page.

(5) [Firmly bound.] Any metal fasteners or staples must be covered. Documents and papers must be firmly bound.

* * * * *

(c) *Copies.* Except as otherwise prescribed by these rules:

* * * * *

(2) An original and [seven] eight copies of any other application in the Supreme Court and an original and three copies of any other application in the Superior Court or the Commonwealth Court shall be filed, but the court may require that additional copies be furnished.

[Official Note: Subdivision (a) is intended to provide a “safe harbor” upon which the bar may rely in preparing appellate papers. The effect of the 8 1/2 inch by 11 inch requirement will be to effectively mandate the future use of letter-size paper throughout the unified judicial system, since the requirement extends to original records filed pursuant to Chapter 19 (preparation and transmission of record and related matters). The requirement is prospective only, however. It will not be necessary or appropriate to transcribe any existing legal-size or printed brief-size (6 inch by 9 inch) documents onto letter-size paper. Moreover, it is anticipated that a reasonable time (approximately six months after the requirement takes effect) will be required to permit the exhaustion of existing supplies of legal-size forms and other documents. After March 1, 1980 the clerk of a court should accept a document (whether an order, opinion, transcript, pleading, brief, reproduced record or otherwise) on other than letter-size paper only upon a showing of exceptional circumstances.

Paragraph (a)(5) is based on Third Circuit Rule 21(2)A(b).

Under these rules a reference to “two copies” or the like does not imply that a third document is required; the terminology is used so as to permit the filing party to retain the executed original and file only photocopies. Thus under Rule 905 (filing of notice of appeal) an original and two copies of the notice of appeal are not required; only two photocopies.

Explanatory Note: Supreme Court “short paper” (i.e. 11 inch rather than 13 or 14 inch legal size) rule is extended to the entire Pennsylvania judicial system. This result follows from a new requirement that all papers filed in an appellate court, including the original record made before the trial court, be submitted on short paper. The change also applies to printed paperbooks (briefs and reproduced records). The note to the rule makes clear that the change is prospective only, but that by early 1980 it is anticipated that the bar and all elements of the Pennsylvania judicial system will have converted over to the use of modern letter-size paper.]

ARTICLE II. APPELLATE PROCEDURE
CHAPTER 21. BRIEFS AND REPRODUCED
RECORD
CONTENT OF BRIEFS

Rule 2135. Length of Briefs.

[Except by permission of the court, briefs (exclusive of pages containing the table of contents, tables of citations and any addendum containing opinions, etc., or any other similar supplementary matter provided for by these rules) shall not exceed:

(1) 50 pages of conventional typographical printing or 70 pages of reproduction by any other process of duplicating or copying, in the case of principal briefs.

(2) 15 pages of conventional typographical printing or 25 pages of reproduction by any other process of duplicating or copying, in the case of reply briefs.]

(a) *General Rule.* Unless otherwise provided by an appellate court:

(1) a principal brief shall not exceed 70 pages of production when produced on a word processor/computer or typewriter.

(2) a reply brief shall not exceed 25 pages of production when produced on a word processor/computer or typewriter.

(b) *Supplementary Matter.* Pages containing the table of contents, tables of citations and any addendum containing opinions, etc., or any other similar supplementary matter provided for by these rules shall not count against the page limitations set forth in subdivision (a) of this rule.

Official Note—2003: The 2003 amendment eliminates a confusing distinction between typewritten, word processor/computer and conventional offset printing methods of production which are no longer meaningful. In light of the 1979 amendments eliminating paperbooks and the advances in word processor/computer technology, offset printing of briefs has become obsolete as a method for production of briefs. The 2003 amendment permits typewritten briefs despite the fact that the vast majority of briefs are produced on word processor/computers.

A principal brief is any party's initial brief and, in the case of a cross appeal, the appellant's second brief, which responds to the initial brief in the cross appeal. See the notes to Pa.R.A.P. 2136. Reply briefs permitted by Rule 2113 and any subsequent brief permitted by leave of court are subject to the page limit set by this rule.

It is important to note that each appellate court has the option of reducing the number of pages allowed for a brief, either by general rule, see Chapter 33 (Business of the Supreme Court), Chapter 35 (Business of the Superior Court), and Chapter 37 (Business of the Commonwealth Court), or by order in a particular case.

FORM OF BRIEFS AND REPRODUCED RECORD

Rule 2171. Method of Reproduction. Separate Brief and Record.

