READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 210—APPELLATE PROCEDURE

PART I. RULES OF APPELLATE PROCEDURE

[210 PA. CODE CH. 21]

Order Adopting Amendments to Pa.R.A.P. 2116;
No. 192; Appellate Procedural Rules; Doc. No. 1

Order

Per Curiam

And Now, this 11th day of July, 2008, upon the recommendation of the Appellate Court Procedural Rules Committee, the proposal having been published before adoption at 38 Pa.B. 1446 on March 29, 2008;

It Is Ordered, pursuant to Article V, Section 10 of the Constitution of Pennsylvania, that Pennsylvania Rule of Appellate Procedure 2116 is amended in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b) and shall be effective 30 days after adoption and shall apply to all briefs filed after the effective date.

Annex A

TITLE 210. APPELLATE PROCEDURE

CHAPTER 21. BRIEFS AND REPRODUCED RECORD

CONTENT OF BRIEFS

Rule 2116. Statement of Questions Involved.

(a) *General rule.*—The statement of the questions involved must state [**the question or questions in the briefest and most general terms, without names, dates, amounts or particulars of any kind.**] **concisely the issues to be resolved, expressed in the terms and circumstances of the case but without unnecessary detail. The statement shall be no more than two pages and will be deemed to include every subsidiary question fairly comprised therein. [It should not ordinarily exceed 15 lines, must never exceed one page, and must always be on a separate page, without any other matter appearing thereon. This rule is to be considered in the highest degree mandatory, admitting of no exception; ordinarily no point] No question will be considered [which] unless it is [not set forth] stated in the statement of questions involved or is fairly suggested thereby. [Whenever possible each] Each question [must] shall be followed [immediately] by an answer stating simply whether [it was affirmed, negated, qualified or not answered by the court or government unit below] the court or government unit agreed, disagreed, did not answer, or did not address the question. If a qualified answer was given to the question, appellant shall indicate[, most briefly,] the nature of the qualification, or if the question was not answered**

or addressed and the record shows the reason for such failure, the reason shall be stated briefly in each instance without quoting the court or government unit below.

Official Note:

* * * * *

The 2008 amendments are intended to reinforce the importance placed upon a party's statement of a limited number of concise questions that enable the court to understand the nature of the legal issue, and in a general way what points it will be called on to decide. Thus, a party should incorporate the pertinent terms and circumstances of the case, but without details such as names, dates, amounts or particulars that are irrelevant to the resolution of the issues presented to the court.

Previously, some practitioners violated Pa.R.A.P. 124 to avoid the 15-line and one-page restrictions of Pa.R.A.P. 2116 by adjusting fonts, spacing, and margins. Appellate courts may find issues to be waived when they are not set forth in compliance with the Rules of Appellate Procedure. The increase from one to two pages should provide ample space for most parties to articulate their questions in an informative yet concise manner. A party requiring more than two pages for a statement of questions should file an application under Pa.R.A.P. 123 asking for extra pages, explaining why additional pages are needed, and attaching the proposed questions to the application. See Pa.R.A.P. 105.

The current language of the Rule is consistent with the standard set forth in Pa.R.A.P. 1115(a)(3) for questions presented for review in a Petition for Allowance of Appeal to the Supreme Court.

Title 231—RULES OF CIVIL PROCEDURE

PART I. GENERAL

[231 PA. CODE CH. 200]

Amendment of Rule 226 Governing Points for Charge; No. 494; Civil Procedural Rules; Doc. No. 5

Order

Per Curiam

And Now, this 10th day of July, 2008, Pennsylvania Rule of Civil Procedure 226 is amended to read as follows.

This Order shall be processed in accordance with Pa.R.J.A. No. 103(b) and shall be effective September 1, 2008.

Annex A

TITLE 231. RULE OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 200. BUSINESS OF THE COURTS

Rule 226. Points for Charge. Motion for Directed Verdict.

(a) Points upon which the trial judge is requested to charge the jury shall be so framed that each may be completely answered by a simple affirmation or negation. Attorneys shall hand copies of requested points for charge to the trial judge and to the opposing attorneys before the closing addresses to the jury are begun. A requested point for charge that was presented to the trial judge becomes part of the record when the point is read into the record, or filed in the office of the prothonotary prior to filing a motion for post-trial relief regarding the requested point for charge.

Official Note: An appellate court will not review an objection to a ruling of a trial court regarding a point for charge unless the point for charge was (1) presented to the court and (2) made a part of the record by either reading the point into the record or filing it in the office of the prothonotary prior to filing a motion for post-trial relief.

(b) At the close of all the evidence, the trial judge may direct a verdict upon the oral or written motion of any party.

[Official Note: Subdivision (b) changes the historic practice under the Act of April 22, 1905, P. L. 286, as amended, and the Act of April 20, 1911, P. L. 70, § 1, as amended, repealed by JARA, requiring the filing of a written request for binding instructions as a condition precedent to the filing of a motion for judgment notwithstanding the verdict or after disagreement of a jury.]

Explanatory Comment

Rule 226 governing points for charge has been amended to cure the problem of making points for charge part of the record for appellate review. The amendment is in response to the case of Bennyhoff v. Pappert, 790 A.2d 313 (Pa. Super. 2001), petition for allowance of appeal denied, 573 Pa. 682, 823 A.2d 143 (2003), in which the Superior Court concluded that although a point for charge had been raised by counsel and addressed by the trial court, the text of the point had not been made part of the certified record on appeal. The amendment specifies the methods by which points for charge may be placed on the record. It is important to note that all points for charge must be presented to the court in accordance with the rule regardless of the method by which they are made part of the record.

Per Curiam

Now, this 10th day of July, 2008, upon the recommendation of the Criminal Procedural Rules Committee; the proposal having been published before adoption at 37 Pa.B. 1303 (March 24, 2007), and in the Atlantic Reporter (Second Series Advance Sheets, Vol. 865), and a Final Report to be published with this Order:

Annex A

TITLE 234. RULES OF CRIMINAL PROCEDURE

PART I. GENERAL

CHAPTER 1. SCOPE OF RULES, CONSTRUCTION AND DEFINITIONS, LOCAL RULES

PART A. BUSINESS OF THE COURTS

Rule 109. Defects in Form, Content, or Procedure.

* * * * *

Comment

* * * * *

Ordinarily, if a defendant does not raise a defect at the summary trial or before the conclusion of the preliminary hearing, the defendant cannot thereafter raise the defect as grounds for dismissal or discharge at a later stage in the proceedings. See Commonwealth v. Krall, 452 Pa. 215, 304 A.2d 488 ([Pa.] 1973). In a summary case, however, the provisions of this rule do not preclude a defendant from raising a defect for the first time after the summary trial when the interests of justice require it, as for example, when the defendant was not represented by counsel during the proceedings before the district justice or when the defendant could not reasonably have discovered the defect until after the conclusion of the summary trial.

* * * * *

If the issuing authority determines that a defect is prejudicial, it is intended that the decision recorded on the docket pursuant to Rule 135(B)[(12)] (13) shall be "discharge of the defendant" or "dismissal of the case," rather than "not guilty."

Official Note: Former Rule 90 adopted July 12, 1985, effective January 1, 1986; effective date extended to July 1, 1986; rescinded March 1, 2000, effective April 1, 2001, and replaced by Rule 109. Former Rule 150, formed from former Rule 114 (Informal Defects), and former Rule 115 (Substantive Defects), both adopted June 30, 1964, effective January 1, 1965; suspended effective May 1, 1970; both revised January 31, 1970, effective May 1, 1970; combined, renumbered Rule 150 and amended September 18, 1973, effective January 1, 1974; amended April 8, 1982, effective July 1, 1982, Comment revised July 12, 1985, effective January 1, 1986; effective date extended to July 1, 1986; rescinded March 1, 2000, effective April 1, 2001, and replaced by Rule 109. New Rule 109 adopted March 1, 2000, effective April 1, 2001; **Comment revised July 10, 2008, effective February 1, 2009.**

PART C. VENUE, LOCATION, AND RECODING OF PROCEEDINGS BEFORE ISSUING AUTHORITY

Rule 135. Transcript of Proceedings Before Issuing Authority.

