READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

Title 207—JUDICIAL CONDUCT

PART II. CONDUCT STANDARDS

[207 PA. CODE CH. 33]

Amendment of Rule 2.11 of the Code of Judicial Conduct; No. 425 Judicial Administration Doc.

Order

Per Curiam

And Now, this 23rd day of June, 2014, *It Is Ordered* pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rule 2.11 of the Code of Judicial Conduct of 2014 is amended in the following form.

To the extent that notice of proposed rulemaking would otherwise be required by Pa.R.J.A. No. 103, the immediate promulgation of the Code of Judicial Conduct of 2014 is found to be in the interests of justice and efficient administration.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective on July 1, 2014.

Annex A

TITLE 207. JUDICIAL CONDUCT

PART II. CONDUCT STANDARDS

CHAPTER 33. CODE OF JUDICIAL CONDUCT

Subchapter A. CANONS

Canon 2. A judge shall perform the duties of judicial office impartially, competently, and diligently.

Rule 2.11. Disqualification.

* * * * *

Comment:

* * * * *

(5) A judge should disclose on the record information that the judge believes the parties or their lawyers might reasonably consider relevant to a possible motion for disqualification, even if the judge believes there is no basis for disqualification.

(6) **Rule 2.11(A)(4) represents a first inroad into complex issues associated with the financing of judicial campaigns in the scheme prescribed by the Pennsylvania Constitution, per which judicial officers are elected by the citizenry. See Pa. Const. art. V, § 13. For example, the rule presently does not address a number of circumstances which have arisen in the context of public judicial elections, including the involvement of political action committees ("PACs"). Under the direction of an independent board of directors, such entities may aggregate then distribute individual contributions among judicial campaigns, political campaigns, their own operating expenses, and other expenditures. There is no attempt, under the present rule, to require disqualification on account of individual contributions made to a PAC, so long as the organization does not serve as the alter-ego of a specific donor or donors. Rulemaking, in this regard, would require further study and deliberation in order to**

appropriately balance all respective interests involved. Thus, the Court has reserved any treatment to a later time.

Title 231—RULES OF CIVIL PROCEDURE

PART I. GENERAL

[231 PA. CODE CHS. 1910, 1915, 1920 AND 1930]

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.16-6. Support Guidelines. Adjustments to the Basic Support Obligation. Allocation of Additional Expenses.

Additional expenses permitted pursuant to this Rule 1910.16-6 may be allocated between the parties even if the parties' incomes do not justify an order of basic support.

* * * * *

(b) Health Insurance Premiums.

(1) A party's payment of a premium to provide health insurance coverage on behalf of the other party and/or the children shall be allocated between the parties in proportion to their net incomes, including the portion of the premium attributable to the party who is paying it, as long as a statutory duty of support is owed to the party who is paying the premium. If there is no statutory duty of support owed to the party who is paying the premium, the portion attributable to that person must be deducted from the premium as set forth in subdivision (2) below. **[Premiums paid by a party to whom no duty of support is owed to cover himself or herself only and that are not necessary to cover the other party or a child as part of a support order shall not be apportioned between the parties.]** If, during the pendency of a divorce action, a party's policy covers that party, a child and a spouse and the spouse has separate coverage not needed to cover the child or the other party, the cost of the spouse's insurance premium shall not be apportioned between the parties. **If, during the pendency of a divorce action, a party provides coverage for that party and a child, but not the spouse, and the spouse has separate coverage, the spouse's insurance premium shall be apportioned between the parties.** If health insurance coverage for a child who is the subject of the support proceeding is being provided and paid for by a third party resident of either party's household, the cost shall be allocated between the parties in proportion to their net incomes. If the obligor is paying the premium, then the obligee's share is deducted from the obligor's basic support obligation. If the obligee is paying the premium, then the obligor's share is added to his or her basic support obligation. Employer-paid premiums are not subject to allocation.

* * * * *

(3) Pursuant to 23 Pa.C.S. § 4326(a), in every support proceeding, the court must ascertain each parent’s ability to provide medical support for the parties’ children and the support “order shall include a requirement for medical support to be provided by either or both parents, provided that such medical support is accessible to the children.”

(i) The non-custodial parent bears the initial responsibility of providing health care coverage for the children if it is available at a reasonable cost. “Reasonable cost” to an obligor shall be defined as an amount that does not exceed 5% of the obligor’s net monthly income and, when added to the amount of basic child support plus additional expenses the obligor is ordered pay, does not exceed 50% of the obligor’s net monthly income. **If the obligee is providing the coverage, the reasonable amount of the obligor’s share shall be defined as an amount that does not exceed 5% of the obligor’s net monthly income and, when added to the amount of basic child support plus additional expenses the obligor is ordered to pay, does not exceed 50% of the obligor’s net monthly income.**

* * * * *

(c) *Unreimbursed Medical Expenses.* Unreimbursed medical expenses of the obligee or the children shall be allocated between the parties in proportion to their respective net incomes. Notwithstanding the prior sentence, there shall be no apportionment of unreimbursed medical expenses incurred by a party who is not owed a statutory duty of support by the other party. The court may direct that the obligor’s share be added to his or her basic support obligation, or paid directly to the obligee or to the health care provider.

* * * * *

(3) Annual expenses pursuant to this subdivision (c), shall be calculated on a calendar year basis. In the year in which the initial support order is entered, or in any period in which support is being paid that is less than a full year, the \$250 threshold shall be pro-rated. Documentation of unreimbursed medical expenses that either party seeks to have allocated between the parties shall be provided to the other party not later than March 31 of the year following the calendar year in which the final bill was received by the party seeking allocation. For purposes of subsequent enforcement, unreimbursed medical bills need not be submitted to the domestic relations section prior to March 31. Allocation of unreimbursed medical expenses for which documentation is not timely provided to the other party shall be within the discretion of the court.

(4) If the trier of fact determines that out-of-network medical expenses were not obtained due to medical emergency or other compelling factors, the court may decline to assess any of such expenses against the other party.

[(4)] (5) In cases involving only spousal support or alimony pendente lite, the parties’ respective net incomes for purposes of allocating unreimbursed medical expenses shall be calculated after the amount of spousal support or alimony pendente lite is deducted from the obligor’s income and added to the obligee’s income.

(d) Upon entry of a decree in divorce, any existing order for spousal support shall be deemed an order for alimony pendente lite if any economic claims remain pending.

(e) If a party dies and the divorce action is continuing pursuant to 23 Pa.C.S. § 3323(d.1), an existing alimony pendente lite order may continue as an obligation of the obligor decedent’s estate, subject to modification. The amount of alimony to be awarded to the surviving spouse shall be calculated using only the income of the surviving spouse and the decedent’s estate.

Explanatory Comment—2014

A divorce action may continue after the death of a party pursuant to 23 Pa.C.S. § 3323(d.1) if grounds for divorce have been established. Alimony

pendente lite is intended to provide the financial ability to pursue or defend a divorce action and may continue until the economic issues are resolved.

TITLE 246. MINOR COURT CIVIL RULES

PART I. GENERAL

CHAPTER 1000. APPEALS

APPEAL

(Editor’s Note: Following is proposed revision 1.)

Rule 1002. Time and Method of Appeal.

[A. A party aggrieved by a judgment for money, or a judgment affecting the delivery of possession of real property arising out of a nonresidential lease, may appeal therefrom within thirty (30) days

after the date of the entry of the judgment by filing with the prothonotary of the court of common pleas a notice of appeal on a form which shall be prescribed by the State Court Administrator together with a copy of the Notice of Judgment issued by the magisterial district judge. The Prothonotary shall not accept an appeal from an aggrieved party which is presented for filing more than thirty (30) days after the date of entry of judgment without leave of Court and upon good cause shown.

B. A party aggrieved by a judgment for the delivery of possession of real property arising out of a residential lease may appeal therefrom within ten (10) days after the date of the entry of judgment by filing with the prothonotary of the court of common pleas a notice of appeal on a form which shall be prescribed by the State Court Administrator, together with a copy of the Notice of Judgment issued by the magisterial district judge. The prothonotary shall not accept an appeal from an aggrieved party which is presented for filing more than ten (10) days after the date of entry of judgment without leave of court and upon good cause shown.]

A(1) Except as otherwise prescribed by this rule, a notice of appeal shall be filed within thirty (30) days after the date of entry of judgment from which the appeal is taken.

(2) A notice of appeal from a judgment that concerns a residential lease shall be filed within ten (10) days after the date of entry of judgment from which the appeal is taken. If, however, the tenant is a victim of domestic violence, a notice of appeal shall be filed within thirty (30) days after the date of entry of the judgment from which the appeal is taken.

B. An appeal shall be filed by filing a notice of appeal with the prothonotary of the court of common pleas on a form that shall be prescribed by the State Court Administrator. The prothonotary shall not accept a notice of appeal that is presented after the expiration of the time period specified above in subdivision A without leave of court and upon good cause shown.

Official Note: The 2014 amendment is intended to clarify that the time for an appeal is thirty (30) days in all cases with the exception of the ten (10) day period that exists in cases that concern a residential lease and in which the tenant is not a victim of domestic violence. Accordingly, in a case that concerns a residential lease, appeals must generally be brought within ten (10) days after the date of entry of judgment. The ten (10) day appeal period is applicable in cases concerning residential leases when the judgment is for possession only or for possession and money. When, however, the underlying case concerns a residential lease and the tenant is victim of domestic violence or the judgment is for money only, the appeal period is thirty (30) days.

The 2014 amendment provides additional time to a victim of domestic violence when a judgment arises out of a residential lease and contains an award of possession. A “victim of domestic violence” is defined as “a person who has obtained a protection from abuse order against another individual or can provide other suitable evidence as the court

shall direct.” See 68 P. S. § 250.513. It is the intent of this rule that should a determination be necessary as to whether or not a tenant is a victim of domestic violence, that determination would be made by the court of common pleas following the filing by a landlord of a motion to quash an appeal for being untimely.

The thirty (30) day [limitation in subdivision A of this rule is the same as that found in the Judicial Code § 5571(b)] appeal period set forth above is consistent with the appeal period found in Section 5571(b) of the Judicial Code, 42 Pa.C.S. § 5571(b), as amended by § 10(67) of the Judiciary Act Repealer Act, Act of April 28, 1978, P. L. 202, No. 53. The ten (10) day limitation in [subdivision B] paragraph A(2) of this rule is designed to implement the time for appeal set forth in § 513 of the Landlord and Tenant Act of 1951 (Act No. 1995-33, approved July 6, 1995) (Act No. 1995-33 was suspended by the Pa. Supreme Court on March 28, 1996 by Order of Court insofar as the Act is inconsistent with Rules of Civil Procedure Governing Actions and Proceedings Before District Justices, as adopted by that Order.). [The two subdivisions of this rule are intended to clarify that where the right of possession of residential real estate is at issue, the shorter, ten day period for appeal applies; where the appeal is taken from any judgment for money, or a judgment affecting a nonresidential lease, under these rules, the thirty day period of time for appeal applies. A party may appeal the money portion of a judgment only within the thirty day appeal period specified in subsection A of this rule.] It is the intent of this rule that no supersedeas under Pa.R.C.P.D.J. No. 1008 shall be issued by the Prothonotary after the ten (10) day period for filing an appeal, unless by order of court.

In a landlord-tenant action, the court is authorized to enter only one judgment which may contain a monetary award and authorize the landlord to regain possession of the leasehold through lawful process. Any appeal is from one judgment and cannot be parsed at the will of the party taking the appeal.

If a court enters a judgment in a case arising out of a residential lease that includes an award of money and a right to possession, a tenant, who is not a victim of domestic violence, or a landlord who wishes to take an appeal must do so within ten (10) days of the entry of the judgment even if the tenant has vacated the leasehold after the entry of the judgment. See Section 513(b) of the Act and *Cherry Ridge Dev. v. Chenoga*, 703 A.2d 1061 (Pa. Super. 1997).

In *Cherry Ridge*, a magisterial district judge entered a judgment in favor of a landlord for possession of the premises and a monetary judgment. See *Cherry Ridge* at 1062. The issue on appeal that the Superior Court addressed was “[w]hat is the time period to file an appeal when an Order for both possession and money judgment is entered by a District Justice?” *Id.* The Superior Court held that the then Rule 1002 provided the tenant with ten (10) days and not thirty (30) days to take an appeal. In reaching that conclusion, the Superior Court observed that the tenant “does not appeal from a judgment only for money,” but from a judgment for possession with an ancillary award for damages

[and that] she does not appeal from a ‘judgment affecting a nonresidential lease.’” *Cherry Ridge* at 1063. As noted above, the proposed changes to the revised rule clarify that there is only one judgment from which an appeal is taken. Therefore, while the proposed rule would also provide for a ten (10) appeal period, it does so without the need for the type of analysis that the Superior Court used in *Cherry Ridge*.