(a) *General Rule.* Briefs and reproduced records may be [produced] reproduced by [conventional typographical printing or by] any duplicating or copying process which produces a clear black image on white paper. [Briefs and records reproduced by conventional typographical printing shall be printed throughout from type at least as large as point 11 with 2 point lead. Briefs and records not reproduced by conventional typographical printing shall be firmly bound at the left margin so that they may be conveniently bound together as a volume.] Briefs and records shall comply with the requirements of Rule 124 and shall be firmly bound at the left margin.

(b) *Separate brief and record.* In all cases the reproduced record may be [reproduced] bound separately, and must be if it and the brief together contain more than 100 pages.

* * * * *

[Explanatory Note: Conforming changes are made to this rule.]

Title 231—RULES OF CIVIL PROCEDURE

PART I. GENERAL

[231 PA. CODE CH. 1000]

Amendment of Rule 1035.3 Governing Summary Judgment; No. 390 Civil Procedural Rules; Doc. No. 5

Order

Per Curiam:

And Now, this 16th day of May, 2003, Pennsylvania Rule of Civil Procedure 1035.3 is amended to read as follows.

This Order shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective September 1, 2003.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1000. ACTIONS AT LAW

Subchapter A. CIVIL ACTION

PLEADINGS

Rule 1035.3. Response. Judgment for Failure to Respond.

(a) [The] Except as provided in subdivision (e), the adverse party may not rest upon the mere allegations or denials of the pleadings but must file a response within thirty days after service of the motion identifying

* * * * *

(e)(1) Nothing in this rule is intended to prohibit a court, at any time prior to trial, from ruling upon a motion for summary judgment without written responses or briefs if no party is prejudiced. A party is prejudiced if he or she is not given a full and fair opportunity to supplement the record and to oppose the motion.

(2) A court granting a motion under subdivision (e)(1) shall state the reasons for its decision in a written opinion or on the record.

Official Note: Subdivision (e) does not abrogate the requirement that a motion for summary judgment be timely filed pursuant to Rule 1035.2 or case management order.

If a motion is not timely filed, subdivision (e) provides the court with the discretion as to the manner of proceeding, including whether to consider the motion at all. The court should not consider the motion except in the interests of justice.

Explanatory Comment

As a result of a ruling on a motion in limine or another development in a case, shortly prior to trial a defendant may seek dismissal of the case on the ground that the plaintiff is without evidence to make out a prima facie case. While this ground may be raised through a motion for summary judgment, the rules governing summary judgment provide for the filing of a response within thirty days after the filing of a motion for summary judgment. The only other remedy for inability to make out a prima facie case is a compulsory nonsuit which may be entered pursuant to Rule 230.1(a)(1) only "at the close of the plaintiff's case on liability." These rules leave a gap between the motion for summary judgment with the thirty-day response period and the nonsuit at the end of the plaintiff's case in chief.

New subdivision (e) added to Rule 1035.3 eliminates the gap by providing that a court has the discretion to rule on a motion for summary judgment "at any time prior to trial." However, the rule places two conditions upon the exercise of this discretion. First, each party must be given a full and fair opportunity to supplement the record and to oppose the motion so that "no party is prejudiced." Second, if the motion is granted, the court must state the reasons for its decision in a written opinion or on the record.

PROPOSED RULEMAKING

GAME COMMISSION

[58 PA. CODE CHS. 131, 143 AND 147]

Hunter ID Number

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 8, 2003, meeting, proposed the following amendments:

Amend §§ 131.2, 143.202 and 147.701 (relating to definitions; application; and general) to define and implement the issuance of a "hunter ID number."

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the April 8, 2003, meeting of the Commission and comments can be sent until June 20, 2003, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Introduction

The Commission is proposing to define and implement the issuance of a "hunter ID number" by amending §§ 131.2, 143.202 and 147.701.

2. Purpose and Authority

Current regulations allow an applicant for an elk license or bobcat permit to provide a Social Security number or "some other appropriate form of individual identification" to have a unique identifier for each individual in the database and to permit crosschecks for duplicates. The Commission is proposing to implement a system whereby it will assign an applicant an individualized "hunter ID number" when that applicant does not have a Social Security number to articulate what will be considered an appropriate form of individual identification. The Commission will use this "hunter ID number" for identification and cross-referencing purposes.