* * * * *

(B) The transcript shall contain the following information, where applicable;

* * * * *

(9) a notation that the defendant has or has not been fingerprinted;

[(9)] (10) a specific description of any defect properly raised in accordance with Rule 109;

[(10)] (11) a notation that the defendant was advised of the right to apply for the assignment of counsel;

[(11)] (12) the defendant's plea **[or]** of guilty or not guilty, the decision that was rendered in the case and the date thereof, and the judgment of sentence and place of confinement, if any;

[(12)] (13) any other information required by the rules to be in the issuing authority's transcript.

Comment

The requirement of a docket was deleted from this rule in 1985 because dockets are now routinely maintained under the supervision of the Administrative Office of Pennsylvania Courts. It is expected that issuing authorities will continue to keep dockets of criminal proceedings. The transcript requirements presuppose an accurate docket to supply the information necessary to prepare **[an]** a transcript.

* * * * *

The requirement that there be a notation indicating whether the defendant has been fingerprinted as required by the Criminal History Record Information Act, 18 Pa.C.S. § 9112, is to alert the district attorney and the court whether it is necessary to have the defendant fingerprinted after the case is held for court.

Official Note: Formerly Rule 125 adopted June 30, 1964, effective January 1, 1965; suspended effective May 1, 1970, revised January 31, 1970, effective May 1, 1970; renumbered Rule 26 and subparagraphs (b)(5) and (b)(10) amended September 18, 1973, effective January 1, 1974; subparagraph (b)(10) amended April 8, 1982, effective July 1, 1982; previous subparagraph (b)(7) deleted January 28, 1983, effective July 1, 1983; amended July 12, 1985, effective January 1, 1986; effective date extended to July 1, 1986; renumbered Rule 135 and amended March 1, 2000, effective April 1, 2001; **amended July 10, 2008, effective February 1, 2009.**

CHAPTER 5. PRETRIAL PROCEDURES IN COURT CASES

PART B(1). Complaint Procedures

Rule 504. Contents of Complaint.

Every complaint shall contain:

* * * * *

(9) a notation that the defendant has or has not been fingerprinted;

[(9)] (10) a request for the issuance of a warrant of arrest or a summons, unless an arrest has already been effected;

[(10)] (11) a verification by the affiant that the facts set forth in the complaint are true and correct to the affiant's personal knowledge, or information and belief, and that any false statements therein are made subject to the penalties of the Crimes Code, 18 Pa.C.S. § 4904, relating to unsworn falsification to authorities; and

[(11)] (12) the signature of the affiant and the date of the execution of the complaint.

Comment

This rule sets forth the required contents of all complaints whether the affiant is a law enforcement officer, a police officer, or a private citizen. When the affiant is a private citizen, the complaint must be submitted to an attorney for the Commonwealth for approval. See Rule 506. When the district attorney elects to proceed under Rule 507 (Approval of Police Complaints and Arrest Warrant Affidavits by Attorney for the Commonwealth—**Local Option**), the police officer must likewise submit the complaint for approval by an attorney for the Commonwealth.

Ordinarily, whenever a misdemeanor, felony, or murder is charged, any summary offense in such a case, if known at the time, should be charged in the same complaint, and the case should proceed as a court case under Chapter 5 Part B. See *Commonwealth v. Cauffman*, 541 Pa. 299, 662 A.2d 1050 (1995) and *Commonwealth v. Campana*, 455 Pa. 622, 304 A.2d 432 (**[Pa.]** 1973), vacated and remanded, 414 U.S. 808 (1973), on remand, 454 Pa. 233, 314 A.2d 854 (1974) (compulsory joinder rule). In judicial districts in which there is a traffic court established pursuant to 42 Pa.C.S. §§ 1301—1342, when a summary motor vehicle offense within the jurisdiction of the traffic court arises in the same criminal episode as another summary offense or a misdemeanor, felony, or

murder offense, see 42 Pa.C.S. § 1302 and *Commonwealth v. Masterson*, 275 Pa. Super. 166, 418 A.2d 664 (1980).

* * * * *

The requirement that the affiant who prepares the complaint indicate whether the defendant has been fingerprinted as required by the Criminal History Record Information Act, 18 Pa.C.S. § 9112, is included so that the issuing authority knows whether it is necessary to issue a fingerprint order with the summons as required by Rule 510.

Official Note: Original Rule 104 adopted June 30, 1964, effective January 1, 1965; suspended January 31, 1970, effective May 1, 1970. New Rule 104 adopted January 31, 1970, effective May 1, 1970; renumbered Rule 132 September 18, 1973, effective January 1, 1974; amended October 22, 1981, effective January 1, 1982; amended November 9, 1984, effective January 2, 1985; amended July 25, 1994, effective January 1, 1995; renumbered Rule 104 and Comment revised August 9, 1994, effective January 1, 1995; renumbered Rule 504 and Comment revised March 1, 2000, effective April 1, 2001; Comment revised March 9, 2006, effective September 1, 2006; **amended July 10, 2008, effective February 1, 2009.**

Final Report explaining the July 10, 2008 amendments adding new paragraph (9) requiring a notation concerning fingerprinting published with the Court's Order at 38 Pa.B. 3975 (July 26, 2008).

PART B(2). SUMMONS PROCEDURES

Rule 510. Contents of Summons; Notice of Preliminary Hearing.

* * * * *

(C) [A copy of the complaint shall be attached to the summons.]

The following items shall be attached to the summons:

- (1) a copy of the complaint; and
- (2) an order directing the defendant to submit to fingerprinting in all cases in which the defendant has not been fingerprinted, except cases initiated by private complaint.

Comment

For the summons procedures in non-summary cases in the Municipal Court of Philadelphia, see Rule 1003(C).

[When a defendant appears for a preliminary hearing pursuant to a summons under this rule and is held for court, the issuing authority should require the defendant to submit to administrative processing and identification procedures (such as fingerprinting) as authorized by law. It is suggested that these processing procedures be made a condition of bail or release. See Criminal History Record Information Act, 18 Pa.C.S. § 9112.]

When a case proceeds by summons, the issuing authority also must issue an order requiring the defendant to submit to the administrative processing and identification procedures as authorized by law (such as fingerprinting) that ordinarily occur following an arrest.

Paragraph (C)(2), added in 2008, requires that the fingerprint order be sent to the defendant with the summons. The purpose of this change is to ensure that the fingerprinting process in summons cases is completed. See the Criminal History Record Information Act, 18 Pa.C.S. § 9112.

The requirement in paragraph (C)(2) that a fingerprint order be attached to the summons does not apply to cases that have been initiated by private complaint or cases in which the defendant has been processed for fingerprinting and other identification procedures prior to being released pursuant to Rule 519.

If a defendant has not complied with the fingerprint order by the time of the preliminary hearing, the issuing authority must make compliance a condition of release on bail.

* * * * *

Official Note: Original Rule 109 adopted June 30, 1964, effective January 1, 1965; suspended January 31, 1970, effective May 1, 1970. New Rule 109 adopted January 31, 1970, effective May 1, 1970; renumbered Rule 110 and amended September 18, 1973, effective January 1, 1974; amended October 22, 1981, effective January 1, 1982; amended November 9, 1984, effective January 2, 1985; amended August 9, 1994, effective January 1, 1995; renumbered Rule 510 and amended March 1, 2000, effective April 1, 2001; amended August 24, 2004, effective August 1, 2005; amended May 1, 2007, effective September 4, 2007, and May 1, 2007 Order amended May 15, 2007; **amended July 10, 2008, effective February 1, 2009.**

Rule 512. Procedure in Court Cases Following Issuance of Summons.

The defendant shall appear before the issuing authority for a preliminary hearing on the date, and at the time and place specified in the summons. If the defendant fails to appear, the issuing authority shall proceed as provided in Rule 543(D).

Comment

For the proper time for the preliminary hearing, see Rule 510.

[When a defendant appears for a preliminary hearing pursuant to a summons and is held for court, the issuing authority should require that the defendant submit to administrative processing and identification procedures (fingerprinting, for example) as authorized by law. It is recommended that this requirement be made a condition of bail or release. See Criminal History Record Information Act, 18 Pa.C.S. § 9112.]

When a case proceeds by summons, the issuing authority must require that the defendant submit to the administrative processing and identification procedures as authorized by law (such as fingerprinting) that ordinarily occur following an arrest. See, e.g., Criminal History Record Information Act, 18 Pa.C.S. § 9112. If these processing procedures

are not completed by the time of the preliminary hearing, they must be made a condition of bail or release. Concerning fingerprinting, see Rule 510(C)(2) that requires the issuing authority to send the fingerprint order with the summons.