The method of appeal is by filing with the prothonotary a “notice of appeal” on a form to be prescribed by the State Court Administrator. Copies of this same form will be used for service under Pa.R.C.P.M.D.J. No. 1005. This permits use of the same form for filing and service. No useful purpose would be served by having two forms, one called an “appeal” for filing and another called a “notice of appeal” for service.

The 1990 amendment is intended to encourage the complete utilization of the hearing process available before the magisterial district judge.

A copy of the Notice of Judgment must be filed since it will contain the separate entries required by Pa.R.C.P.M.D.J. No. 514.A and will be needed by the Prothonotary.

Explanatory Comment—2001

The January 1, 2001, amendments to Rule 1002(A) and (B) are to make the language within the Rule consistent. Previously, the Rule used the words “date of entry of judgment” and then “date of judgment”. It is the opinion of the Committee that the phrase “date of entry of judgment” should be used and that it should be used consistently throughout the Rule.

[The amendment to the Note is necessitated because Rule 514 requires that a judgment be rendered for the delivery of possession of the real property to the plaintiff and a separate entry of a judgment for money, whether it be for rent, damages, or costs. The separate entry of the judgment for money should be treated the same as a judgment in a civil action and there are no additional exigencies requiring an accelerated appeal period. The ten (10) day appeal period should only be applicable to the possession judgment and not to the money judgment.

The purpose of this amendment to the Note and this Explanatory Comment is to clarify the intent of the Rule to permit an appeal of the money judgment only within the thirty (30) day appeal period. See *Cherry Ridge Development v. Chenoga*, 703 A.2d 1061 (Pa. Super. 1997).]

(Editor’s Note: Following is proposed revision 2.)

Rule 1002. Time and Method of Appeal.

[A. A party aggrieved by a judgment for money, or a judgment affecting the delivery of possession of real property arising out of a nonresidential lease, may appeal therefrom within thirty (30) days after the date of the entry of the judgment by filing with the prothonotary of the court of common pleas a notice of appeal on a form which shall be prescribed by the State Court Administrator together with a copy of the Notice of Judgment issued by the magisterial district judge. The Prothonotary shall not accept an appeal from an aggrieved party which is presented for filing more than thirty (30)

days after the date of entry of judgment without leave of Court and upon good cause shown.

B. A party aggrieved by a judgment for the delivery of possession of real property arising out of a residential lease may appeal therefrom within ten (10) days after the date of the entry of judgment by filing with the prothonotary of the court of common pleas a notice of appeal on a form which shall be prescribed by the State Court Administrator, together with a copy of the Notice of Judgment issued by the magisterial district judge. The prothonotary shall not accept an appeal from an aggrieved party which is presented for filing more than ten (10) days after the date of entry of judgment without leave of court and upon good cause shown.]

A(1) Except as otherwise prescribed by this rule, a notice of appeal shall be filed within thirty (30) days after the date of entry of judgment from which the appeal is taken.

(2) A notice of appeal from a judgment that concerns only the delivery of possession of real property arising out of a residential lease shall be filed within ten (10) days after the date of entry of the judgment from which the appeal is taken. If, however, the tenant is a victim of domestic violence, a notice of appeal shall be filed within thirty (30) days after the date of entry of the judgment from which the appeal is taken.

B. An appeal shall be filed by filing a notice of appeal with the prothonotary of the court of common pleas on a form that shall be prescribed by the State Court Administrator. The prothonotary shall not accept a notice of appeal that is presented after the expiration of the time period specified above in subdivision A without leave of court and upon good cause shown.

Official Note: The 2014 amendment is intended to clarify that the time for an appeal is thirty (30) days in all cases with the exception of the ten (10) day period that exists in cases that concern a residential lease and in which the judgment is for possession only and the tenant is not a victim of domestic violence. The thirty (30) day appeal period, therefore, is applicable in cases concerning residential leases when the judgment is for possession and money, money only or when the tenant is a victim of domestic violence.

The 2014 amendment provides additional time to a victim of domestic violence when a judgment arises out of a residential lease and contains an award of possession. A “victim of domestic violence” is defined as “a person who has obtained a protection from abuse order against another individual or can provide other suitable evidence as the court shall direct.” See 68 P. S. § 250.513. It is the intent of this rule that should a determination be necessary as to whether or not a tenant is a victim of domestic violence, that determination would be made by the court of common pleas following the filing by a landlord of a motion to quash an appeal for being untimely.

The thirty (30) day [limitation in subdivision A of this rule is the same as that found in] appeal period set forth above is consistent with the appeal period found in Section 5571(b) of the Judicial Code

[§ 5571(b)], 42 Pa.C.S. § 5571(b), as amended by § 10(67) of the Judiciary Act Repealer Act, Act of April 28, 1978, P. L. 202, No. 53, and in the July 6, 1995 amendment (Act No. 1995-33) to Section 513(b) of the Landlord and Tenant Act of 1951 (“Act”), Act of April 6, 1951, P. L. 69, as amended, 68 P. S. 250.513(b). The ten (10) day limitation in [subdivision B of this rule is designed to implement the time for appeal set forth in § 513 of the Landlord and Tenant Act of 1951 (Act No. 1995-33, approved July 6, 1995) (Act No. 1995-33 was suspended by the Pa. Supreme Court on March 28, 1996 by Order of Court insofar as the Act is inconsistent with Rules of Civil Procedure Governing Actions and Proceedings Before District Justices, as adopted by that Order.)] paragraph A(2) of this rule is consistent with the time for appeal set forth in the July 6, 1995 amendment. [The two subdivisions of this rule are intended to clarify that where the right of possession of residential real estate is at issue, the shorter, ten day period for appeal applies; where the appeal is taken from any judgment for money, or a judgment affecting a nonresidential lease, under these rules, the thirty day period of time for appeal applies. A party may appeal the money portion of a judgment only within the thirty day appeal period specified in subsection A of this rule.] It is the intent of this rule that no supersedeas under Pa.R.C.P.D.J. No. 1008 shall be issued by the Prothonotary after the [ten (10) day] period for filing an appeal, unless by order of court.

In a landlord-tenant action, the court is authorized to enter only one judgment which may contain a monetary award and authorize the landlord to regain possession of the leasehold through lawful process. Any appeal is from one judgment and cannot be parsed at the will of the party taking the appeal.

If a court enters a judgment in a case arising out of a residential lease that includes an award of money and a right to possession, a tenant, whether or not a victim of domestic violence, or a landlord who wishes to take an appeal must do so within thirty (30) days of the entry of the judgment regardless of whether or not the tenant has vacated the leasehold after the entry of the judgment. Under this circumstance, the rule provides more time within which to take an appeal than Section 513(b) of the Act and as the Superior Court interpreted in then Rule 1002 in *Cherry Ridge Dev. v. Chenoga*, 703 A.2d 1061 (Pa. Super. 1997).

The method of appeal is by filing with the prothonotary a “notice of appeal” on a form to be prescribed by the State Court Administrator. Copies of this same form will be used for service under Pa.R.C.P.M.D.J. No. 1005. This permits use of the same form for filing and service. No useful purpose would be served by having two forms, one called an “appeal” for filing and another called a “notice of appeal” for service.

The 1990 amendment is intended to encourage the complete utilization of the hearing process available before the magisterial district judge.

A copy of the Notice of Judgment must be filed since it will contain the separate entries required by Pa.R.C.P.M.D.J. No. 514.A and will be needed by the Prothonotary.

REPORT

Proposed Amendments to Rule 1002 of the Pennsylvania Rules of Civil Procedure before Magisterial District Judges**Time and Method of Appeal; Incorporating Additional Time for Appeal by Victim of Domestic Violence in Residential Landlord-Tenant Case***I. Introduction and Background*

The Minor Court Rules Committee (the "Committee") is proposing amendments to the Pennsylvania Rules of Civil Procedure before Magisterial District Judges governing appeals taken from judgments entered in magisterial district courts. The goals of these rule changes are (1) to clarify the appeal periods for all civil and landlord-tenant judgments, and (2) to provide additional time to victims of domestic violence when a judgment arises out of a residential lease and contains an award of possession.

The Committee began looking at this issue in 2011, after reviewing the opinion in the Philadelphia Municipal Court case of *Luck Ent. LLC v. Melton*, <http://www.courts.phila.gov/pdf/opinions/mc/LT0911033436.pdf>, LT-09-11-03-3436 (Phil. Mun. Ct. 2011) (Moss, J.). That court had "forward[ed] a copy of th[e] Opinion to the Philadelphia Municipal Court, the Minor Court Rules Committee and the Court of Common Pleas of Philadelphia County so that they might review their rules to determine whether or not to refine the language of their rules." See *Luck Ent. LLC* at 13, n. 8.

When a landlord brings a landlord-tenant action against a tenant, the landlord has the right to seek a judgment providing for the recovery of money damages and for the right to use lawful process to recover possession of the property. If the landlord prevails at trial, the court will enter a judgment that provides for one of the following: (1) the right to use lawful process to recover possession of the property; (2) an award of money damages; or (3) both an award of money damages and the right to use lawful process to recover possession of the property.

A judgment providing for only the right to use lawful process to recover possession of the property will be entered when the tenant remains in possession of the property, owes no money to the landlord, and the landlord has proven that the tenant has breached a condition of the lease, such as a no pet provision, or that the term of the lease has expired and that the lease has been properly terminated. A judgment providing for only money damages will be entered when the landlord has proven that the tenant owes rent or other monetary compensation under the terms of the lease and the tenant is no longer in possession of the property as a result of, for example, moving out and returning the keys to the landlord after the landlord-tenant complaint was filed but before trial.

Thirty days from the entry of an Order is the standard period of time for taking an appeal. See 42 Pa.C.S. § 5571; Pa.R.A.P. 903. There are, however, exceptions to the thirty-day standard. Generally, when the appeal period is less than thirty days, there is a special reason to shorten the appeal period. For example, the time for appeal from an order in any matter arising under the Pennsylvania Election Code is generally for a lesser time than thirty days because of the need for the courts to resolve such appeals within the short time period between the submission of nominating petitions and the election. See 42 Pa.C.S. § 5571(c)(1).

In the context of landlord-tenant actions, there are two competing interests when possession of the property is at

issue. The landlord has an interest in regaining possession of the leased property as quickly as possible. The tenant, however, has an interest in remaining in the property as long as possible in order to have sufficient time to make arrangements to pack belongings and to move to another property. These competing interests do not exist when the tenant has returned possession of the property to the landlord prior to trial.

The law has continually sought to strike a fair balance between the competing interests of the landlord and the tenant. Prior to the addition on July 6, 1995 of Section 513(b) to the Landlord and Tenant Act of 1951 ("Act"), Act of April 6, 1951, P.L. 69, as amended, 68 P.S. § 250.513(b), Sections 504 and 506 of the Act provided for only five days after the entry of a judgment within which to take an appeal.

In 1995, the General Assembly rebalanced the competing interests between landlords and tenants by distinguishing between residential and nonresidential leases, and between instances in which there was a residential lease involving a victim of domestic violence. Section 513(b) envisions three situations applicable to the time for taking an appeal in a landlord-tenant action. One situation is when a judgment arises out of a residential lease, another is when a judgment arises out of a nonresidential lease, and the third situation is when a judgment arises out of a residential lease in which a victim of domestic violence is involved. In the first situation, there are ten days within which to take an appeal. In the second and third situations, there are thirty days within which to take an appeal. Section 513(b) provides the following:

(b) Within ten days after the rendition of judgment by a lower court arising out of residential lease or within thirty days after a judgment by a lower court arising out of a nonresidential lease or a residential lease involving a victim of domestic violence, either party may appeal to the court of common pleas and the appeal by the tenant shall operate as a supersedeas only if the tenant pays in cash or bond the amount of any judgment rendered by the lower court or is a victim of domestic violence and pays, in cash, any rent which becomes due during the court of common pleas proceedings within ten days after the date each payment is due into an escrow account with the prothonotary or the supersedeas shall be summarily terminated.

Although the Supreme Court of Pennsylvania ("Court") suspended Section 513(b) by entering a number of Orders, it never declared Section 513(b) unconstitutional. Eventually, the Court adopted Pa.R.C.P.M.D.J. No. 1081 which provides that Section 513(b) is suspended to the extent that it is inconsistent with the rules governing appellate proceedings with respect to judgment and other decisions of magisterial district judges in civil actions. The Court, however, did not elaborate on any such inconsistencies and did not suspend Section 513(b) as it applies to the Philadelphia Municipal Court or to the Courts of Common Pleas.

II. Discussion

In *Luck Ent. LLC*, the court examined the rule making history of Pa.R.C.P.M.D.J. No. 1002 within the context of changes to the Act. The Committee agreed that Rule 1002 was in need of refinement, specifically (1) to clarify the appeal periods for all civil and landlord-tenant judgments and (2) to provide additional time to victims of domestic violence when a judgment arises out of a residential lease and contains an award of possession.