Section 2722(g)(2) of the code (relating to authorized license-issuing agents) directs the Commission to adopt regulations for the administration, control and performance of license issuing activities. Section 2901(b) of the code (relating to authority to issue permits) provides: "The commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit . . ." Section 2102(a) of the code (relating to regulations) provides: "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth . . ." These provisions provide the statutory basis for the proposed rulemaking.

3. Regulatory Requirements

The proposed rulemaking defines and implements the issuance of a "hunter ID number" to be used in the application process for elk licenses or bobcat permits when the applicant does not have a Social Security number.

4. Persons Affected

Persons who wish to apply for an elk license or bobcat permit and do not have a Social Security number will be affected by the proposed rulemaking.

5. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

6. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. Contact Person

For further information regarding the proposed rulemaking, contact Michael A. Dubaich, Director, Bureau of Law Enforcement, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

**[58 PA. CODE CH. 141]
Hunting and Trapping; Deer**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 8, 2003, meeting, proposed the following amendment:

Amend § 141.43(g) (relating to deer) to permit the cooperation of hunters who are properly licensed to hunt during a particular deer season.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the April 8, 2003, meeting of the Commission and comments can be sent until June 20, 2003, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Introduction

The Commission is proposing to amend § 141.43(g) to permit the cooperation of any hunters who are properly licensed to hunt during a particular deer season.

2. Purpose and Authority

Currently, hunters are required to have a doe license from the county in which they are hunting to drive deer for other hunters who are hunting doe in that county. In light of the recently adopted larger deer management units, this provision is no longer practical. Current regulations permit properly licensed hunters to cooperate and drive deer for each other when deer seasons run concurrently. For example, an archery hunter is permitted to drive deer for a rifle hunter or muzzleloader hunter and vice versa during the concurrent October seasons. However, the same archery hunter, who does not have an antlerless license, may not drive deer for a rifle or muzzleloader hunter who may only hunt doe in that early season. The concurrent buck/doe seasons only add to this type of confusion over cooperation between archery, muzzleloader and rifle hunters.

The proposed amendment to § 141.43(g) will permit any hunter, who is properly licensed to hunt in a specific deer season, to cooperate with other hunters who are also properly licensed to hunt in a specific deer season. For example, archery hunters, muzzleloader hunters and those entitled to use rifles during the October season will be permitted to drive deer for other hunters even if the archery hunters among them do not have a doe license. It will also allow any hunter who is properly licensed to hunt during the concurrent deer season to drive deer for

another hunter who is also properly licensed to hunt during the concurrent deer season, even if either has only an antlerless tag from a different deer management unit and one or both hunters has already harvested a buck.

Section 2102(a) of the code (relating to regulations) provides: "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendment to § 141.43(g) is proposed under this provision.

3. Regulatory Requirements

The proposed rulemaking will permit the cooperation of hunters who are properly licensed to hunt during a particular deer season.

4. Persons Affected

Persons wishing to hunt deer cooperatively during open seasons will be affected by the proposed rulemaking.

5. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

6. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning a proposed plan approval and operating permit. Comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

ACTIVITY APPLICATIONS**

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); and The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal

conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of the NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30 day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8 and the administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection

of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department Regional Office after which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Proposed Revision to the State Implementation Plan for the Enhanced Vehicle Emissions Inspection/Maintenance Program for the Philadelphia Area; Public Hearing

The Philadelphia Severe Ozone Nonattainment Area is comprised of five counties in the southeastern portion of this Commonwealth—Bucks, Chester, Delaware, Montgomery and Philadelphia Counties. The Federal Clean Air Act requires this area to conduct emissions testing on certain motor vehicles registered in that area. To comply with this requirement, the Commonwealth employs a tailpipe testing method known as Acceleration Simulation Mode 5015 as a component of its Enhanced Vehicle Emissions Inspection/Maintenance Program.

The tailpipe emissions testing program employed in the Philadelphia area incorporates exhaust emissions standards, measured as a concentration of pollutants. If a vehicle subject to testing has emissions higher than the standard, the vehicle fails the emissions test. These standards, or cutpoints, vary by model year.

The Environmental Protection Agency (EPA) allows states to use an overall less stringent set of cutpoints during the start-up of a new tailpipe testing program. These "interim" cutpoints must then be replaced with "final" cutpoints to be used for the duration of the program.