PART C(1). RELEASE PROCEDURES

Rule 527. Nonmonetary Conditions of Release on Bail.

* * * * *

(B) The bail authority shall state with specificity on the bail bond any nonmonetary conditions imposed pursuant to this rule.

Comment

* * * * *

The following sets forth a few examples of conditions that might be imposed to address specific situations. In some circumstances, a combination of such conditions might also be considered. This is not intended to be an exhaustive list of appropriate conditions.

* * * * *

(6) When a case proceeds by summons, the issuing authority must require that the defendant submit to required administrative processing and identification procedures, such as fingerprinting required by the Criminal History Record Information Act, 18 Pa.C.S. § 9112, that ordinarily occur following an arrest. Rule 510(C)(2) requires an order directing the defendant to be fingerprinted be issued with the summons. If the defendant has not completed fingerprinting by the date of the preliminary hearing, completion of these processing procedures must be made a condition of release.

Official Note: Former Rule 4006 adopted July 23, 1973, effective 60 days hence, replacing prior Rules 4008 and 4010; amended January 28, 1983, effective July 1, 1983; rescinded September 13, 1995, effective January 1, 1996, and replaced by Rules 524 and 528. Present Rule 4006 adopted September 13, 1995, effective January 1, 1996. The January 1, 1996 effective dates extended to April 1, 1996; the April 1, 1996 effective dates extended to July 1, 1996; renumbered Rule 527 and amended March 1, 2000, effective April 1, 2001; **Comment revised July 10, 2008, effective February 1, 2009.**

PART D. PROCEEDINGS IN COURT CASES BEFORE ISSUING AUTHORITIES

Rule 543. Disposition of Case at Preliminary Hearing.

* * * * *

(C) When the defendant has appeared and has been held for court, the issuing authority shall:

(1) set bail as permitted by law if the defendant did not receive a preliminary arraignment; or

(2) continue the existing bail order, unless the issuing authority modifies the order as permitted by Rule 529[.](A.); and

(3) if the defendant has not submitted to the administrative processing and identification procedures as authorized by law, such as fingerprinting pursuant to Rule 510(C)(2), make compliance with these processing procedures a condition of bail.

(D) In any case in which the defendant fails to appear for the preliminary hearing:

* * * * *

(3) If the issuing authority finds that the defendant's absence is without good cause and after notice, the absence shall be deemed a waiver by the defendant of the right to be present at any further proceedings before the issuing authority.

* * * * *

(b) If the preliminary hearing is conducted and the case held for court, the issuing authority shall

* * * * *

(ii) pursuant to Rule 547, transmit the transcript to the clerk of courts with a request that a bench warrant be issued by the court of common pleas **and, if the defendant has not complied with the fingerprint order issued pursuant to Rule 510(C)(2), with a notice to the court of common pleas of the defendant's non-compliance.**

* * * * *

Comment

Paragraph (C) reflects the fact that a bail determination will already have been made at the preliminary arraignment, except in those cases in which, pursuant to a summons, the defendant's first appearance is at the preliminary hearing. See Rules 509 and 510.

* * * * *

If the administrative processing and identification procedures as authorized by law, such as fingerprinting required by the Criminal History Record Information Act, 18 Pa.C.S. § 9112, that ordinarily occur following an arrest are not completed previously, when bail is set at the conclusion of the preliminary hearing, the issuing authority must order the defendant to submit to the administrative processing and identification procedures as

a condition of bail. See Rule 527 for nonmonetary conditions of release on bail.

If a case initiated by summons is held for court after the preliminary hearing is conducted in the defendant's absence pursuant to paragraph (D)(2) and the defendant has not complied with the fingerprint order issued pursuant to Rule 510(C)(2), the issuing authority must include with the transmittal of the transcript a notice to the court of common pleas that the defendant has not complied with the fingerprint order. See Rule 547.

Rule 547. Return of Transcript and Original Papers.

* * * * *

(C) In addition to this transcript the issuing authority shall also transmit the following items:

* * * * *

(4) the appearance or bail bond for the defendant, if any, or a copy of the order committing the defendant to custody; [and]

(5) a request for the court of common pleas to issue a bench warrant as required in Rule 543(D)(3)(b) [.]; and

(6) notice informing the court of common pleas that the defendant has failed to comply with the fingerprint order as required in Rule 543(D)(3)(b)(ii).

Comment

* * * * *

When the case is held for court pursuant to Rule 543(D)(3), the issuing authority must include with the transcript transmittal a request for the court of common pleas to issue a bench warrant.

When the case is held for court pursuant to Rule 543(D)(3)(b)(ii), the issuing authority must include with the transcript transmittal a notice to the court of common pleas that the defendant has not complied with the fingerprint order issued pursuant to Rule 510(C)(2). The court of common pleas must take whatever actions deemed appropriate to address this non-compliance.

FINGERPRINT ORDERS IN SUMMONS CASES

On July 10, 2008, effective February 1, 2009, upon the recommendation of the Criminal Procedural Rules Committee, the Court amended Rules 135 (Transcript of Proceedings Before Issuing Authority), 504 (Contents of Complaint), 510 (Contents of Summons; Notice of Preliminary Hearing), 543 (Disposition of Case at Preliminary Hearing), and 547 (Return of Transcript in Court Cases) and approved the revision of the *Comments* to Rules 109 (Defects in Form, Content, or Procedure), 512 (Procedures in Court Cases Following Issuing of Summons), and 527 (Nonmonetary Conditions of Release on Bail) to provide procedures for ensuring compliance with identification procedures, including fingerprinting, in summons cases.

These changes are in response to numerous communications received by the Committee, especially from magisterial district judges, questioning how the fingerprint requirements of the Criminal History Records Information Act (CHRIA), 18 Pa.C.S. § 9112, are to be accomplished in cases initiated by summons.² Section 9112(B)(2) requires that, in cases initiated by summons, "the court...shall order the defendant to submit within five days of such order for fingerprinting . . ."

In summons cases, the defendant does not undergo the same type of identification processing that occurs in arrest cases since the defendant is not in custody and no preliminary arraignment is held. The first occasion in which the defendant comes before an issuing authority is usually at the preliminary hearing.

¹ The Committee's *Final Reports* should not be confused with the official Committee *Comments* to the rules. Also note that the Supreme Court does not adopt the Committee's *Comments* or the contents of the Committee's explanatory *Final Reports*.

² Unlike summons cases, in cases initiated by arrest with or without a warrant, compliance with the fingerprinting requirements of CHRIA is relatively straightforward, with the defendant's fingerprints being taken as part of the usual administrative processing following arrest.

The Committee received reports that there is a divergence of practice regarding this question running the gamut from issuing authorities sending out fingerprint orders with the summons to issuing authorities who believe that, based on language in the *Comment* to Rule 510, fingerprints may only be ordered after the case is held for court at the preliminary hearing.

Initially, the Committee considered permitting an issuing authority the discretion to chose the procedure for the issuance of the fingerprint order. However, because the fingerprint requirements of CHRIA apply regardless of whether a case was bound over for court, the Committee concluded that permitting such discretion does not adequately address the problem. In other words, in those cases started by summons that are not held for court at the preliminary hearing, unless the fingerprint order has been issued with the summons, there would be no mechanism to have the defendant fingerprinted. Therefore, the Committee concluded that the rules should require that in all cases, when a summons is issued, the issuing authority also would be required to send out a fingerprint order and would not have the option of waiting until the preliminary hearing to issue the order. To accomplish this, Rule 510 has been amended to provide that the fingerprint order be attached to the summons, along with the copy of the complaint. Additionally, the language in the *Comments* to Rules 510 and 512 that suggests that the issuing authority must wait until the preliminary hearing to issue the fingerprint order has been deleted.

In developing this proposal and after reviewing the publication comments, the Committee recognized that there are circumstances that are exceptions to the requirement that the fingerprint order be sent out with the summons. First, when the defendant already has been processed, for example, when a defendant has been released following an arrest without a warrant as provided in Rule 519(B), the fingerprint order would not need to be sent with the summons.³ Another exception is when a case is initiated by private complaint, since CHRIA provides that in such cases the fingerprints would only be taken upon conviction. Therefore, language has been added to Rule 510 indicating that these exceptions exist with further elaboration about the exceptions in the *Comment*.