The Committee published proposed rules for public comment at Volume 42, *Pennsylvania Bulletin*, p. 7525 (42 Pa.B. 7525, December 15, 2012). Based on the analysis in *Luck Ent. LLC*, the Committee believed that an action in a magisterial district court results in one judgment, not multiple judgments that can be parsed and appealed individually. The Committee agreed with the court in *Luck Ent. LLC* that the Committee's 2001 Explanatory Comment to Rule 1002 suggests that there can be two separate judgments in a landlord-tenant action, and proposes eliminating those portions of the 2001 Explanatory Comment. See *Luck Ent. LLC* at 11-12.

The Committee also proposed patterning the language of Rule 1002 more closely to Section 513 of the Act to reflect the available timeframes for appeal. Additionally, the Committee proposed adding additional time for a victim of domestic violence to appeal a judgment arising out of a residential lease that contains an award of possession. Such a change is consistent with Section 513(b) of the Act. Rule 1002 currently does not contain such a provision.

In response to publication, the Committee received correspondence from the bench and bar. Much of the correspondence expressed concern that the proposed rules would create additional burdens on impoverished tenants by establishing the time for all appeals from judgments arising out of residential leases at ten days. Many of the commenters pointed out that the Committee was not bound by Section 513 of the Act to the extent it conflicted with the Court's procedural rules.

Other correspondents wrote to commend the Committee for extending the appeal period for victims of domestic violence. Additionally, there were no objections to maintaining a thirty-day appeal period when the judgment concerned nonresidential leases or a ten-day appeal period when the judgment concerned only the right to use lawful process to recover possession of the property in the context of a residential lease.

The quandary that remains is the amount of time that tenants and landlords should have to take an appeal when the judgment provides for both money damages and the right to use lawful process to recover possession of the property, the matter involves a residential lease, and a victim of domestic violence is not involved.

The Committee gave careful consideration to the comments submitted by interested parties, and decided further analysis was needed to reach a final recommendation. The Committee recognizes that Section 513 of the Act has been suspended by the Court to the extent it is inconsistent with the rules.¹ Therefore, while the Committee is under no obligation to amend Rule 1002 to conform to Section 513, it may make recommendations to do so, and the Court could adopt rule changes to make the rule consistent with the statute. The Committee was also sensitive to the concerns raised by the public interest bar, taking note of the predicted hardships to poor litigants. Finally, the Committee recognized an interest in modifying the language of Rule 1002 to more closely follow that of Section 513, Pa.R.A.P. 903 and 42 Pa.C.S. § 5571. For example, the Committee proposes deleting references to "a party aggrieved by a judgment" in favor of focusing on the nature of the judgment, such as "an appeal from a judgment arising out of a residential lease."

After additional discussion and consideration of the prior comments, the Committee has arrived at two com-

peting proposals and again seeks the comments of the bench and bar. The primary difference between the two proposals is that one proposal provides for a thirty-day appeal period in the context of a residential lease, not involving a victim of domestic violence, in which the judgment provides for both money damages and the right to use lawful process to recover possession of the property. The other proposal provides for a ten-day appeal period in such a situation.

III. Proposed Rule Changes

Proposed Revision 1 is akin to the proposal as published in December 2012, and adheres to the timeframes established in Section 513 of the Act, bringing all appeals from judgments arising out of residential leases (except those involving domestic violence victims) within the ten (10) day period. Proposed Revision 2 differs only with respect to the situation in which a case arising out of a residential lease that does not involve a domestic violence victim results in a judgment providing for the use of legal process to regain possession and an award of money damages. Under Proposed Revision 1, the appeal period is ten (10) days. Under Proposed Revision 2, the appeal period is thirty (30) days.

In cases in which a judgment is entered that permits the landlord to use lawful process to recover possession of the property at issue and an award of money, the Committee continues to search for a fair and appropriate balance between the competing interests of landlords and residential tenants who are not victims of domestic violence. While the Committee favors the ten (10) day appeal period in Proposed Revision 1 as an appropriate and fair balance between the competing interests of landlords and tenants, it is taking the unusual step of submitting Proposed Revision 2 as a means of recognizing the prior comments of proponents for tenants' rights who favored a thirty (30) appeal period in that situation.

The Committee also proposes eliminating the phrase "aggrieved by a judgment" from Rule 1002. That language is not used in Section 513 of the Act, Pa.R.A.P. 903 or 42 Pa.C.S. § 5571. Additionally, the "aggrieved by" language is commonly used when discussing whether or not a party has standing to file an appeal and contributes to the existing ambiguity under present Rule 1002 as to the time within which to file an appeal under various scenarios.

Rather than the appeal period being viewed from the perspective of whether or not a party considered itself to be aggrieved by all or some of the relief provided by a judgment, the Committee agreed with the court in *Luck* that it would be clearer to identify the appeal time periods based on the nature of the underlying judgment. The Committee also examined Pa.R.A.P. 903, and followed the structure therein, utilizing a general rule and exception format.

In both proposals, the Committee suggests adding the additional time for a victim of domestic violence to appeal a judgment arising out of a residential lease that contains an award of possession. Section 513(b) of the Act provides that a victim of domestic violence has thirty days, rather than the standard ten days, to appeal a judgment arising out of a residential lease that contains an award of possession. Finally, the Committee proposes changes to the Official Note and the 2001 Explanatory Comment consistent with the proposed rule changes.

The chart below provides a schematic summary of the two proposals.

¹ On March 28, 1996, the Court, in addition, to approving proposed amendments to Rule 1002, also amended Rule 1081 to suspend Act 33 of 1995, insofar as it was inconsistent with the rules. Act 33 of 1995 provides for Section 513 of the Landlord and Tenant Act. The Court did not rule that Act 33 of 1995 was unconstitutional.

¹ Rule 1910.12-2 Procedure on Exceptions appears on the Court's website as a local rule. However, it was not promulgated in accordance with Pa.R.C.P. Rule 239. It will be re-promulgated.

Local Rule of Judicial Administration 1901. Termination of Inactive Cases.

(a) *General Policy.* It is the policy of the Monroe County Court of Common Pleas to bring each pending civil action to a final conclusion as promptly as possible consistent with the interests of justice. When no docket activity has occurred in a civil case for a period of more than two years, the court will commence proceedings under this rule to terminate the action, pursuant to Pa.R.J.A. No. 1901.

(b) *Procedures for termination of a civil case for inactivity.*

(1) *Call of the list.* The Prothonotary shall prepare a list each year on or about July 1 of civil cases in which there has been no docket activity for more than two years. The Court will schedule a call of that list to give the parties an opportunity to be heard on the termination of a case. The call of the list will be scheduled for the third Monday of October at 9:00 a.m. or at such other date and time for which notice shall be given pursuant to this rule.

(2) *Published notice.* The Prothonotary shall publish notice of the moribund cases scheduled for the call of the termination list one time in the *Monroe Legal Reporter* at least thirty days before the scheduled call. The notice shall state a) the caption of each case and the names of the attorneys of record or pro se litigants, if any; b) the date, time and location of the call of the list; and c) the requirements of filing written objections and appearing at the call of the list in order to oppose termination, as stated below.

(3) *Written objections and the call of the list.* Any party wishing to oppose the termination of a matter must file written objections with the Prothonotary a minimum of one week prior to the call of the termination list and serve opposing counsel or pro se parties in accordance with the Rules of Civil Procedure. A certificate of service shall be filed with the Prothonotary. If no written objection to dismissal is timely filed, the Prothonotary shall enter an order terminating the case pursuant to Pa.R.J.A. 1901(c)(2), and that matter will not be heard at the call.

If an objection is timely filed and served, the Court will hold argument on that case at the time of the call of the termination list. The party opposing termination must attend the call of the termination list in person or by counsel to argue against the termination of the case. Opposing counsel or parties who wish to be heard may also present argument. The court will then enter an appropriate order.

(c) *Reinstatement.* Any matter terminated under this rule may be reinstated by the Court upon written petition for good cause shown.

(d) *Other remedies not affected.* This rule shall not prevent a party from seeking dismissal of an action due to inactivity through other procedures authorized by law or rule of Court.

The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Criss-Cross Poker table must have a discard rack securely attached to the top of the dealer’s side of the table.

§ 592.3. Cards; number of decks.

(a) Except as provided in subsection (b), Criss-Cross Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Criss-Cross Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Criss-Cross Poker shall be changed at least every:

- (1) Four hours if the cards are dealt by hand.
- (2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 592.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by

the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 592.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 592.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 592.8, § 592.9 or § 592.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Criss-Cross Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 592.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 592.6. Criss-Cross Poker rankings.

(a) The rank of the cards used in Criss-Cross Poker shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). All suits shall be equal in rank.

(b) The permissible Poker hands in the game of Criss-Cross Poker, in order of highest to lowest rank, shall be:

(8) Two pairs, which is a hand consisting of two pairs.

(9) A pair, which is a hand consisting of two cards of the same rank.

§ 592.7. Wagers.

(a) Wagers at Criss-Cross Poker shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Criss-Cross Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante Across and Ante Down Wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 592.8, § 592.9 or § 592.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing

the cards from the hand; and procedure for dealing the cards from an automated dealing shoe). Except as provided in § 592.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made after the dealer has announced “no more bets.”

(d) To participate in a round of play, a player shall place two equal but separate Ante Wagers designated as Ante Across and Ante Down.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Criss-Cross Poker table the option to make an additional Five Card Bonus Wager that the five community cards will form a hand with a rank of a pair of 6s or better. After placing the Ante Wager required under subsection (d), a player may make an additional Five Card Bonus Wager by placing a value chip onto the designated betting area for that player. A Five Card Bonus Wager will not have a bearing on any other wagers made by the player.

(f) Across, Down and Middle Bets shall be made in accordance with § 592.11(b), (d) and (f).

(g) A player may not wager on more than one player position at a Criss-Cross Poker table.

§ 592.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 592.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.”

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 592.7(d) (relating to wagers) until each player has two cards.

(e) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 592.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 592.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck. The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 592.7(d) (relating to wagers) until each player has two cards.

(c) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or

less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 592.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 592.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets."

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the area designated for the placement of the community cards. The dealer shall spread the stack within the designated area to form a cross with the top card placed in the box furthest from the dealer, the next three cards are placed in the middle row and the bottom card placed in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deliver a stack of two cards face down to each of the players who has placed the two required Ante Wagers in accordance with § 592.7(d) (relating to wagers).

(c) After each stack of cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 592.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 592.8, § 592.9 or § 592.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Criss-Cross Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his two cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place an Across Bet in an amount equal to one to three times the total amount of the player's Ante Across Wager. If a player does not place an Across Bet, the player's Ante Across and Ante Down Wagers shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(c) After each player has made a decision regarding the Across Bet and any forfeited hands have been collected, the dealer shall then turn the two outside community cards in the horizontal row face up on the layout.

(d) After the first two community card are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Down Bet in an amount equal to one to three times the total amount of the player's Ante Down Wager. If a player does not place a Down Bet, the player's Ante Across Wager, Ante Down Wager and Across Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(e) The dealer shall then turn the two outside community cards in the vertical row face up leaving only the middle community card face down on the layout.

If a player does not place a Middle Bet, the player's Ante Across Wager, Ante Down Wager, Across Bet and Down Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5). After all remaining players have placed a Middle Bet, each player shall place his cards face down on the appropriate area of the layout.

(g) The dealer shall then turn the middle community card face up on the layout. After all five community cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, turn the two cards of the player face up on the layout. The player's two cards and the three community cards in the horizontal line shall form the player's five-card Across Hand while the player's two cards and the three community cards in the vertical line shall form the player's five-card Down Hand.

(h) The dealer shall settle all wagers of that player by collecting losing wagers and paying winning wagers as follows:

- (1) If a player's Across Hand:

- (2) If a player's Down Hand:

- (3) If neither of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall collect the losing Middle Bet wager.
- (4) If either of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall pay out the Middle Bet wager in accordance with § 592.12(b). The payout shall be based on the higher ranking Across or Down Hand.

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 95, 109, AND 111]

Boating

The Fish and Boat Commission (Commission) proposes to amend Chapters 95, 109 and 110 (relating to manufacturer installed equipment; specialty boats and waterskiing activities; and special regulations counties). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code).

A. *Effective Date*

The proposed rulemaking, if approved on final-form rulemaking, will go into effect on January 1, 2015.

B. *Contact Person*

For further information on the proposed rulemaking, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The proposed amendments to §§ 95.3, 109.2 and 109.4 (relating to lights for boats; paddleboards and sailboards; and waterskiing, aquaplaning, kiteskiing and similar activities) are published under the statutory authority of section 5123 of the code (relating to general boating regulations). The proposed amendment to § 111.49 (relating to Northumberland County) is published under the statutory authority of section 5124 of the code (relating to particular areas of water).

D. *Purpose and Background*

The proposed rulemaking is designed to improve, enhance and update the Commission's boating regulations. The specific purpose of the proposed amendments is described in more detail under the summary of proposals. On March 6, 2014, the Boating Advisory Board considered these proposals and recommended that the Commission approve the publication of a proposed rulemaking containing the proposed amendments.