On August 16, 2002, the EPA released "revised final" cutpoints giving states the option to use either the original final or the revised final cutpoints in their tailpipe emissions programs. The Commonwealth is proposing to exercise its option, through a revision of the State Implementation Plan (SIP), to implement the revised final cutpoints for the tailpipe testing program in the Philadelphia area.

This proposal is available on the Department's website at <http://www.dep.state.pa.us> (choose Information by Subject/Air Quality/State Implementation Plans) or through the following contact persons.

The Department will hold a public hearing to receive comments on the SIP revision on Wednesday, July 2, 2003, at 1:30 p.m. at the Southeast Regional Office Hearing Room, Lee Park, 555 North Lane, Suite 6010, Conshohocken, PA.

Persons wishing to present testimony at the hearing should reserve a time by contacting Susan Ferree, P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495. Persons who do not reserve a time will be able to testify after pre-registrants. Witnesses should keep testimony to 10 minutes and should provide two written copies at the hearing. Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Wick Havens, (717) 787-9495. TDD users may contact the AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Written comments should be sent by July 3, 2002, to Wick Havens, Chief, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468.

STATE HORSE RACING COMMISSION

Procedures for New or Amended Pari-Mutuel License Applications

1. *License required for all horse race meets.* The Race Horse Industry Reform Act (4 P. S. §§ 325.101—325.402) (act) provides that no corporation shall have the right to conduct horse race meets except on obtaining a license from the State Horse Racing Commission (Commission).

2. *Limited number of horse racing licenses.* Section 205(a) of the act (4 P. S. § 325.205(a)) provides that no more than six corporations shall be licensed by the Commission to conduct a pari-mutuel meet.

3. *More applications filed than available licenses.* The Commission has received more applications for thoroughbred horse racing licenses than are authorized by the act. The Commission does not have the power under the act to issue licenses to all applicants for thoroughbred horse racing licenses. The Commission is not obligated to issue any license despite the availability of a license. The Commission will be charged with reviewing the pending applications submitted under its respective jurisdiction as set forth in the act.

4. *Information about application procedure.* The Commission believes that it is in the public interest under section 209 of the act (4 P. S. § 325.209) and the best interests of the racing industry in this Commonwealth to establish an administrative review process to treat the applicants as a comparative group for thoroughbred horse race meeting license applications presently pending before the Commissions as well as any new applications or renewals.

In considering the present pending applications and any new applications, the Commission adopts a policy to include the following steps:

A. *Consideration group. Application closing dates.* The Commission will consider applications for pari-mutuel racing licenses made under section 209 of the act comparatively as part of a consideration group identified by an application closing date that is published by the Commission. Application closing dates will be published anytime that the Commission receives or has pending before it more than one application for a license.

B. *Applications.* To qualify to be placed into the consideration group for an available license, each new or amended application must be made using the application form available from the Commission. At a minimum, each new or amended application must contain the standards set forth in Appendix A. (See 7 Pa. Code Chapter 133 (33 Pa.B. 2172 (May 3, 2003).)

No consideration shall be given to any application which is deemed to be untimely filed or deficient by the Commission.

C. *Application closing date.* The Commission hereby establishes a 60-day application period which will begin on May 31, 2003, and close July 29, 2003. No new applications shall be accepted after the closing date. Within that same period, previously submitted applications, which the Commission has deemed deficient by notice to the applicant, must be resubmitted to the Commission with the deficiency corrected.

D. *Resubmission after notice of deficiency.* Applicants who submit new applications the Commission deems deficient will be given the balance of the 60-day time period or 30 days, whichever is longer, to correct the deficiency.

E. *Amendment of application form.* The Commission reserves the right to amend license application forms at any time. If the Commission amends the application forms, the Commission will establish an amended application closing date at least 30 days after the date of the amendment. Applicants with applications pending at the time of the Commission's amendment to the license application form will have until the amended application closing date to resubmit or supplement their applications; however, no new applications can be received during the amended application period.

F. *Group consideration by the Commission.* The Commission establishes a policy in which all new and/or amended applications received by the application closing date shall be placed into a single group for comparative consideration by the Commission.

G. *Process.* The Commission will consider written applications within a consideration group, and, after consideration and comparison of all written applications, may issue available licenses in numbers authorized by the act to those applicants who, in the sole judgment of the Commission, will best serve the public interest, convenience and necessity.

H. *Issuance of licenses.* No license shall be issued until all new and/or amended written applications in the respective consideration group have been considered and examined by the Commission.

State Horse Racing Commission