In considering the exception when the fingerprinting has already been completed, the Committee was concerned about how this information would be conveyed to the magisterial district judge so he or she will know that the fingerprint order is unnecessary. It was concluded that the police should provide this information at the time the complaint is filed. Accordingly, the content of complaints rule, Rule 504, is amended to require that a notation be added to complaints to indicate whether fingerprints have been taken.

Another issue that arose during the development of this proposal concerns the enforcement of the fingerprint order. Recognizing that, if the defendant fails to comply with the fingerprint order, the primary mechanism to enforce the fingerprint order is making compliance a bail condition following the preliminary hearing, new paragraph (C)(3) has been added to Rule 543 making it clear that compliance should be made a condition of bail. The *Comments* to Rules 510, 512, 527, and 543 have been revised to emphasize this required bail condition as well.

³ Rule 519 provides that the defendant should be processed, which includes fingerprinting, prior to being released.

Finally, during the Committee's discussions on this issue, several members expressed concern about compliance with the fingerprint order in the situation when a case is held for court and transferred from the issuing authority to the court of common pleas. In these cases, there is a possibility that the fingerprint requirement might "get lost," especially in the situation in which the case is held for court in the defendant's absence as provided in Rule 543(D)(3). To address this situation, a provision has been added to Rules 543(D)(3)(b)(ii) and 547(C) that requires the issuing authority to send notice of the defendant's non-compliance to the court of common pleas. It is contemplated that the court of common pleas, once notified, will take whatever actions would be appropriate in the circumstances to ensure future compliance. To further assist in ensuring that such cases do not "fall through the cracks" when transferred to the court of common pleas, the transcript content rule, Rule 135, is amended to include a requirement that the transcript form include a notation that fingerprints have not been taken. Since all district attorney's offices receive copies of the transcript, the district attorney's office is put on notice of the noncompliance and could pursue the matter further. A correlative change has also been made to the *Comment* to Rule 109 to reflect this additional Rule 135 requirement.

RULES AND REGULATIONS

Title 58—RECREATION

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CH. 441a]

Slot Machine Licensing

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 1202(b)(12) and 1326 (relating to license renewals) amends Chapter 441a (relating to slot machine licenses) to read as set forth at 38 Pa.B. 1041 (March 1, 2008).

Purpose of the Final-Form Rulemaking

This final-form regulation amends the provisions related to renewal of slot machine licenses.

Explanation of Amendment to Chapter 441a

Most licenses issued by the Board expire 1 year from the date that the license application is approved by the Board. However, for slot machine licenses, the Board tied the term of the initial licenses to the date that the licenses were issued. This was done for two reasons. First, because the statements of conditions for each of the successful applicants are unique and licenses are not issued until all of the conditions are met, the term of the initial licenses would have been for much less than 12 months. For example, Pocono Downs, which was the first licensed facility to open, did not receive its permanent license until October of 2007. If the December 20, 2006, approval date had been used for the starting date for the term of its license, Pocono Downs would have had to file its renewal application in the same month it received its license. This would have placed an unreasonable administrative burden on Pocono Downs and the rest of the slot machine licensees.

The second reason the Board elected to use the issuance date instead of the approval date was to stagger the due dates of the slot machine license renewals. This allows the Board to more effectively allocate the staff that are needed to conduct the comprehensive renewal application reviews.

Now that the renewal dates have been staggered, the Board is tying the 12-month term of slot machine licenses that are renewed to the date that the Board approves the renewal application. This will allow the Board to continue take advantage of the staggered renewal dates and to coordinate the renewal date of a slot machine licensee's license with the renewal dates of its principals and key employees licenses. Additionally, the Board does not anticipate that there will be major changes in the statements of conditions for the renewals, so the time period between approval and issuance should be much shorter.

Comment and Response Summary

Notice of proposed rulemaking was published at 38 Pa.B. 1041.

The Board received no comments from the public during the public comment period. By letter dated April 30, 2008, the Independent Regulatory Review Commission (IRRC) notified the Board that IRRC had no objections, comments or recommendations to offer on this rulemaking. PROPOSED RULEMAKING

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 401a, 434a, 438a AND 441a] Preliminary Provisions; Onsite Shopkeeper Certification, Labor Organizations; and Slot Machine Licenses

The Pennsylvania Gaming Control Board (Board), under its general authority in 4 Pa.C.S. § 1202(b)(15) and (30) (relating to general and specific powers) and the authority in 4 Pa.C.S. §§ 1102(8) and (9), 1202(23) and 1313 (relating to legislative intent; general and specific powers; and slot machine license application financial fitness requirements), proposes to amend Chapters 401a, 438a and 441a (relating to preliminary provisions; labor organizations; and slot machine licenses) and add Chapter 434a (relating to onsite shopkeeper certification) to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking replaces the permitting requirements for individuals in labor organizations with registration requirements and adds a new chapter that sets forth the requirements for certification of onsite shopkeepers and their regulatory responsibilities. Onsite shopkeepers are businesses that engage in commercial activities at a licensed facility which typically may include restaurants, bars or retail shops. This chapter also specifies the duties and responsibilities of slot machine licensees concerning their relationship with onsite shopkeepers. It also makes minor revisions to provisions in Chapter 441a relating to agreements.

Explanation of Amendments to Chapters 401a, 438a and 441a and the Addition of Chapter 434a

Section 401a.3 (relating to definitions) adds a definition of the term "onsite shopkeeper" as a person that engages in any commercial activity at a licensed facility. The definition of vendor is also being amended by deleting the list of examples. This list had generated some confusion amongst businesses that thought the list was all inclusive, instead of illustrative.

The new Chapter 434a (relating to onsite shopkeeper certification) has been modeled on the existing Chapter 437a (relating to vendor certification and registration). Most of the application forms and procedures for processing applications for onsite shopkeepers will be the same as those used for vendors.

Section 434a.1 (relating to general onsite shopkeeper requirements) requires onsite shopkeepers to obtain certification.

Section 434a.2 (relating to onsite shopkeeper certification applications) contains the application process for certification, general requirements that applicants must comply with and the requirement that an applicant must pay all fees and investigation costs before they will be issued a certification.

Section 434a.3 (relating to individual certifications and investigations) specifies which individuals associated with a certified onsite shopkeeper will be required to obtain individual certifications and the form that these individuals will be required to file.

Section 434a.4 (relating to certification term and renewal) specifies that the term of onsite shopkeeper certifications shall be 4 years and outlines the process for renewal of certifications.

Section 434a.5 (relating to certified onsite shopkeeper responsibilities) lists general responsibilities of certified onsite shopkeepers and specifies which employees of certified onsite shopkeepers will be required to obtain nongaming employee registrations.

Section 434a.6 (relating to approved onsite shopkeepers list; prohibited onsite shopkeepers) requires the Board to maintain a list of approved and prohibited onsite shopkeepers, bars slot machine licensees from entering in to an agreement with a onsite shopkeeper on the prohibited onsite shopkeeper list, and sets forth the criteria the Board will use when determining whether or not a onsite shopkeeper should be placed on the prohibited onsite shopkeeper list. It also outlines the process an onsite shopkeeper on the prohibited onsite shopkeeper list must use to seek removal from the prohibited onsite shopkeeper list.

Section 434a.7 (relating to permission to conduct business prior to certification) sets forth the requirements that must be met by an onsite shopkeeper applicant if they desire to conduct business with a slot machine licensee prior to receiving their certification.

Section 434a.8 (relating to slot machine licensees' duties and responsibilities) lists the responsibilities of slot machine licensees relating to conducting business with a certified onsite shopkeeper. These include: investigating the background and qualifications of onsite shopkeepers; avoiding relationships with onsite shopkeepers of questionable character; requiring agreements to have a cancellation clause if the agreement does not meet Board standards; requiring slot machine licensees to report actions by a onsite shopkeeper that may be a violation of the Act or the Board's regulations; and reporting revenues received from certified onsite shopkeepers.

Chapter 438a is being amended to replace the permitting requirement for labor organization officers, agents and management employees with a requirement that these individuals seek registration. These individuals typically do not work in a licensed facility and rarely would need to be in a restricted area. Accordingly, the Board has determined that registration, rather than obtaining a permit, is more appropriate for these individuals.