E. *Summary of Proposals*

(1) Section 95.3 provides boaters with information on the requirements for types, configurations and locations of navigation lights on boats. These provisions are within the actual wording of the regulation and by reference to Appendix A (relating to lights required on boats less than 20 meters in length; inland and international waters) and the Inland Navigation Rules Act of 1980 (repealed).

Based on a recent review of § 95.3, the Commission determined that it should be amended for a number of reasons. While there is a reference in § 95.3 to the the Inland Navigation Rules Act of 1980, Pennsylvania courts have found there is not explicit language within the regulation that states a boater must comply with these specific Federal rules. In addition, the Inland Navigation Rules Act of 1980 was moved in 2010 to 33 CFR Part 83 (relating to rules).

Section 95.3 also does not specifically incorporate the language of 33 CFR 83.20(b) (relating to application), also referred to as Rule 20, which states:

Rules concerning lights complied with from sunset to sunrise; other lights. The Rules concerning lights shall be complied with from sunset to sunrise, and during such times no other lights shall be exhibited, except such lights as cannot be mistaken for the lights specified in these Rules or do not impair their visibility or distinctive character, or interfere with the keeping of a proper lookout.

Pennsylvania courts have strictly construed the language of § 95.3 and have not interpreted it to mean that a boater must refrain from using other lights or if other lights are used they may not impair the visibility or distinctive character of the required lights. The Commission's waterways conservation officers have encountered challenges with successfully prosecuting more severe violations such as boating under the influence when lighting deficiencies have been cited as probable cause to conduct a boarding.

For these reasons, the Commission proposes to amend § 95.3 to more closely reflect the lighting requirements in 33 CFR Part 83 and eliminate the reference to Appendix A. The Commission further proposes to delete Appendix A and rely solely on the narrative. These amendments are not a substantive change to lighting requirements for recreational boaters.

The Commission proposes to amend § 95.3 to read as set forth in Annex A.

(2) In recent years, paddleboarding has been gaining popularity. Paddleboards were traditionally used to surf in the ocean but are now being used in lakes and rivers. Paddleboards resemble oversized surfboards and models are designed for use on various water conditions. Paddleboards are primarily operated by a person standing on the board using a paddle in a manner similar to a canoe.

The United States Coast Guard, in a decisional memo dated October 3, 2008, classified paddleboards as vessels in accordance with 1 U.S.C.A. § 3. This classification means that when used beyond the narrow limits of a swimming, surfing or bathing area, a person may not use a paddleboard unless in compliance with 33 CFR Part 83 and applicable carriage requirements for this type of vessel. This includes a United States Coast Guard approved wearable life jacket for each person on board, a sound producing device, visual distress signals (if operating on Lake Erie) and proper navigation lights. An athletic coach's whistle and flashlight comply with these requirements. In addition, a Commission use permit, boat registration, or Pennsylvania State Parks launch permit or mooring permit is required if launching or retrieving a paddleboard at a Commission-owned or Commonwealth-controlled lake or access area, or State park or forest.

To address safety issues and concerns, and to provide clarity for operators regarding legal requirements for paddleboards, the Commission proposes to amend § 109.2 to read as set forth in Annex A.

(3) Several hydro flying devices have been designed and are available for consumer purchase and rental within recent years. These flying devices use pressurized water through jet ports to provide "lift" and allow the operator to become airborne to speeds of 30 miles per hour and heights up to 40 feet, or dive under the water's surface, while attached to a boat that may or may not be occupied by an operator. Trade names for these products include Jetlev, Aquaboard, Aquaflyer and Flyboard®.

The Jetlev is a device which straps to the operator and is attached by a hose to an independent power source that is pulled behind and pumps water to the actual device. Pressurized water supplied by the power source is forced out of several jets on the device and propels the operator through, under or over the surface of the water. Due to the configuration of the flying device's connection to its power source, the power source does not have the ability to be independently maneuvered. Under § 109.4(d), the Jetlev system is prohibited on Commonwealth waters. This subsection states that a "person may not operate a device which is controlled by a person connected to the power source by means of an umbilical or remote control, or both, which tows the person on or through the water."

The Flyboard® is a similar device that straps onto the operator's feet much like a snow board. The device is attached by a 55-foot hose to the rear of a personal watercraft (PWC) which may have an operator onboard for controlling the power. Pressurized water supplied by the PWC is forced out of two jets attached to the operator's feet and two more handheld jets which allow for directional movement through or under the water, or in the air. The Flyboard® is offered for sale with an optional electronic management kit which allows the throttle of the PWC to be remotely controlled by the airborne operator, thereby eliminating the need for an operator to be onboard the PWC for the flying device to be functional. Again, due to the configuration of the flying device's connection to its power source, the power source does not have the ability to be independently maneuvered. Under the Commission's regulations, the Flyboard® system is considered a towed watersport and is not prohibited on Commonwealth waters when the power source is a PWC with a capacity of at least three persons with an operator and competent observer onboard. All other provisions of waterskiing and PWC operation apply to this activity.

The Commission and boating safety professionals from across the Nation have safety concerns regarding these devices. The United States Coast Guard has not provided a determination regarding the definition of these flying devices and has advised states to manage their use within state laws or regulations.

To address safety issues and concerns with these specialized devices, the Commission proposes to amend § 109.4 to read as set forth in Annex A.

(4) Section 111.49 currently designates a slow, no wake zone on the southeastern shore of Packer's Island (incorrectly referred to as Packard's Island) in the Susquehanna River adjacent to Shikellamy State Park in Sunbury. The river at Sunbury is dammed by an inflatable structure controlled by the Department of Conservation and Natural Resources. The water impounded by this dam forms a 3,060-acre lake known as Lake Augusta. The lake extends several miles up both the West Branch and the main stem of the Susquehanna River and provides a variety of angling and boating opportunities. Shikellamy State Park is located on the tip of Packer's Island, which is also the location of a number of homes, cottages, campsites, a boat club and an airport.

The current slow, no wake zone is approximately 1/3 mile in length and was established by regulation in 1995 due to the number and activity of motorboats in this area and the resulting congestion problem around the State Park launch ramp and boat club. The presence of two bridges immediately upstream of the State Park launch ramp limits visibility for boaters and provided additional

justification for the slow, no wake designation. Buoys mark the upper and lower limits of the control zone, and appropriate intermediate points. The lengthy nature of this control zone results in boater confusion and unnecessarily inhibits use of a significant segment of the boating pool in this area.

The Commission proposes reducing the limits of the slow, no wake zone to be more easily identifiable, provide adequate protection for boaters and property owners, and reduce impediments to boating in this area. The State Park boat launch would remain the lower limit of the zone. The upper limit would be 200 feet above the Route 147 bridge, or the furthest upstream overhead power line. The State Park manager is supportive of this proposed amendment. Property owners outside of the limits of the modified slow, no wake zone may seek additional protections through the use of the Application for Permit to Install Floating Structures and Private Aids to Navigation (PFBC-277) rather than the rulemaking process to establish specific control zones.

In addition to the modification to the control zone, the Commission proposes correcting the name of the island.

The Commission proposes to amend § 111.49 to read as set forth in Annex A.

F. Paperwork

The proposed amendments will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The proposed amendments will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed amendments will not impose new costs on the private sector or the general public.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart C. BOATING

CHAPTER 95. MANUFACTURER INSTALLED EQUIPMENT

§ 95.3. Lights for boats.

[(a) *General rule.* A boat from sunset to sunrise and during periods of restricted visibility shall carry and exhibit the lights prescribed by the Inland Navigation Rules Act of 1980 (33 U.S.C.A.

§§ 2001—2073). A boat owner may elect to carry and exhibit the lights prescribed by the International Rules in lieu of the Inland Rules but, in that event, the boat owner shall comply in all respects with those standards. See Appendix A.

(b) *Boats less than 12 meters (39 feet 4.4 inches) in length while underway.*

(1) Motorboats and sailboats using power may use the lighting arrangement in Appendix A, Figure 1, 2 or 3.

(2) Sailboats using sail alone may use the lighting arrangement in Appendix A, Figure 4, 5 or 6.

(3) A motorboat or sailboat using power underway on the Great Lakes may use the lighting arrangement in Appendix A, Figure 7D instead of the arrangements in Appendix A, Figure 1 and 2.

(4) A sailboat using sail alone, less than 7 meters (22 feet 11.6 inches) in length if impractical to display lights in Appendix A, Figure 4, 5 or 6, may display a single white light in time to prevent a collision. See Appendix A, Figure 7C.

(c) *Boats 12 meters (39 feet 4.4 inches) but less than 20 meters (65 feet 7.4 inches) in length while underway.*

(1) Motorboats and sailboats using power may use the lighting arrangements in Appendix A, Figure 1 or 2.

(2) Sailboats using sail alone may use the lighting arrangement in Appendix A, Figure 4, 5 or 6.

(d) *Rowing or paddle boats while underway.* One hand held or permanent all-around white light shall be ready to display in time to prevent a collision. Appendix A, Figure 7, A or B.

(e) *Boat at anchor.*

(1) A boat must display anchor lights when it is anchored where other vessels normally navigate. See Appendix A, Figure 7E.

(2) Exception: Anchor lights are not required on boats anchored in special anchorage areas.

(f) *Locations of lights.* Lights shall be located and have the characteristics as shown in Appendix A.

(1) The masthead light (forward white light in Appendix A, Figures 1, 2 and 7D) shall be at least 1 meter (3 feet 3.4 inches) higher than the colored lights on a boat less than 12 meters (39 feet 4.4 inches) and at least 2.5 meters (8 feet 2.4 inches) above the gunwale on a boat 12 meters (39 feet 4.4 inches) in length but less than 20 meters (65 feet 7.4 inches) in length. The after masthead light (Appendix A, Figure 1 only), if used, shall be higher than the forward masthead light so as to be seen as a separate, distinct light at a distance of 1,000 meters (1,093 yards 1.8 feet) ahead of the boat.

(2) The all-around white lights shown in Appendix A, Figures 3 and 7D shall be 1 meter (3 feet 3.4 inches) higher than the colored lights.

(3) An anchor light shall be displayed where it can best be seen.

(g) *Docking lights.* It is unlawful for a boat operator to use docking lights while underway except when docking and the boat is traveling at slow, no wake speed and is within 100 feet of approaching a dock, a mooring buoy or the shoreline. For pur-

poses of this subsection, a docking light is a flood or spotlight type of light permanently installed or permanently mounted on a motorboat that is used to illuminate a boat's forward course of travel.]

(a) *General rule.* The navigation lights requirements in this section shall be complied with in all weather from sunset to sunrise on the waters of this Commonwealth. During these times other lights may not be exhibited, except lights that cannot be mistaken for the lights specified in this section, lights that do not impair their visibility or distinctive character, or interfere with the keeping of a proper lookout. The lights prescribed in this section must, if carried, be exhibited from sunrise to sunset in restricted visibility and may be exhibited in all other circumstances when it is deemed necessary. The lights specified in this section must comply with United States Coast Guard specifications.

(b) *Definitions.* The following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

All-round light—A light showing an unbroken light over an arc of the horizon of 360°.

Docking light—A flood or spotlight type of light permanently installed or permanently mounted on a motorboat that is used to illuminate a boat's forward course of travel.

Flashing light—A light flashing at regular intervals at a frequency of 120 flashes or more per minute.

Masthead light—A white light placed over the fore and aft centerline of the boat showing an unbroken light over an arc of the horizon of 225° and fixed as to show the light from right ahead to 22.5° abaft the beam on either side of the boat, except that on a boat of less than 39.4 feet (12 meters) in length, the masthead light must be placed as nearly as practicable to the fore and aft centerline of the boat.

On a boat of less than 65.6 feet (20 meters) in length, the side lights may be combined in one lantern carried on the fore and aft centerline of the boat. On a boat of less than 39.4 feet (12 meters) in length, the sidelights when combined in one lantern must be placed as nearly as practicable to the fore and aft centerline of the boat.

Special flashing light—A yellow light flashing at regular intervals at a frequency of 50 to 70 flashes per minute, placed as far forward and as nearly as practicable on the fore and aft centerline of the tow and showing an unbroken light over an arc of the horizon of not less than 180° nor more than 225° and fixed as to show the light from right ahead to abeam and no more than 22.5° abaft the beam on either side of the boat.

(a) [*Definition. A*] **Paddleboards.** For purposes of this subsection, a paddleboard is a boat with no freeboard propelled by a paddle, oar, pole or other device. It is unlawful for a person to operate or attempt to operate a paddleboard on waters of this Commonwealth without having a United States Coast Guard approved wearable personal flotation device on board for each person, unless otherwise required to be worn in accordance with § 97.1

(relating to personal flotation devices). This prohibition does not apply to persons operating or attempting to operate a paddleboard in designated swimming, surfing or bathing areas.