More specifically, § 438a.3 (relating to registration of labor organization officers, agents and management employees) has been amended to replace all references to permits with references to registration. Additionally, since registrations do not require renewals, subsection (d) has been revised to reflect that a registration will be valid for as long as the individual holds their current position and subsections (e) and (f) have been deleted.

Minor revisions were made to Chapter 441a in §§ 441a.12 and 441a.13 (relating to maintaining agreements; filing of agreements; and Board review of agreements and records of agreements). The amendments to § 441a.12 will require slot machine licensees to submit to the Board copies of all written agreements or a written description of any oral agreement with a person which involves or may involve payments of \$500,000 or more per year to a slot machine licensee. This will allow the Board

to review the appropriateness of these significant financial transactions to determine their impact on the slot machine licensees and the integrity of gaming. The addition to § 441a.13 will require slot machine licensees to include a provision in all contracts requiring that a person who has contracted with a slot machine applicant or licensee comply with 4 Pa.C.S. Part II (relating to gaming) and regulations promulgated thereunder, including obtaining all required licenses, permits, certifications and registrations. This will allow slot machine licensees to void contracts with parties that should, but refuse to, file an application for a license, permit, certification or registration.

Affected Parties

This proposed rulemaking will affect labor organization officers, agents and management employees, all onsite shopkeepers and slot machine licensees that have onsite shopkeepers at their licensed facility or who provide goods or services valued at \$500,000 or more per year.

Fiscal Impact

Commonwealth

These amendments will eliminate the requirement that annual renewal applications be filed for labor organization officers, agents and management employees. This will reduce the number of permit renewal applications that will have to be processed by the Bureau of Licensing and the Bureau of Investigations and Enforcement of the Board.

By now requiring certification of onsite shopkeepers, these amendments will also increase the number of applications and renewals that are processed by the Bureau of Licensing and the BIE.

However, because applicants must reimburse the Board for all costs incurred associated with the processing of their applications and renewals, this proposed rulemaking will have no fiscal impact on the Board or other agencies of the Commonwealth.

Political Subdivisions

This proposed rulemaking will have no fiscal impact on political subdivisions of this Commonwealth.

Private Sector

Labor organization officers, agents and management employees will experience some cost savings because the application fee and investigation costs for registrations are less than they are for permits and registrations do not require annual renewals.

Onsite shopkeepers will bear the cost of filing applications and paying any additional costs related to the review of the applications that are not covered by the application fee.

General Public

This proposed rulemaking will have no fiscal impact on the general public.

Paperwork Requirements

Labor organization officers, agents and management employees will no longer have to file annual renewal applications.

Onsite shopkeepers and some of their employees will have to complete applications for certification.

Slot machine licensees will have to file monthly reports of income received from onsite shopkeepers with the Board and provide copies of agreements concerning the

provision of goods and services by the slot machine licensee that equal or exceed \$500,000 per year.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking, within 30 days after the date of publication in the *Pennsylvania Bulletin* to Mickey Kane, Secretary, Pennsylvania Gaming Control Board, P. O. Box 69060, Harrisburg, PA 17106-9060, Attention: Public Comment on Regulation #125-91.

Contact Person

The contact person for questions about this proposed rulemaking is Richard Sandusky, Director of Regulatory Review at (717) 214-8111.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 16, 2008, the Board submitted a copy of this proposed rulemaking and a copy of the Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

§ 434a.6. Approved onsite shopkeepers list; prohibited onsite shopkeepers.

(a) The Board will maintain a list of approved certified onsite shopkeepers and a list of prohibited onsite shopkeepers.

(b) A slot machine licensee may not enter into an agreement or continue to do business with an onsite shopkeeper on the prohibited onsite shopkeeper list.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of August 2008

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of August 2008, is 7%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 4.42 to which was added 2.50 percentage points for a total of 6.92 that by law is rounded off to the nearest quarter at 7%.

Notice to those Engaging or Considering Engaging in Nonmortgage Consumer Lending to Pennsylvania Residents

This notice is to advise interested persons that it is the position of the Department of Banking (Department) that engaging in nonmortgage consumer lending¹ to Pennsylvania residents by any means, including by means of the internet or by mail, constitutes engaging in such business "in this Commonwealth" as contemplated by section 3.A of the Consumer Discount Company Act (CDCA) (7 P. S. § 6203.A). As such, any person² engaged in the business of negotiating or making nonmortgage loans or advances of money or credit of \$25,000 or less as principal, employee, agent or broker to consumers in this Commonwealth in which the aggregate interest, discount, bonus, fees, fines, commissions, charges or other considerations (together, the "Charges") exceed 6% simple interest per annum³ is required to obtain a license from the Department under the CDCA. A person licensed under the CDCA is authorized to negotiate or make loans to Pennsylvania residents under the rates, terms and conditions contained in the CDCA.

¹ Mortgage lending activity involving Pennsylvania residents is governed generally by the Mortgage Bankers and Brokers and Consumer Equity Protection Act (63 P. S. §§ 456.101—456.524), and the Secondary Mortgage Loan Act (7 P. S. §§ 6601—6626), unless the lender is a depository institution. Certain kinds of secured nonmortgage consumer loans are governed by the Pawnbrokers License Act (63 P. S. §§ 281-1—281-32).

² A "person" is defined in the CDCA as including "an individual, partnership, association, business corporation, nonprofit corporation, common law trust, joint-stock company or any other group of individuals however organized." 7 P. S. § 6202. The term, for purposes of the coverage of the CDCA, does not include depository institutions. See 7 P. S. § 6217.

³ Unless licensed under the CDCA, a lender that is not a depository institution is restricted to charging the general usury rate of 6% simple interest per annum on nonmortgage loans of \$50,000 or less found in Section 201 of the Loan Interest and Protection Law (LIPL) (41 P. S. § 201).

Nondepository entities engaged in nonmortgage consumer lending to Pennsylvania residents in which the Charges exceed 6% simple interest per annum that are not already licensed under the CDCA must be licensed under the CDCA by February 1, 2009, or cease the lending to Pennsylvania residents. This allowance of time to become licensed under the CDCA or to cease the lending practices is in consideration of existing customer relationships and to provide the consumer lending industry with sufficient time to adjust to the Department's expectations.

Nondepository entities that are not engaged in nonmortgage consumer lending to Pennsylvania residents as of the date of this letter, and who are not currently licensed by the Department under the CDCA, but who wish to become eligible to engage in nonmortgage consumer lending to Pennsylvania residents in which the Charges will exceed 6% simple interest per annum, must immediately apply to the Department for a license under the CDCA and must refrain from making any consumer loans to Pennsylvania residents that include Charges which will exceed 6% simple interest per annum unless and until such application is approved and a license is granted.

As a matter of background, the Department previously took the position that a nondepository entity that did not have any offices of any kind in Pennsylvania or people physically present in this Commonwealth acting as principal, employee, agent or broker was not "in this Commonwealth" as that term is used in section 3.A of the CDCA. Thus, under the prior position, such an entity would not be required to obtain a license under the CDCA to originate nonmortgage consumer loans by means of the Internet or mail to residents of this Commonwealth in which the charges exceeded 6% simple interest per annum, provided that the entity was licensed or otherwise authorized under the entity's home state law to engage in this type of lending activity. However, with the prevalence of Internet-based lending activity, it has become clear to the Department that the prior position has resulted in Pennsylvania consumers being exposed to the very lending practices that the CDCA was enacted to protect them from.

Based upon the foregoing, the Department is convinced that a change in policy is warranted, and licensing under the CDCA should be required for all nondepository entities engaging in nonmortgage consumer lending to Pennsylvania residents in which the charges exceed 6% simple interest per annum. This will provide Pennsylvania consumers with the protections available under the CDCA regardless of whether lenders are located in Pennsylvania or other states. Therefore, the Department's prior position regarding the licensing requirements for out-of-State consumer lenders under the CDCA is discontinued and any supportive Department precedent regarding the prior position will no longer be followed. The licensing under the CDCA for nondepository entities is now required to engage in nonmortgage lending to Pennsylvania residents in which the charges exceed 6% simple interest per annum by any means, including by mail or by means of the Internet.

As noted previously, a transition period is provided for any nondepository entity currently engaging in the practice of nonmortgage consumer lending to Pennsylvania

residents in which the charges exceed 6% simple interest per annum, although those entities interested in beginning to engage in nonmortgage consumer lending to Pennsylvania residents in which the Charges exceed 6% simple interest per annum must immediately apply for a CDCA license and be approved by the Department before beginning the practice. Be advised that any nondepository entity that engages in consumer lending to Pennsylvania residents in violation of the CDCA may be subject to enforcement action under the CDCA and section 201 of the Loan Interest and Protection Law (41 P. S. § 201).