(b) **Sailboards.** For purposes of this subsection, a sailboard is a type of single or double hulled boat equipped with an articulating mast and designed to be operated by a person standing on the board and maneuvering through the trim of the hand-held sail and distribution of body weight on the board.

[(b) **Personal flotation devices.**] It is unlawful for a person to operate or attempt to operate a sailboard on waters of this Commonwealth unless the person is wearing a [**Type I, II, III or V**] United States Coast Guard approved **wearable** personal flotation device. Inflatable personal flotation devices may not be used to meet this requirement.

§ 109.4. **Waterskiing, aquaplaning, kiteskiing and similar activities.**

* * * * *

(k) **Wake surfing.** Boats engaged in the activity of wake surfing are limited to slow, no wake speed when within 200 feet of the following:

* * * * *

(8) Other marked areas.

(l) **Use of airborne devices prohibited.** A person, while being towed by or otherwise attached to a watercraft, may not use a device, except for a parasail, for the purpose of becoming airborne over the waters of this Commonwealth. While operating a watercraft, a person may not tow behind or have attached to the watercraft a person using a device except for a parasail for the purpose of becoming airborne over the waters of this Commonwealth. This subsection does not apply to traditional aquaplaning activities when the aquaplaner momentarily leaves the water while jumping wakes or doing specialty tricks.

**STATE BOARD
OF MEDICINE**

[49 PA. CODE CHS. 16 AND 18]

Prosthetists, Orthotists, Pedorthists and Orthotic Fitters

The State Board of Medicine (Board) proposes to amend §§ 16.11 and 16.13 (relating to licenses, certificates and registrations; and licensure, certification, examination and registration fees) and add Chapter 18, Subchapter L

(relating to prosthetists, orthotists, pedorthists and orthotic fitters) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The act of July 5, 2012 (P.L. 873, No. 90) (Act 90) amended the Medical Practice Act of 1985 (act) (63 P.S. §§ 422.1—422.51a) to require the Board to issue licenses to prosthetists, orthotists, pedorthists and orthotic fitters, to regulate the practice of these professions and to discipline licensees. Section 8 of the act (63 P.S. § 422.8) authorizes the Board to adopt regulations as are reasonably necessary to carry out the purposes of the act.

Background and Need for Amendments

Act 90 was introduced to provide licensure for and regulatory oversight of prosthetists, orthotists, pedorthists and orthotic fitters. Act 90 became effective immediately and instructed the Board to promulgate regulations within 18 months of the effective date, or by January 5, 2014. Act 90 further provided that it would become effective upon publication of the final-form rulemaking or 24 months from the effective date, whichever occurred first.

Following enactment of Act 90, a draft rulemaking was prepared. On August 14, 2012, the Board provided the draft to stakeholders, including the following: members of the regulated community and their association representatives; representatives from the University of Pittsburgh's prosthetic and orthotic educational program; representatives from the Temple University School of Podiatry, which operates a pedorthic education program; the Pennsylvania Medical Society and a physician specialty organization in orthopedics; representatives from the House Professional Licensure Committee and the Independent Regulatory Review Commission (IRRC); and the two National credentialing bodies for the profession, the American Board for Certification in Orthotics, Prosthetics & Pedorthics (ABC) and the Board of Certification/Accreditation (BOC). The Board also invited these stakeholders and interested parties to a meeting on September 10, 2012. The meeting was announced on the Board's web site to invite other interested parties.

Extensive discussions were held with the stakeholders regarding the draft rulemaking at the meeting on September 10, 2012. After making amendments to the draft based on comments received during and after that meeting, the Board provided another draft of the draft rulemaking to the stakeholders on November 27, 2012. On December 4, 2012, the Board again met with stakeholders regarding the draft rulemaking. Additional amendments were made based on input from the stakeholders. At its February 6, 2013, meeting, the Board approved the draft rulemaking for publication as proposed rulemaking.

Description of Proposed Amendments

The proposed rulemaking would amend § 16.11 to add prosthetists, orthotists, pedorthists and orthotic fitters to the list of individuals licensed by the Board. In addition, the Board proposes to issue the following permits which apply to individuals who have completed their educational program but have not yet completed all requirements for full licensure (such as, residency, practice requirement or examination): graduate prosthetist permit; provisional prosthetist license; graduate orthotist permit; provisional orthotist license; temporary practice permit—pedorthist; and temporary practice permit—

orthotic fitter. The proposed rulemaking would also amend § 16.13 to provide for fees for the various applications for initial licensure and for biennial renewal of prosthetist, orthotist, pedorthist and orthotic fitter licenses as well as for the application for reactivation. The fees are based on estimates of the cost of processing each of the application types, with consideration given to the average salary of the new licensees in each licensing category.

The proposed rulemaking would add Chapter 18, Subchapter L. Section 18.801 (relating to purpose) would state the purpose of the subchapter, which is to implement the amendments to the act related to licensure of prosthetists, orthotists, pedorthists and orthotic fitters. Section 18.802 (relating to definitions) would set forth definitions of terms used in the subchapter.

Sections 18.811—18.815 address the requirements for licensure of prosthetists. Section 18.811 (relating to graduate permit) provides the information necessary for an applicant to apply for a graduate permit to practice as a prosthetist during the individual's clinical residency following graduation from the individual's education program. A graduate permit would be valid for practice during the clinical residency and would remain valid for up to 90 days after successful completion of the clinical residency or until a temporary license is granted. A graduate permit is nonrenewable. Should an individual fail to complete the clinical residency and later re-enroll in a clinical residency, the individual would be required to obtain a new graduate permit.

Section 18.812 (relating to clinical residency) sets forth criteria for a clinical residency, including the nature of supervision that shall be provided to a graduate permit holder, that the clinical residency shall be accredited by the National Commission on Orthotic and Prosthetic Education (NCOPE) and that the clinical residency shall be obtained subsequent to meeting the education requirement and be at all levels of prosthetic care.

Section 18.813 (relating to provisional prosthetist license) provides the information necessary for an applicant to apply for a provisional prosthetist license, which is the license that will allow an individual to provide direct patient care after completion of the clinical residency. This license allows the individual to practice while completing the three-step examination process that will qualify the individual for full licensure. A provisional license is valid for a maximum of 2 years and is nonrenewable. Should an individual fail to successfully complete the examinations in a 2-year period, the individual would be required to reapply for a provisional license to continue practicing.

Section 18.814 (relating to prosthetist license) provides the information necessary for an applicant to apply for a prosthetist license. The qualifications for licensure are in section 13.5(a) of the act (63 P. S. § 422.13e(a)). This section of the act provides that applicants must have "two years (3,800 hours) of experience to qualify for licensure." However, section 13.5(f) of the act, regarding license without examination, refers instead to "two years or 3,800 hours" of experience. Because the licensure scheme is intended to ensure that only qualified individuals provide services to the public, the Board interprets both of these sections to require applicants to demonstrate a minimum of 3,800 hours of experience over a 2-year period. To interpret the act otherwise could result in an absurd result. For example, an individual who provided 3,800 hours of professional services sporadically over a 20-year period, without ever developing competence in the profes-

sion, could qualify for licensure. The Board does not believe this could have been the intent of the General Assembly.

Section 18.815 (relating to alternate pathway for prosthetist license) provides the information necessary for an applicant to apply for a prosthetist license without examination. The act allows for a "grandfathering" period ending July 7, 2014, for individuals who have been in practice prior to the requirement that prosthetists be educated at the master's degree level. This section will expire at 5 p.m. on July 7, 2014. The Board will make applications for licensure, including licensure without examination, available at least 6 months prior to that date.

Section 18.816 (relating to demonstration of qualifications) would give applicants information about the type of documentation that will be required by the Board for an applicant to demonstrate the qualifications in the act and this chapter.

Section 18.821—18.825 contain provisions relevant to orthotists. Section 18.821 (relating to graduate permit) provides the information necessary for an applicant to apply for a graduate permit to practice as an orthotist during the individual's clinical residency following graduation from the individual's education program. A graduate permit is valid only for practice during the clinical residency and is nonrenewable. Should an individual fail to complete the clinical residency and later re-enroll in a clinical residency, the individual would be required to obtain a new graduate permit.

Section 18.822 (relating to clinical residency) sets forth criteria for a clinical residency, including the nature of supervision that shall be provided to a graduate permit holder, that the clinical residency shall be accredited by NCOPE and that the clinical residency shall be obtained subsequent to education and be at all levels of orthotic care.

Section 18.823 (relating to provisional orthotist license) provides the information necessary for an applicant to apply for a provisional orthotist license, which is the license that will allow an individual to provide direct patient care after completion of the clinical residency. This license allows the individual to practice while completing the three-step examination process that will qualify the individual for full licensure. A provisional license is valid for a maximum of 2 years and is nonrenewable. Should an individual fail to successfully complete the examinations in a 2-year period, the individual would be required to reapply for a provisional license to continue practicing.

Section 18.824 (relating to orthotist license) provides the information necessary for an applicant to apply for an orthotist license. This section includes the statutory requirements for licensure in section 13.5(a) of the act. The Board interprets the experience requirement in the act regarding orthotists the same as the experience requirement for prosthetists, as discussed in the description to § 18.814.

Section 18.825 (relating to alternate pathway for orthotist license) provides the information necessary for an applicant to apply for an orthotist license without examination. The act allowed for a "grandfathering" period ending July 7, 2014, for individuals who have been in practice prior to the requirement that orthotists be educated at the master's degree level. This section will expire at 5 p.m. on July 7, 2014. The Board will make

applications for licensure, including licensure without examination, available at least 6 months prior to that date.

Section 18.826 (relating to demonstration of qualifications) would give applicants information about the type of documentation that will be required by the Board for an applicant to demonstrate the qualifications in qualifications in the act and this chapter.

Sections 18.831—18.834 contain provisions relevant to pedorthists. Section 18.831 (relating to temporary practice permit) provides the information necessary for an applicant to apply for a temporary practice permit to provide pedorthic patient care after completion of the pedorthic education program. The temporary permit allows the individual to obtain the 1,000 hours of supervised patient fitting experience necessary for full licensure.

Section 18.832 (relating to patient fitting experience) sets forth the requirements of the patient fitting experience that a pedorthist shall complete after completing the pedorthic education program and prior to applying for licensure.

Section 18.833 (relating to pedorthist license) provides the information necessary for an applicant to apply for a pedorthist license. This section includes the statutory requirements for licensure.

Section 18.834 (relating to alternate pathway for pedorthist license) provides the information necessary for an applicant to apply for a pedorthist license without examination, as provided in the act. This section will expire at 5 p.m. on July 7, 2014. The Board will make applications for licensure, including licensure without examination, available at least 6 months prior to that date.

Section 18.835 (relating to demonstration of qualifications) would give applicants information about the type of documentation that will be required by the Board for an applicant to demonstrate the qualifications in the act and this chapter.

Sections 18.841—18.844 contain provisions relevant to orthotic fitters. Section 18.841 (relating to temporary practice permit) provides the information necessary for an applicant to apply for a temporary practice permit to provide orthotic fitting patient care after completion of the orthotic fitter education program. The temporary permit allows the individual to obtain the 1,000 hours of patient fitting experience necessary for full licensure.

Section 18.842 (relating to orthotic fitting care experience) sets forth the requirements of the patient fitting experience that an orthotic fitter shall complete after completing the orthotic fitter education program and prior to applying for licensure.

Section 18.843 (relating to orthotic fitter license) provides the information necessary for an applicant to apply for an orthotic fitter license. This section includes the statutory requirements for licensure.

Section 18.844 (relating to alternate pathway for orthotic fitter license) provides the information necessary for an applicant to apply for an orthotic fitter license without examination, as provided in the act.

Section 18.845 (relating to demonstration of qualifications) would give applicants information about the type of documentation that will be required by the Board for an applicant to demonstrate the qualifications in the act and this chapter.

Section 18.851 (relating to scope and standards of practice) sets forth scope and standards of practice for prosthetists, orthotists, pedorthists and orthotic fitters. Subsections (a) and (b) echo requirements in the act that licensees review the prescription and referral or order of the prescribing practitioner and understand any restrictions placed on the course of treatment that the licensee will provide and that licensees review the relevant clinical notes provided by the prescribing practitioner. Subsection (c) requires the licensee to retain a copy of the prescription, clinical notes and results of the patient's medical examination. Subsection (d) forbids a licensee from accepting a prescription when the licensee knows that he cannot furnish the device within a reasonable period of time. In these cases, subsection (d) requires the licensee to consult with the prescribing practitioner and notify the patient of the problem. Subsection (e) provides the minimum content of the clinical notes of the medical diagnostic examination that a licensee shall review before accepting a prescription.

Section 18.852 (relating to delegation) provides rules for licensed prosthetists, orthotists and pedorthists regarding delegating tasks to unlicensed assistive personnel. According to individuals involved in these professions, assistants are employed to provide support services and to complete simple tasks that do not require the education and training of a licensee. These individuals would need to be under the direct, onsite supervision of the delegating practitioner.