Any questions regarding this Notice may be addressed to the Compliance Division of the Bureau of Compliance, Investigation and Licensing at (717) 772-3889 or you may send inquiries by means of the Department's web site at www.banking.state.pa.us.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984. Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

17-00060A: Penfield Collieries, LLC (301 Market Street, Kittanning, PA 16201) for the modification of a coal preparation plant and associated coal stockpiling and railcar/truck loading operations in Huston Township, **Clearfield County**.

The proposed modification is a change in the manner by which incoming coal may be stockpiled at the facility. Incoming coal is currently required to be stockpiled by means of a stacking tube. The proposed modification is the stockpiling of a portion of the incoming coal by dumping it from trucks directly onto the ground or a stockpile.

The total combined PM/PM10 emissions from the entire facility are not expected to be greater than 81.9 and 27.7 tons, respectively, in any 12-consecutive month period following modification. The facility is not a major (Title V) facility for any air contaminant.

The Department of Environmental Protection's (Department) review of the information submitted by Penfield Collieries, LLC indicates that the modified coal preparation plant and associated coal stockpiling and railcar/truck loading operations will comply with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants, including the BAT requirement of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue plan approval for the proposed modification. Additionally,

if the Department determines that the coal preparation plant and associated coal stockpiling and railcar/truck loading operations are operating in compliance with all conditions of the plan approval and all applicable regulatory requirements following modification, the Department intends to incorporate the plan approval conditions into State-only Operating Permit 17-00060 in accordance with the administrative amendment requirements of 25 Pa. Code § 127.450.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable requirements:

1. All conditions contained in State-only Operating Permit 17-00060 remain in effect unless amended or superseded by a condition contained herein. If there is a conflict between a condition or requirement contained in this plan approval and a condition or requirement contained in State-only Operating Permit 17-00060, the permittee shall comply with the condition or requirement contained in this plan approval rather than the conflicting condition or requirement contained in State-only Operating Permit 17-00060.

2. The facility shall not receive more than 2,600,000 tons of coal, nor produce more than 2,000,000 tons of product coal, in any 12-consecutive month period.

3. All incoming coal shall be stockpiled by means of a stacking tube, except that no more than 800,000 tons of incoming coal may be stockpiled by dumping directly onto the ground or stockpile from a truck bed in any 12-consecutive month period.

4. The freefall distance from the end of the truck bed to the ground or stockpile shall be minimized at all times.

5. An operable water truck equipped with a pressurized spray bar and pressurized hose or nozzle connection shall be maintained onsite at all times and shall be used as needed to control the fugitive dust from plant roadways, stockpiles, stockpile areas and truck dumping operations.

6. All coal placed onto stockpiles shall have a moisture content of at least 5%, by weight, as shall all coal removed from the stockpiles and loaded into railcars and trucks. The permittee shall demonstrate compliance with this requirement each month by collecting a gross sample from each coal stockpile in accordance with ASTM D6882, "Standard Practice for Manual Sampling of Stationary Coal from Railroad Cars, Barges, Trucks, or Stockpiles," preparing these samples for analysis in accordance with ASTM D2013, "Standard Method of Preparing Coal Samples for Analysis," and determining the moisture content of each sample in accordance with ASTM D3302, "Standard Test Method for Total Moisture in Coal," or an alternate method determined by the Department to be equivalent.

7. The permittee shall maintain accurate and comprehensive records of the number of tons of incoming coal stockpiled by dumping directly onto the ground or stockpile from a truck bed each month and the results of all coal moisture analyses performed. All such records shall be retained for at least 5 years and shall be made available to the Department upon request.

8. The requirements of Source P102 Condition No. 011 of State-only Operating Permit 17-00060 are hereby rescinded.

Department of Environmental Protection
400 Waterfront Drive
Pittsburgh, PA 15222

For the Department to assure compliance with all applicable standards, the Department proposes to place the following General and Special Conditions on the Plan Approval:

General Conditions

1. Words and terms that are not otherwise defined in this plan approval shall have the meanings set forth in section 3 of the Air Pollution Control Act (APCA) (35 P. S. § 4003) and 25 Pa. Code § 121.1. (25 Pa. Code § 121.1)

2. The issuance of this plan approval does not prevent the future adoption by the Department of any rules, regulations or standards, or the issuance of orders necessary to comply with the requirements of the Federal Clean Air Act (CAA) or the APCA, or to achieve or maintain ambient air quality standards. The issuance of this plan approval shall not be construed to limit the Department's enforcement authority. (25 Pa. Code § 127.12b(a)(b))

3. This plan approval authorizes temporary operation of the sources covered by this plan approval provided the following conditions are met.

(a) When construction, installation, modification or re-activation is being conducted, the permittee should provide written notice to the Department of the completion of the activity approved by this plan approval and the permittee's intent to commence operation at least 5 working days prior to the completion of said activity. The notice shall state when the activity will be completed and when the permittee expects to commence operation. When the activity involves multiple sources on different time schedules, notice is required for the commencement of operation of each source.

(b) Under 25 Pa. Code § 127.12b(d), temporary operation of the sources is authorized to facilitate the shutdown of sources and air cleaning devices, to permit operations pending the issuance of a permit under 25

Pa. Code Chapter 127, Subchapter F or G (relating to operating permits; and Title V operating permits) or to permit the evaluation of the air contaminant aspects of the source.

(c) This plan approval authorizes a temporary operation period not to exceed 180 days from the date of commencement of operation, provided the Department receives notice from the permittee under paragraph (a), above.

(d) The permittee may request an extension of the 180-day shakedown period if further evaluation of the air contamination aspects of the sources is necessary. The request for an extension should be submitted, in writing, to the Department at least 15 days prior to the end of the initial 180-day shakedown period and shall provide a description of the compliance status of the source, a detailed schedule for establishing compliance, and the reasons compliance has not been established. This temporary operation period will be valid for a limited time and may be extended for additional limited periods, each not to exceed 120 days. If, at any time, the Department has cause to believe that air contaminant emissions from the sources listed in this plan approval may be in excess of the limitations specified in, or established under this plan approval or the permittee's operating permit, the permittee may be required to conduct test methods and procedures deemed necessary by the Department to determine the actual emissions rate. Such testing shall be conducted in accordance with 25 Pa. Code Chapter 139, where applicable, and in accordance with any restrictions or limitations established by the Department at such time as it notifies the company that testing is required. (25 Pa. Code § 127.12b)

4. The permittee shall maintain and operate the sources and associated air cleaning devices in accordance with good engineering practice as described in the plan approval application submitted to the Department. (25 Pa. Code § 127.12(a) (10))

5. (a) The records, reports or information obtained by the Department or referred to at public hearings shall be available to the public, except as provided in paragraph (b) of this condition.

(b) Upon cause shown by the permittee that the records, reports or information, or a particular portion thereof, but not emission data, to which the Department has access under the act, if made public, would divulge production or sales figures or methods, processes or production unique to that person or would otherwise tend to affect adversely the competitive position of that person by revealing trade secrets, including intellectual property rights, the Department will consider the record, report or information, or particular portion thereof confidential in the administration of the act. The Department will implement this section consistent with sections 112(d) and 114(c) of the CAA (42 U.S.C.A. §§ 7412(d) and 7414(c)). Nothing in this section prevents disclosure of the report, record or information to Federal, State or local representatives as necessary for purposes of administration of Federal, State or local air pollution control laws, or when relevant in a proceeding under the act. (25 Pa. Code §§ 127.12(c) and (d) and 35 P. S. § 4013.2)

6. (a) This plan approval will be valid for a limited time, as specified by the expiration date contained on Page 1 of this plan approval. Except as provided in 25 Pa. Code §§ 127.11a and 127.215 (relating to reactivation of sources; and reactivation), at the end of the time, if the construction, modification, reactivation or installation has

not been completed, a new plan approval application or an extension of the previous approval will be required.

(b) If construction has commenced, but cannot be completed before the expiration of this plan approval, an extension of the plan approval must be obtained to continue construction. To allow adequate time for departmental action, a request for the extension should be postmarked at least 30 days prior to the expiration date. The Department will not issue an extension after the plan approval expires. The request for an extension should include the following:

- (i) A justification for the extension.
- (ii) A schedule for the completion of the construction.