Section 18.853 (relating to unprofessional and immoral conduct) provides notice to licensees regarding the disciplinary process and defines conduct that is prohibited as unprofessional or immoral.

Section 18.861 (relating to biennial renewal of license) provides for the biennial renewal of the four license categories, and effectuates the provisions regarding continuing education and required professional liability insurance. Subsection (b)(5) requires a licensee to verify that the licensee has completed the continuing education mandated by the act as a condition of biennial renewal and that the licensee is, or will be, covered by the required professional liability insurance.

Section 18.862 (relating to continuing education) sets forth the continuing education requirements for active licensees and those requesting reactivation. In addition, provisions regarding requesting a waiver of the continuing education requirements, discipline for noncompliance, approved continuing education sources and the documentation of continuing education completion that licensees shall maintain are in this section.

Section 18.863 (relating to inactive and expired status of licenses; reactivation of inactive or expired license) provides information to licensees about how a license becomes inactive, that a licensee whose license is inactive is not permitted to practice and how to reactivate an inactive or expired license. Subsection (d) provides that a licensee whose license has been inactive for 2 years or more will be required to demonstrate continued competence to practice by showing current certification by the ABC or BOC. The interested parties who provided input to the Board on this proposed rulemaking agreed that the 2-year period was the appropriate period after which the Board should require demonstration of continued competence through current certification. Late fees are addressed in § 18.863(e).

Section 18.864 (relating to professional liability insurance coverage for licensed prosthetist, orthotist, ped-

orthist or orthotic fitter) repeats section 13.5(i) of the act, which requires liability insurance for all licensees. Subsection (b) will provide licensees with guidance regarding acceptable proof of coverage. Subsection (c) informs licensees that they are prohibited from practicing until proof of insurance has been provided.

Fiscal Impact and Paperwork Requirements

The statutory requirements for licensure, completion of mandatory continuing education and maintenance of professional liability insurance will have a fiscal impact on the regulated community. However, because these are statutory requirements, it is the act, and not the Board's proposed rulemaking, that will impose a fiscal requirement on licensees. The proposed rulemaking will also have a fiscal impact on State government, through impact on the Board, which will incur costs associated with administering and enforcing the act and the regulations. Fiscal impact on local governments is not anticipated. The proposed rulemaking will require additional paperwork by the regulated community and by the Board in issuing licenses, tracking licenses and maintaining proof of compliance with the statutory and regulatory requirements. Fiscal impact on local governments is not anticipated.

Estimates of the costs associated with the statutory requirements and this proposed rulemaking are in the Regulatory Analysis Form, which is available upon request.

Sunset Date

The Board continuously monitors its regulations. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on June 30, 2014, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to IRRC and the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

(13) Making gross or deliberate misrepresentations or misleading claims as to professional qualifications or of the efficacy or value of the treatments or remedies given or recommended or those of another practitioner.

BIENNIAL RENEWAL AND REACTIVATION

§ 18.861. Biennial renewal of license.

(a) The license of a prosthetist, orthotist, pedorthist or orthotic fitter will expire biennially on December 31 of each even-numbered year in accordance with § 16.15 (relating to biennial registration; inactive status and unregistered status). A prosthetist, orthotist, pedorthist or orthotic fitter may not practice after December 31 of an even-numbered year unless the prosthetist, orthotist, pedorthist or orthotic fitter has completed the biennial renewal process and the Board has issued a current license.

(b) As a condition of biennial registration, a prosthetist, orthotist, pedorthist or orthotic fitter shall:

(1) Submit a completed application, including payment of the biennial renewal fee in § 16.13 (relating to licensure, certification, examination and registration fees) for application for biennial renewal of prosthetist, orthotist, pedorthist or orthotic fitter license.

(2) Disclose on the application a license to practice as a prosthetist, orthotist, pedorthist or orthotic fitter in another state, territory, possession or country.

(3) Disclose on the application disciplinary action pending before or taken by an appropriate health care licensing authority in another jurisdiction or the licensee's National credentialing body since the most recent application for biennial renewal, whether or not licensed to practice in that other jurisdiction.

(4) Disclose on the application any pending criminal charges and any finding or verdict of guilt, admission of guilt, plea of nolo contendere, probation without verdict, disposition instead of trial or accelerated rehabilitative disposition in any criminal matter since the most recent application for biennial renewal.

(5) Verify on the application that the licensed prosthetist, orthotist, pedorthist or orthotic fitter has completed the continuing education mandated by section 13.5(g)(1) of the act (63 P. S. § 422.13e(g)(1)) during the biennial period immediately preceding the period for which renewal is sought in accordance with § 18.862 (relating to continuing education).

(6) Verify on the application that the licensee maintains professional liability insurance coverage in accordance with section 13.5(i) of the act and § 18.864 (relating to professional liability insurance coverage for licensed prosthetist, orthotist, pedorthist or orthotic fitter).

§ 18.862. Continuing education.

(a) *Credit hour requirements.* A licensed prosthetist, orthotist, pedorthist or orthotic fitter shall satisfy the following continuing education credit hour requirements:

(1) As a condition for biennial renewal, a prosthetist shall complete at least 24 hours of ABC-approved or BOC-approved continuing education applicable to the practice of prosthetics and an orthotist shall complete at least 24 hours of continuing education applicable to the practice of orthotics.

(2) As a condition for biennial renewal, a pedorthist shall complete at least 13 hours of continuing education applicable to the practice of pedorthics and an orthotic fitter shall complete at least 13 hours of continuing education applicable to the practice of orthotic fitting.

(3) Credit for continuing education will not be given for courses in office management or practice building.

(4) A licensee is not required to complete continuing education during the biennium in which the licensee was

first licensed if licensure occurred within 3 years of completion of the approved educational program.

(5) Except when reactivating an inactive license, when the Board has granted a waiver, or when ordered by the Board, continuing education credits may be used to satisfy the continuing education credit hour requirements only for the biennial period in which the credits were earned. An hour of continuing education may not be used to satisfy the requirements of paragraph (1) or (2) for more than one biennium.

(6) A licensee may request a waiver of the continuing education credit hour requirements because of serious illness, emergency, military service or other demonstrated hardship by submitting a request for waiver with supporting documentation to the Board at least 90 days prior to the end of the biennial renewal period for which the waiver is sought. The Board may grant the waiver request in whole or in part and may extend the deadline by which the credit hour requirements must be met.

(b) *Disciplinary action.* A licensee may be subject to disciplinary action if the licensee submits false information to the Board regarding completion of the continuing education credit hour requirements to complete biennial renewal or fails to complete the continuing education hour requirements and practices as a prosthetist, orthotist, pedorthist or orthotic fitter after the end of the biennial period.

(c) *Documentation of continuing education.* A licensee shall maintain documentation of completion of continuing education by maintaining the certificate of attendance or completion issued by the course provider. A licensee shall maintain the certificates for at least 5 years after the end of the biennial renewal period in which the continuing education was completed. A certificate must include the name of the course provider, the name and date of the course, the name of the licensee, the number of credit hours based on a 50-minute hour and the category of continuing education, if applicable.

§ 18.863. Inactive and expired status of licenses; reactivation of inactive or expired license.

(a) A prosthetist, orthotist, pedorthist or orthotic fitter license will become inactive if the licensee requests in writing that the Board place the license on inactive status. The Board will provide written confirmation of inactive status to the licensee at the licensee's last known address on file with the Board.

(b) A prosthetist, orthotist, pedorthist or orthotic fitter license will be classified as expired if the licensee fails to renew the license by the expiration of the biennial renewal period on December 31 of each even-numbered year. The Board will provide written notice to a licensee who fails to make biennial renewal by sending a notice to the licensee's last known address on file with the Board.

(c) A prosthetist, orthotist, pedorthist or orthotic fitter whose license has become inactive or expired may not practice in this Commonwealth until the license has been reactivated.

(d) To reactivate an inactive or expired license, the licensee shall apply on forms made available by the Board and fully answer the questions. The licensee shall:

(1) Include the documentation required under § 18.862(c) (relating to continuing education) for the immediately preceding biennium. Unless waived by the Board under section 13.5(g)(7) of the act (63 P.S. § 422.13e(g)(7)), the Board will not reactivate a license until the required continuing education for the preceding biennium has been successfully completed.

(2) Pay the current biennial renewal fee and the reactivation fee in § 16.13 (relating to licensure, certification, examination and registration fees).

(3) Verify that the licensee did not practice as a prosthetist, orthotist, pedorthist or orthotic fitter in this Commonwealth while the license was inactive or expired except as provided in subsection (e).

(e) A licensee who has practiced with an inactive or expired license and who cannot make the verification required under subsection (d)(3) shall also pay the fees required under section 225 of the Bureau of Professional and Occupational Affairs Fee Act (63 P.S. § 1401-225), as described in this subsection. Payment of a late fee does not preclude the Board from taking disciplinary action for practicing as a prosthetist, orthotist, pedorthist or orthotic fitter without a currently renewed license.

(1) A licensee whose license was active at the end of the immediately preceding biennial renewal period and who practiced after the license became inactive or expired shall pay a late fee of \$5 for each month or part of a month from the beginning of the current biennium until the date the reactivation application is filed.

(2) A licensee whose license has been inactive or expired since before the beginning of the current biennium shall pay the biennial renewal fee for each biennial renewal period during which the licensee practiced and shall pay a late fee of \$5 for each month or part of a month from the first date the licensee practiced as a prosthetist, orthotist, pedorthist or orthotic fitter in this Commonwealth after the license became inactive or expired until the date the reactivation application is filed.

(f) A licensee whose license has been inactive for more than 2 years and who has not been engaged in practice in another jurisdiction shall demonstrate continued competence by passing the certification examinations offered by either the ABC or the BOC. For prosthetists or orthotists, the applicable examinations are the ABC or BOC examinations required for initial certification. For pedorthists or orthotic fitters, the applicable examinations are the ABC or BOC pedorthist or orthotic fitter examination required for initial certification.

§ 18.864. Professional liability insurance coverage for licensed prosthetist, orthotist, pedorthist or orthotic fitter.

(a) A licensed prosthetist, orthotist, pedorthist or orthotic fitter shall maintain a level of professional liability insurance coverage in the minimum amount of \$1 million per occurrence or claims made as required under section 13.5(i) of the act (63 P.S. § 422.13e(i)) and provide proof of coverage upon request.

(b) Proof of professional liability insurance coverage includes:

(1) A certificate of insurance or copy of the declaration page from the insurance policy setting forth the effective date, expiration date and dollar amounts of coverage.

(2) Evidence of a plan of self-insurance approved by the Insurance Commissioner of the Commonwealth under regulations of the Insurance Department in 31 Pa. Code Chapter 243 (relating to medical malpractice and health-related self-insurance plans).

(c) A licensee who does not have professional liability insurance coverage as required under section 13.5(i) of the act may not practice as a prosthetist, orthotist, pedorthist or orthotic fitter in this Commonwealth.

Availability of the 21st Century Community Learning Centers 2014—2017 Request for Applications and Guidance and 21st Century Community Learning Center Cohort 7 Grant Paper Application and Instructions

The Department of Education (Department) announces the availability of the 21st Century Community Learning Centers (21st CCLC) 2014—2017 Request for Applications (RFA) and the 21st CCLC Cohort 7 (Cohort 7) Grant Paper Application and Instructions for 2014—2017. The Cohort 7 application for the 21st CCLC grant will be created, submitted, collected and completed by means of a paper application process.

The purpose of the program is to establish or expand community learning centers that provide students who attend high-poverty and low-performing schools with academic enrichment opportunities by expanding learning opportunities during nonschool hours along with activities designed to complement the students' regular academic program. Community learning centers must also offer families of these students literacy and related educational development. Centers, which can be located in elementary or secondary schools or other similarly accessible facilities, provide a range of high-quality services to support student learning and development, including tutoring and mentoring, homework help, academic enrichment (such as hands-on science or technology programs) and community service opportunities, as well as music, arts, sports and cultural activities. At the same time, centers help working parents by providing a safe environment for students during nonschool hours or periods when school is not in session.

Application Process

The 21st CCLC Grant RFA and Guidance for Fiscal Years (FY) 2014—2017 and the Cohort 7 Grant Paper Application and Instructions for 2014—2017 and all attachments for new grants will be available online beginning July 14, 2014, on the Department's 21st CCLC web site at http://www.portal.state.pa.us/portal/server.pt/community/21st_century_community_learning_centers/7414.

Applicants are required to complete each section of the 21st CCLC paper application explained in the Cohort 7 Grant Paper Application and Instructions for 2014—2017 document and submit the completed application to Maribel Martinez at the Department's Division of Student Services at the address listed as follows by 4 p.m. on August 14, 2014. All sections must be completed to submit the application. No sections of the paper application are optional. Faxed and e-mailed copies will not be accepted. Originals, paper copies and attachments received after the deadline will not be reviewed. Failure to

submit the required copies of the signatory documents by the deadline will result in the disqualification of the grant application and denial to proceed to the peer review.

Prior to Grant Award

All potential applicants must complete the following steps:

1. Notify the Department by means of e-mail of the applicant's intent to submit an application. Include the legal name of entity and either the AUN (school districts/charter schools/intermediate units) or EIN (all other organizations) and vendor number for the lead organization. Specify in the letter of intent to apply the target population to be served including grade levels, proposed site locations, district and school names, community based organization partners, and the like. E-mail the letter of intent to Susan D'Annunzio at sdannunzio@pa.gov. The due date is Monday, July 28, 2014. Note this is due prior to the paper application submission deadline. No extensions will be granted.

2. If the agency is not a school district, charter school or intermediate unit, the agency will need to register for a vendor number. Nonprocurement entities can apply for a brand new vendor number at www.vendorregistration.state.pa.us. Applicants must have a vendor number to do business with the Commonwealth so that the applicants can be paid by the Commonwealth, if their application is selected for funding. Once applicants have a vendor number, applicants will provide the vendor number on the Title Page form and grant agreement document.

3. Consult with eligible nonpublic entities located within the attendance area of local education agencies regarding participation in the proposed 21st CCLC program. Complete the Certification of Nonpublic Involvement Form located in Appendix A of the 21st CCLC Grant RFA and Guidance for FYs 2014—2017.

4. Register for and attend one preproposal workshop.

Submission

Paper applications with attachments for 21st CCLC funding must be submitted by mail. E-mail, facsimile or any method other than the approved mailed paper submission will not be accepted. Applications submitted by means of overnight mail must be received at the Department's Division of Student Services no later than 4 p.m. on Thursday, August 14, 2014. Print a paper copy of the completed paper application with all attachments for the applicant's own records before it has been submitted.

Forward original signature documents signed in blue ink to the Department no later than 4 p.m. on August 14, 2014, to the attention of Maribel Martinez, Fiscal Technician, Department of Education, Division of Student Services, 333 Market Street, 5th Floor, Harrisburg, PA 17126-0333.

Note: Failure to submit the required copies of the signatory documents by the deadline will result in the disqualification of the grant application and denial to proceed to the peer review. A list of required signature documents is provided in the Cohort 7 Grant Application and Instructions.

Eligible entities may apply for funding on behalf of one or more public schools within the applicant district through a single paper application process. Each district is limited to one application per district.

Pregrant Workshops/Webinar

To assist eligible applicant entities in completing the paper application, the Department will host a 1-day 21st

CCLC pregrant workshop at the regional Pennsylvania Training and Technical Assistance Network (PaTTAN) offices in Harrisburg, King of Prussia and Pittsburgh on Friday, July 18, 2014, from 10 a.m. to 12:30 p.m. The presentation in Harrisburg will be a live presentation that will be live streamed to the other two PaTTAN locations.

Participation in a pregrant workshop is required for all eligible community-based organizations, school districts or charter schools, intermediate units, faith-based organizations and Nationally affiliated service organizations planning to submit an application for the 21st CCLC competitive funds for 2014—2017.

To register, e-mail Miriam Febles at mfebles@pa.gov. No phone calls. Include the location where the applicant will attend, the applicant's name, e-mail address, telephone number and the name of the organization that is planning to apply. Be aware that an access code will be required for entry at the Pittsburgh PaTTAN location.

Funding Availability

The Department will have approximately \$21 million available for Cohort 7 grants. Eligible applicants may select one of two paths for award consideration.

Path A: Applicants may select to provide only out-of-school time programming (that is, before school, afterschool, holidays, weekends and summer school services) focused on improving prekindergarten through grade 12 performance measures of school attendance, classroom performance or reduced disciplinary referrals, or both, and meeting State and local academic achievement standards in reading, math and science. In keeping with the 21st CCLC nonregulatory guidance that larger, more comprehensive grants are more likely to have a measurable impact on student achievement, applicants proposing services for traditional afterschool programming during the regular after school hours, weekends, evenings and summer may request funds ranging from a minimum of \$50,000 to a maximum of \$400,000. Programs that propose to provide both school year and summer programming are more powerful for results and data; therefore, no funds will be available for summer-only applicants in this grant round.

Path B: Applicants may select to provide both expanded learning time during the school day with a focus on meeting State and local academic achievement standards in reading and math and on out-of-school time programming in prekindergarten through grade 12 (that is, before school, afterschool and summer school services) focused on improving performance measures of school attendance, classroom performance or reduced disciplinary referrals, or both, and meeting State and local academic achievement standards in reading, math and science. Quality applicants proposing to implement both expanded learning time and out-of-school programming will be eligible to receive funding amounts of up to \$500,000 per year.

For an applicant to apply to use 21st CCLC funds for expanded learning time, the applicant must describe how it will extend its normal school day, week, month or year to meet the Elementary Secondary Education Act Flexibility Expanded Learning Time Optional Waiver requirements. All provisions of the 21st CCLC program remain unchanged. For example, services proposed must be supplemental; they cannot supplant existing services or

those services that are already paid by Federal, State and/or local funds. The allowable activities under Expanded Learning Time do not change, only the time during which the allowable activities may be offered changes.

Period of Availability

The grant period will range from October 1, 2014, to September 30, 2017.

Eligible Applicants

Federal law mandates, per section 4203(a)(3) of Pub.L. No. 107-110 (20 U.S.C.A. § 7173(a)(3)), that any public or private organization may apply for 21st CCLC funding if it proposes to serve:

1. Students who primarily attend:
 - a. schools eligible for schoolwide programs under (Title I) Section 1114; or
 - b. schools that serve a high percentage of students (at least 40%) from low-income families; and
2. The families of those students previously described.

Preference will be given to qualified applicants designated as “priority or focus” schools with school performance profile scores in the lowest 5 to 10% of Title I schools will receive the highest funding priority consider-

ation for 21st CCLC funds. All applicants must meet this Pennsylvania priority to receive highest funding priority consideration. Additional Pennsylvania funding priorities can be found in the 21st CCLC Grant RFA and Guidance for FYs 2014—2017.

Application Information

Detailed information outlining grant terms and conditions, program eligibility, pertinent regulations including expenditure guidelines, evaluation and program accountability requirements and additional resources are in the complete 21st CCLC Grant RFA and Guidance for FYs 2014—2017 and in the Cohort 7 Grant Paper Application and Instructions for 2014—2017 which can be accessed at http://www.portal.state.pa.us/portal/server.pt/community/21st_century_community_learning_centers/7414 or e-mail the request to RA-21stCCLC@pa.gov.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

24-167B: E Carbon America (806 Theresia Street, Saint Marys, PA 15857) for the modification of the facility operating conditions associated with the operation of the control device established in plan approval 24-167A in Saint Marys City, **Elk County**. This is a Title V facility. The public notice is required for sources required to obtain a Plan Approval in accordance with 25 Pa. Code § 127.44. This plan approval will, in accordance with 25 Pa. Code § 127.450 or § 127.505, be incorporated into the State Only operating permit at a later date.

Plan approval No 24-167B is for the modification of operating permit conditions established in plan approval 24-167A for the baking kiln and the proposed installation of a new baghouse to replace two existing baghouses for the blending process. This project will not result in an emission increase. This Plan Approval will contain emission restriction, testing, recordkeeping, work practice standard and additional requirement conditions, which will satisfy the requirements of 25 Pa. Code § 127.12b (pertaining to plan approval terms and conditions) and will demonstrate Best Available Technology (BAT) for the source including, but are not limited to, the following:

- Baking Kilns (Source 101)
- Within 180 days after plan approval issuance, a stack test on at least one recirculating furnace for VOC shall be performed. Within 1 year after plan approval issuance, a stack test on at least one box furnace for VOC shall be performed. Both tests shall be conducted in accordance with the provisions of Chapter 139 of the Rules and Regulations of the Department of Environmental Protection. Both stack tests shall be performed while the aforementioned sources are operating at the maximum or normal rated capacity as stated in the application. Both stack tests shall be conducted while the bottom furnace temperature is between

500F and 650F with the flame grid off, while the bottom furnace temperature is between 650F and 1,250F with the flame grid operating, and while the bottom furnace temperature is between 1,250F and 1,450F with the flame grid off. Testing at each temperature range shall consist of three one hour tests for VOC.

- The flame grid temperature shall be operated in a range defined by the manufacturer or in a range developed during compliant stack testing. Based on operational data from the furnaces, the flame grid temperature shall be maintained at or above 1050 degrees Fahrenheit whenever the bottom of the furnace is at 650 degrees Fahrenheit or higher. If a higher flame grid temperature is used during the required stack testing, that temperature will become the operational limit.
- The permittee shall turn on the flame grid control device prior to the furnace bottom temperature reaching 650F. The control device shall remain on until the furnace bottom temperature is greater than 1250F. Once the furnace bottom temperature is above 1250F, the flame grid can be turned off.
- All the conditions from the facility operating permit issued on October 4, 2011, remain in effect unless superseded in this plan approval.
- Special Impregnation Process (Source 102)
 - The permittee shall perform a daily operational inspection of the source which shall include, but not be limited to, verifying no fugitive emissions associated with the source.
 - All the conditions from the facility operating permit issued on October 4, 2011, remain in effect unless superseded in this plan approval.
- Blending Operation 1 and 2 (Sources 6889A & 6990)
 - The filterable particulate matter emission rate shall not exceed 0.02 gr/dscf.
 - Within 180 days after startup of the control, a stack test for FPM
 - The permittee shall record the following operational data from the baghouse during the required operational inspection (these records may be done with strip charts recorders, data acquisition systems, or manual log entries):
 - Pressure differential—daily defined as once per calendar day
 - The permittee shall adhere to the approved indicator range for the baghouse so that operation within the range shall provide reasonable assurance of compliance. A departure from the specified indicator range over a specified averaging period shall be defined as an excursion. The approved indicator range for the following shall be determined during the initial performance test or any subsequently approved performance tests unless otherwise stated:
 - Pressure drop: 1.0 to 8.0 inches water gage or as established during compliant testing
 - All the conditions from the facility operating permit issued on October 4, 2011, remain in effect unless superseded in this plan approval.

In accordance with 25 Pa. Code § 127.44(f)(1), all the pertinent documents regarding this application (applications, review memos, and draft approvals) are also avail-

able for review from 8 a.m. to 4 p.m. at the Meadville Regional DEP office (Air Quality). Appointments for scheduling a review must be made by calling the DEP (814) 332-6340.

Noncoal Applications Received

Effluent Limits—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Parameter	Table 2		
	30-day Average	Daily Maximum	Instantaneous Maximum
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be

sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also

available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description: The planning module for the Jeff and Deborah Seibert Subdivision, DEP Code No. B3-01928-238-2/3S, APS Id 752389, providing for a six lot single family residential subdivision where Lot 1 will utilize an individual residential spray irrigation system and Lots 2-6 will be tributary to a small flow treatment facility for sewage disposal is disapproved. The treatment facility is proposed to discharge 2000 gallons per day to a dry stream channel tributary to Mud Run. The property is located on the north side of Nell Road, approximately 1500 feet east of Stony Point Road in Reading Township. This plan is disapproved because: 1) Ultimate ownership and the responsibility for proper operation and maintenance of the proposed sewage facility will be the property owners of Lots 2 through 6. The property owner's agreement included in the planning module is not acceptable under the requirements of Chapter 71, Section 71.64(c)(5). When multiple property owners are equally responsible for operation and maintenance they must be joined under the umbrella of a single association, trust, or other private entity which is structured to manage the system. The property owner's agreement does not adequately address this ultimate arrangement. For such an arrangement the requirements of Chapter 71, Section 71.64(c)(5)(vi) must be addressed; 2) In light of item #1, the planning module did not contain the information required by Chapter 71, Section 71.52(a)(6); 3) The concerns raised by the Adams County Office of Planning and Development were not considered and addressed by the municipality as required by Chapter 71, Section 71.53(e); 4) Section Q of Component 3S was not completed and signed by the municipality.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors,

a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

56-00299: Hoover Conveyor and Fabrication Corp. (262 Industrial Park Road, PO Box 179 PA 15613) on June 17, 2014, for a State Only Operating Permit (SOOP) renewal to Hoover Conveyor and Fabrication Corporation to authorize the continued operation of their Meyersdale facility in Meyersdale Borough, **Somerset County**.

26-00057: Matt Canestrale Contracting, Inc.—Labelle Site (1035 Labelle Rd, La Belle, PA 15450) on June 24, 2014, issued a State Only Operating Permit renewal for the operation of a barge unloading and transferring operation to support the reclamation area on top of the hill adjacent to the unloading/loading area in Luzerne Township, **Fayette County**. Coal ash and FGD sludge are being used as a capping material on the coal refuse pile to reduce infiltration and to provide a buttress for long-term stability.