If construction has not commenced before the expiration of this plan approval, then a new plan approval application must be submitted and approval obtained before construction can commence.

(c) If the construction, modification or installation is not commenced within 18 months of the issuance of this plan approval or if there is more than an 18-month lapse in construction, modification or installation, a new plan approval application that meets the requirements of 25 Pa. Code Chapter 127, Subchapters B, D and E (related to plan approval requirements; prevention of significant deterioration of air quality; and new source review) shall be submitted. (25 Pa. Code § 127.13)

7. (a) This plan approval may not be transferred from one person to another except when a change of ownership is demonstrated to the satisfaction of the Department and the Department approves the transfer of the plan approval in writing.

(b) Section 127.12a (relating to compliance review) applies to a request for transfer of a plan approval. A compliance review form shall accompany the request.

(c) This plan approval is valid only for the specific source and the specific location of the source as described in the application. (25 Pa. Code § 127.32)

8. (a) Under 35 P. S. § 4008, no person shall hinder, obstruct, prevent or interfere with the Department or its personnel in the performance of any duty authorized under the APCA.

(b) The permittee shall also allow the Department to have access at reasonable times to said sources and associated air cleaning devices with such measuring and recording equipment, including equipment recording visual observations, as the Department deems necessary and proper for performing its duties and for the effective enforcement of the APCA and regulations adopted under the act.

(c) Nothing in this plan approval condition shall limit the ability of the Environmental Protection Agency (EPA) to inspect or enter the premises of the permittee in accordance with Section 114 or other applicable provisions of the CAA. (25 Pa. Code § 127.12(4) and 35 P. S. § 4008 and § 114 of the CAA)

9. This plan approval may be terminated, modified, suspended or revoked and reissued if one or more of the following applies:

(a) The permittee constructs or operates the source subject to the plan approval in violation of the act, the CAA, the regulations promulgated under the act or the CAA, a plan approval or permit or in a manner that causes air pollution.

(b) The permittee fails to properly or adequately maintain or repair an air pollution control device or equipment attached to or otherwise made a part of the source.

(c) The permittee fails to submit a report required by this plan approval.

(d) The EPA determines that this plan approval is not in compliance with the CAA or the regulations thereunder. (25 Pa. Code § 127.13a)

10. (a) The permittee, or any other person, may not circumvent the new source review requirements of 25 Pa. Code Chapter 127, Subchapter E by causing or allowing a pattern of ownership or development, including the phasing, staging, delaying or engaging in incremental construction, over a geographic area of a facility which, except for the pattern of ownership or development, would otherwise require a permit or submission of a plan approval application.

(b) No person may permit the use of a device, stack height which exceeds good engineering practice stack height, dispersion technique or other technique which, without resulting in reduction of the total amount of air contaminants emitted, conceals or dilutes an emission of air contaminants which would otherwise be in violation of this plan approval, the APCA or the regulations promulgated thereunder, except that with prior approval of the Department, the device or technique may be used for control of malodors. (25 Pa. Code §§ 121.9 and 127.216)

11. Reports, test data, monitoring data, notifications shall be submitted to the:

Regional Air Program Manager
Department of Environmental Protection
(At the address given on the plan approval transmittal letter or otherwise notified) (25 Pa. Code § 127.12c)

12. (a) If required by Section 112(r) of the CAA, the permittee shall develop and implement an accidental release program consistent with requirements of the CAA, 40 CFR Part 68 (relating to chemical accident prevention provisions) and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act (Pub. L. No. 106-40).

(b) The permittee shall prepare and implement a Risk Management Plan (RMP) which meets the requirements of Section 112(r) of the CAA, 40 CFR Part 68 and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act when a regulated substance listed in 40 CFR 68.130 is present in a process in more than the listed threshold quantity at the facility. The permittee shall submit the RMP to the EPA according to the following schedule and requirements:

(1) The permittee shall submit the first RMP to a central point specified by the EPA no later than the latest of the following:

(i) Three years after the date on which a regulated substance is first listed under § 68.130; or,

(ii) The date on which a regulated substance is first present above a threshold quantity in a process.

(2) The permittee shall submit any additional relevant information requested by the Department or the EPA concerning the RMP and shall make subsequent submissions of RMPs in accordance with 40 CFR 68.190.

(3) The permittee shall certify that the RMP is accurate and complete in accordance with the requirements of 40 CFR Part 68, including a checklist addressing the required elements of a complete RMP.

(c) As used in this plan approval condition, the term "process" shall be as defined in 40 CFR 68.3. The term "process" means any activity involving a regulated substance including any use, storage, manufacturing, handling or onsite movement of such substances or any combination of these activities. For purposes of this definition, any group of vessels that are interconnected, or separate vessels that are located such that a regulated substance could be involved in a potential release, shall be considered a single process. 23-00017: Exelon Generation Co.—Eddystone Generating Station (One Industrial Highway, Eddystone, PA, 19022) for a renewal of their Title V Operating Permit in Eddystone Borough, **Delaware County**. The initial permit was issued on December 31, 2001. The facility is primarily used for providing electrical energy from two fossil-fuel steam generating units. As a result of potential emissions of NO_x, SO_x and PM, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments, and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. The proposed Title V Operating Permit Renewal does not reflect any change in air emissions from the facility. The facility is subject to Compliance Assurance Monitoring under 40 CFR Part 64 for PM for Sources 031 and 032, and this has been addressed in the renewal permit. The renewal permit contains all applicable requirements including monitoring, recordkeeping and reporting.

This action is a renewal of the original State-only Operating Permit (Synthetic Minor), which was issued on June 6, 2003, and was amended on June 27, 2007. Several typographical changes have been made to the permit. Otherwise, there have been no other changes made to the permit since it was last amended on June 27, 2007. The permit includes monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

**COAL AND NONCOAL MINING
ACTIVITY APPLICATIONS**

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation

performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release

of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. Basin, Source to Confluence with West Branch Susquehanna River

Under 25 Pa. Code § 93.4d (relating to processing of petitions, evaluations and assessments to change a designed use) the Department of Environmental Protection (Department) gives notice that an evaluation will be conducted on the stream listed to determine the proper aquatic life use or special protection designation in the Commonwealth's Water Quality Standards.

<i>Stream Name</i>	<i>County</i>	<i>Tributary To</i>
Loyalsock Creek—Mainstem, from the source near McCarroll Corner to the confluence with the West Branch Susquehanna River	Lycoming, Sullivan and Wyoming	West Branch Susquehanna River

Persons who have technical data concerning the water quality, instream habitat or biological condition of this stream section are encouraged to make it available to the Department for consideration in the assessment. This assessment may lead to a recommendation to the Environmental Quality Board (Board) for redesignation.

Data should be submitted to Tony E. Shaw, Division of Water Quality Standards, Bureau of Water Standards and Facility Regulation, P. O. Box 8467, Harrisburg, PA 17105-8467, tshaw@state.pa.us. Data should be submitted no later than 30 days following publication of this notice. Questions concerning this evaluation can be directed to Tony Shaw at (717) 787-9637.

The portion of the Loyalsock Creek mainstem to be evaluated is currently designated Cold Water Fishes (CWF) from the source to the Lycoming/Sullivan County line and Trout Stocking (TSF) from the county line to the mouth. This assessment is in response to a rulemaking petition submitted to the Board by the Loyalsock Creek Watershed Association in which the petitioners are requesting redesignation of the entire mainstem section in Lycoming County from TSF to High Quality-Trout Stocking (HQ-TSF). This mainstem assessment is being extended upstream of the TSF section in order to evaluate the appropriate protective use of waters flowing into the petitioned area.

Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact Tony Shaw directly at (717) 787-9637 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

**Pennsylvania Gaming Control Board
Regulation #125-86 (IRRC #2695)**

Slot Machine Licensing

July 16, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 17, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. Section 441a.7.—Licensing hearings for slot machine licenses.—Statutory authority; Possible Conflict with Statute; Implementation procedures; Reasonableness; Clarity.

The proposed rulemaking would add a new subsection (r) to this section, which would expand the provisions related to licensing hearings for potential slot machine licensees.

We raise five issues.