The subject facility consists of two docks for barge unloading, two excavators each with a clamshell and an area for truck/rail transshipping with front loaders. One dock/ excavator is considered primary, but both docks can be used at the same time. The rate of unloading the barges is limited by the number of trucks available. Barges are unloaded and material is transported to the reclamation area on the hill behind the barge unloading area. The trucks transporting the material cross one public road from the barge unloading area to reclamation area. The facility provided potential emission calculations based on 416,000 tons of material handled per 12 month period and AP-42 Emission Factors. Operating approximately ten hours a day and five days a week, the potential emissions are calculated to be 23.9 tons per year PM₁₀. This includes the potential emissions from transferring material from barge to truck, haul roads, truck unloading, wind erosion and bulldozing.

The permit includes operational requirements, monitoring requirements, and recordkeeping requirements as follows:

1. The Owner/Operator shall test the moisture content of each material received on barge at least once per week. Records of the sample tests results shall be maintained in a log on-site for a minimum of five years and submitted to the Department on a quarterly basis. The Owner/Operator may request a reduction in the frequency of the moisture content sample testing, in writing, provided there are no observations by the Department of any inconsistent test samples from the previous six month period.

2. The Owner/Operator shall conduct a daily survey of the facility during daylight hours while the facility is operating to ensure compliance with the fugitive emission and malodor restrictions in 25 Pa. Code §§ 123.1, 123.2 and 123.31. If any fugitive emissions or malodors in

violation of §§ 123.1, 123.2 or 123.31 are apparent, the permittee shall take immediate corrective action to eliminate them.

3. The Owner/Operator shall maintain a daily record of all fugitive emission and odor surveys performed. The records shall include the date, time, name and title of the observer, whether fugitive emissions or malodors were observed and any corrective action. Records shall be kept on-site for a minimum of five years and submitted to the Department on a quarterly basis.

4. The Owner/Operator shall maintain a daily log of material delivered to the facility, inventory on hand, and material shipped from the facility.

5. The facility shall not accept more than 416,000 tons of material in any consecutive 12-month period.

6. The Owner/Operator shall operate and maintain all sources at this facility in accordance with 25 Pa. Code § 127.444.

7. All trucks carrying material with a moisture content of less than 5 percent by weight are required to be tarped.

8. Before accepting material from a source that has not previously been received and approved for handling at the MCC / Labelle Site, the Owner/Operator shall notify the Department in writing at least 15 days in advance. The Department shall determine the suitability of MCC/Labelle Site handling the material based on the Department's evaluation.

9. The drop height from the front-end loaders and clamshell buckets being used to transfer and load material into trucks shall be kept as short as possible to minimize fugitive emissions.

10. The facility shall not handle materials with a moisture content of less than 5 percent by weight under excessively windy conditions, where the force of the wind contributed to the generation of fugitive dust.

11. All unpaved in-plant roads shall be watered on a preventative basis. Other methods of dust control must be used when the weather conditions make the watering of unpaved roads hazardous.

12. All in-plant roads shall be maintained to prevent particulate matter from becoming airborne in accordance with 25 Pa Code §§ 123.1 and 123.2

13. A set vehicle pattern shall be established and maintained for vehicles entering and exiting the facility.

14. In accordance with 25 Pa. Code § 123.1(c), the Owner/Operator shall promptly remove earth or other material from paved roads.

15. An operable water truck must be maintained on-site at all times.

16. All trucks shall be handled in such a way to minimize tracking material onto the public road.

17. The Department may require additional controls (water sprayers, paving, conveyor covers, etc.) based on evaluation of the operation after inspection and determination that existing controls are not adequate for controlling fugitive emissions.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once.

Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

SPECIAL NOTICES

Application Period for Municipal Recycling Program Performance Grant Applications under Act 101, Section 904 of the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988; Calendar Year 2013

The Department of Environmental Protection (DEP) announces a request for applications from municipalities for recycling performance grant assistance for recycling programs pursuant to the Pennsylvania Municipal Waste Planning, Recycling and Waste Reduction Act of 1988, Act 101, P. L. 556, Section 904. Municipalities include counties, cities, boroughs, incorporated towns, townships, home rule municipalities, their authorities, councils of governments, consortiums, or similar entities established by two or more municipalities under 53 P.A.C.S. Ch. 23 Subch. A (relating to intergovernmental cooperation). This application period is for eligible materials recycled and marketed in calendar year 2013.

Municipal Recycling Program Performance Grant funds will be awarded to municipalities based upon the weight of source-separated recyclable materials identified in § 1501(c)(1)(i) of Act 101 recovered by municipal recycling programs, and the population of the municipality as determined by the most recent decennial census. Calendar year 2013 Recycling Performance Grants will be calculated utilizing the formula established for the past two grant years.

Applicants who have failed to comply with the conditions set forth in previously awarded grants, the recycling program performance requirements contained in Act 140 of 2006, the grant requirements of Act 101, or the regulations of Act 101 may not be awarded funds under this grant program. Applicants must ensure that they are in compliance with § 272.314(b)(2) relating to the submittal of the annual recycling report.

Eligible materials include post-consumer: clear glass, colored glass, aluminum cans, steel and bimetallic cans, high-grade office paper, newsprint, corrugated paper, other marketable grades of paper, and plastics. Grants will be awarded only for properly documented, eligible materials that were actually marketed on or after Jan. 1, 2013, to and including Dec. 31, 2013. Applicants should only claim those tonnages for which they have documentation at the time they complete their application. Any residues, materials not listed as eligible, or any materials that cannot be documented as being generated within the municipality or marketed or recycled into new products or uses are not eligible for consideration toward the grant. In particular, recovered glass that is being stockpiled or used as daily cover at a landfill will not be considered as recycled. Applicants must be able to document the amount of residue attributable to their recycling program.

Documentation to support all claims that eligible recyclable materials were generated within the municipality and marketed must be made available for auditing by the Department of Environmental Protection, the Office of the Auditor General, the Office of the Treasurer, or agents of those offices for four (4) years. DEP will not require applicants to retain hauler customer lists; however, the lists may be required to be examined in the event of an audit. It will be the applicant's responsibility to arrange for hauler customer lists to be provided, or for haulers to be present with their customer lists, during a grant audit. Supporting documentation is not required to be submitted with the application. Any tonnages not properly documented at the time of an audit will not be credited towards the applicant's Performance Grant award. No

additional/supplemental documentation will be accepted after the audit is completed. Failure to submit a complete and accurate application may result in a denial of the application.

Grant applications must be on forms provided by DEP for calendar year 2013. Grant applications must be delivered by 4 p.m., Sep. 30, 2014, or postmarked on or before this date. Applications received by the DEP after the deadline will be returned to the applicant. All grant awards are predicated on the receipt of recycling fees required by Sections 701 and 702 of Act 101, and the availability of monies in the Recycling Fund.

Applicants who filed a Performance Grant application for calendar year 2012 will be mailed a current application by DEP as soon as it is available. Applications may also be obtained from the DEP's website at www.depweb.state.pa.us (Keyword: "Recycling Grants"). Inquiries concerning this notice should be directed to Mark Vottero, Bureau of Waste Management, Department of Environmental Protection, Rachel Carson State Office Building, PO Box 8472, Harrisburg, PA 17105-8472 or mvottero@pa.gov.

Mifflin-Juniata Counties Regional Municipal Waste Management Plan; Public Review & Comment Period and Public Meeting Notices

Mifflin and Juniata Counties, Pennsylvania (the Counties), in coordination with the members of the Solid Waste Advisory Committees (SWACs) for each county and with assistance of a consultant, Barton & Loguidice, have prepared a Draft Regional Municipal Waste Management Plan (Regional Plan). The Regional Plan projects waste disposal needs, recyclable quantities, and management techniques to handle those materials for the next ten years. The Regional Plan requires that all municipal wastes generated in Mifflin County and Juniata County be disposed of at Designated Processing/ Disposal Facilities identified in the Regional Plan. The Counties have secured long-term disposal capacity commitments by entering contracts with a total of eleven (11) Designated Facilities in the area, as listed in Chapter 7 of the Regional Plan. These contracts become effective in 2015.

The primary public facility that services the waste and recycling needs of the Counties is the Mifflin County Solid Waste Authority's (Authority's) Transfer Station and Recycling Depot (Transfer Facility), located in Derry Township near Lewistown. The Authority has entered a long-term contract with the Clinton County Solid Waste Authority for the hauling and disposal of wastes from the Authority's Transfer Facility at the Wayne Township Landfill in McElhattan, PA beginning in 2015. The Authority also services over 50 recycling drop-off containers throughout Mifflin County, and accepts self-haul recycling at the Transfer Facility from the Counties. The Regional Plan recognizes the desire to sustain and expand recycling opportunities in the Counties.

The Regional Plan acknowledges the Authority as a key service provider of integrated waste and recycling services and programs for the Counties' residents and businesses. Further, the Regional Plan identifies the benefits to the Counties of a sustained and viable Authority operation throughout the 10-year planning period. The Authority uses a combination of volume discount waste delivery contracts, a competitively bid hauling/ disposal contract, internal fiscal controls, and multiple funding sources to secure the necessary tonnages and revenues to remain viable and sustainable. The Authority intends to continue to use these measures throughout the planning period. The Regional Plan contains contingent waste assurance

ordinances and mechanisms that would be triggered only if the current contracting and waste delivery assurance techniques become ineffective in the future.

Copies of the Regional Plan will be available for inspection and review during normal business hours at 1) the Juniata County Planning Office, Juniata County Courthouse in Mifflintown; 2) the Mifflin County Planning Office, Mifflin County Courthouse in Lewistown, and; 3) the Mifflin County Solid Waste Authority Office, at the entrance of 87 Landfill Road, Lewistown (in Derry Township, on Route 522). The Plan can also be accessed, downloaded and reviewed electronically on the Barton & Loguidice project website at: www.bartonandloguidice.com/mifflin-juniata-swplan.htm.

Comments will be accepted on the Regional Plan anytime within 90 days of the date of this first printed

notice (July 9, 2014). A person may make inquiries on this public review and comment process, or submit their comments in writing, along with the specific reason for their comments, to: 1) the Juniata County Planning Office, One North Main Street, Mifflintown, PA 17059, attention Mr. Brad Kerstetter, Planning Director, ph. 717-436-7729 (or via e-mail to bkerstetter@juniataco.org); or to the Mifflin County Solid Waste Authority, 87 Landfill Road, Lewistown PA 17044, Attention Ms. Lisa Smith, Director ph. 717-242-3301 (or via e-mail to lisamifflincountyswa.com). Reclamation Bond Credits; Increased Amounts Available

The Reclamation Bond Credit Program (Program) is a remining incentive authorized by an amendment to the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19b) by the act of May 22, 1996 (P. L. 232, No. 43). The Program provides an incentive for an operator to voluntarily reclaim an abandoned mine area that the industry would not ordinarily reclaim. An operator may earn a "bond credit" under a Consent Order and Agreement with the Department of Environmental Protection (Department) by reclaiming an abandoned mine land area. The area does not have to be associated with a mining permit. The special account established to financially assure bonding obligations under this Program was initially funded in 1997 with \$200,000. This amount was increased by \$300,000 to \$500,000 in 2010.

Chapter 86 of 25 Pa. Code (relating to surface and underground coal mining: general) established the requirements of the Program. The value of the bond credit is equal to the lesser of either the operator's cost or the Department's cost to reclaim the stipulated area. Once earned, the operator may use the bond credit instead of normal bonding on future mining permits.

Since the inception of the Program, coal mine operators in this Commonwealth have reclaimed 50.1 acres of abandoned mine land, saving the Commonwealth approximately \$553,000 in reclamation costs. There is currently \$442,416 obligated for bond credits.

Effective immediately, the Department is increasing the available amount under the Program from \$500,000 to \$1.1 million. This increase is supported by funds held in the Remining Financial Assurance Fund. The increase will provide financial assurance for Reclamation Bond Credits (Credits) anticipated to be issued in the near future upon the completion of the abandoned mine land reclamation. This will increase the amount obligated for Credits to \$1,004,721.

For background information and supporting documentation regarding Credits, contact the Bureau of Mining Programs, Division of Permitting and Compliance, P. O. Box 8461, Harrisburg, PA 17105-8461, (717) 787-5103.

Pharmacy Prior Authorization

The Department of Public Welfare (Department) announces it will add Hereditary Angioedema (HAE) Agents designated as preferred on the Department's Preferred Drug List to the Medical Assistance (MA) Program's list of services and items requiring prior authorization.

Section 443.6(b)(7) of the Public Welfare Code (62 P.S. § 443.6(b)(7)) authorizes the Department to add items and services to the list of services requiring prior authorization by publication of notice in the *Pennsylvania Bulletin*.

The MA Program will require prior authorization of all prescriptions for preferred HAE Agents. These prior authorization requirements apply to prescriptions dispensed on or after July 22, 2014.

The Department will issue an MA Bulletin to providers enrolled in the MA Program specifying the procedures for obtaining prior authorization of prescriptions for preferred HAE Agents.

Fiscal Impact