A. Statutory Authority, Possible Conflict with Statute and Clarity

First, subsection (r) provides that a license applicant may publicly respond to inquiries related to confidential information during a licensing hearing. However, the Gaming Act (Act) states that: “[a]ll information submitted by an applicant . . . or obtained by the board or bureau as part of a background investigation from any source **shall be considered confidential.**” 4 Pa.C.S. § 1206(f) (emphasis added). Since the proposed regulation now permits confidential information to be disclosed, a commentator questioned whether this option conflicts with the restrictions already imposed by the Act. We agree and recommend that the Board should explain how subsection (r) is consistent with § 1206(f) of the Act.

Second, the proposed rulemaking affords the license applicant an opportunity to request that confidential information be heard in executive session. In light of the deletion of § 1206(a) from the Act, which specifically provided that “confidential documents relative to personal background information provided to the board . . . shall be confidential and considered in closed executive session,” what is the Board’s statutory authority for permitting executive sessions in subsection (r)(1)?

Third, subsection (r) references “confidentiality provided for in 4 Pa.C.S. § 1310(a).” However, that section of the Act does not include a confidentiality provision. Did the Board intend to reference § 1206(f) (pertaining to the confidentiality of information submitted pursuant to § 1310(a))? The Board should correct the citation in the final-form regulation.

B. Implementation Procedures and Reasonableness

Fourth, Section 1206(b) of the Act requires a verbatim transcript of all proceedings held at public meetings. Would the verbatim transcript include the proceedings of the executive session? In addition, assuming that the Board did intend to reference § 1206(f) of the Act, this section provides that confidential information supplied by the applicant pursuant to § 1310(a) shall be released in certain law-enforcement related circumstances and “shall be released to the public, in whole or in part, to the extent that such release is requested by an applicant and does not otherwise contain confidential information about another person.” Would a transcript of an executive session be available for release under these circumstances? If not, how would the Board keep a “full and complete record” of the hearing, as required by 2 Pa.C.S. § 504 (relating to administrative hearings and record)?

Also, if an order is issued as a result of a licensing hearing, and the decision rendered is based on confidential information disclosed in executive session, how will the Board publish that order without revealing confidential information to the public?

The Act also provides that the denial of slot machine licenses is appealable to the Supreme Court. See 4 Pa.C.S. § 1204. If the verbatim transcript does not include the proceedings of the executive session, how will the applicant’s right to a meaningful appeal be protected? Will the Board provide notice to the parties that the transcript is available?

To resolve these issues, the final-form regulation should include appropriate administrative procedures for an executive session.

Finally, subsection (r)(2) provides that in order for an executive session to occur, the applicant must provide a “sufficient reason on the record” to “justify the invocation of confidentiality.” How would the Board determine what would be a “sufficient reason?” The term is vague and the final-form regulation should define this term or include the criteria the Board will use to determine whether a reason is “sufficient.”

We also question whether imposing this burden of proof would result in an undue burden on the applicant, since it appears that confidentiality is a right imposed by the Act.

The final-form regulation should explain the imposition of this justification and how it is consistent with the Act.

**State Board of Education
Regulation #6-312 (IRRC #2696)**

Academic Standards and Assessment

July 16, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 17, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Education (Board) to respond to all comments received from us or any other source.

1. Chapter 4. Academic Standards and Assessment.—Statutory authority; Legislative intent; Protection of the public health, safety and welfare; Fiscal impact; Whether the regulation represents a policy decision of such a substantial nature that it requires legislative review; Reasonableness; Need; Implementation procedures.

Whether the regulation represents a policy decision of such substantial nature that it requires legislative review; Legislative intent.

The General Assembly has indicated its interest in the issue of graduation requirements. Act 61 of 2008 was signed into law on July 9, 2008. This Act includes the following language:

Notwithstanding any provision of law to the contrary, in the 2008-2009 fiscal year, a regulation to change or establish high school graduation requirements shall not be further promulgated, approved or proposed.

In addition, the Senate passed a bill (Senate Bill 1442) by a vote of 48-2 that would prevent the Board from adopting any "Statewide requirements for high school graduation . . ." without an act of the General Assembly. A similar bill was introduced in the House of Representatives (House) (House Bill 2452). Although that bill has not been acted on, it does have 114 co-sponsors, which is more than half of the total members of the House.

Finally, the House Education Committee submitted comments that urge the Board to "step back and re-evaluate these proposed regulatory changes."

We believe the actions taken by the General Assembly and the House Education Committee indicate that the proposal is a policy decision of such a substantial nature that it requires legislative review. We urge the Board to work closely with both chambers of the legislature and the House and Senate Education committees to ensure that the final-form regulation is consistent with the intent of the General Assembly.

Protection of the public health, safety and welfare.

In the Regulatory Analysis Form (RAF), the Board has explained the compelling public interest that justifies the regulation as follows: "This proposed regulation is intended to restore value to the high school diploma and provide every student with an opportunity for success in college and work."

Opposition to this regulation stems from the concern that these proposed changes will result in the creation of a "high-stakes test." The House Education Committee indicated that "based on research and experiences with high stakes testing in other states, [these tests] can have significant negative consequences for students living in poverty, minority students, English language learners, and special needs students including increased high school dropout rates, and further narrowing of curriculum that focuses more on standardized testing of students." Public commentators note that increased dropout rates and the lack of a high school diploma have negative effects on both the individual student and society as a whole.

The House Education Committee and public commentators have raised valid concerns about the impact of the proposed regulation on various categories of students and the potential for an increase in the drop-out rate. These issues are not addressed in detail in the RAF and Preamble. In light of these concerns, the Board should explain how the proposal adequately protects the health, safety and welfare of all citizens of the Commonwealth.

Fiscal impact.

Commentators question whether the Board has adequately addressed the fiscal impact of this regulation. While the RAF addresses costs related to state government, the RAF does not estimate the costs to local school districts for such procedures as validating the local assessment, administering and scoring the tests, record keeping, and compliance with Federal law (with respect to special education students). Therefore, the RAF does not fully reflect the overall fiscal impact to school districts and the Commonwealth. The Board should consult with the regulated community to gain a more accurate understanding of how this proposal will affect them fiscally. Those findings should be included in the RAF submitted with the final-form regulation.

Of particular concern is the cost school entities will incur to pay for the validation of local assessments. The Board has failed to quantify the potential cost for this validation, and commentators believe the cost will be such that it would eliminate the local assessment as a realistic option as a graduation requirement. For this Commission to determine if the proposal is in the public interest, this cost must be quantified.

In addition, commentators have suggested that if this proposal goes forward, it will result in litigation. The Board should factor this potential cost for both the Commonwealth and local government when calculating the fiscal impact of this proposal.

Need for the regulation.

If existing graduation requirements, which include local assessments, are not producing the necessary results, what has the Department done to ensure that the local assessments currently used by many school districts are valid? How many of the local assessments used by school districts have been evaluated by the Department to determine the validity of those assessments? What have the results of those evaluations been? What types of corrective action has the Department taken to improve the local assessments of school districts that are failing? Before the Board moves forward with this proposal, we ask for a more thorough explanation of why the current system is not adequate to address the problem the proposal seeks to address. If the Board determines that regulatory changes are needed, it should consider administering those changes on a case-by-case basis, not as a Statewide mandate.

Implementation procedures; Reasonableness.

Given the number of Graduation Competency Assessments (GCAs) that will be required and the number of times those tests will be administered, it is unclear how school districts will be able to implement the regulation. Tracking the progress of each student in each of the subject matters, scheduling students to take a test or retake a test (or a module of a particular test) and providing remediation are all significant tasks that will require a large amount of a school district's resources. A detailed explanation of how a school district is expected to implement this regulation and why the Board believes this approach is reasonable should be included in the Preamble to the final-form regulation.

Statutory authority.

The House Education Committee and public commentators have suggested that the Public School Code (Code) does not grant the Board the authority to establish these graduation requirements. They believe that Section 1611 of the Code provides school districts the authority to

make final graduation decisions for their students. While 24 P. S. § 26-2603-B(i)(3) permits the Board to adopt a master plan that includes recommendations on student testing and assessment, it is unclear whether these provisions of the Code relate to high school graduation requirements. Therefore, what is the Board's statutory authority for promulgating these requirements?

2. Section 4.3. Definitions.—Clarity.

The Preamble states that a definition for the term Pennsylvania System of School Assessment (PSSA) will be added to the regulation. We note that the term is not defined in the regulation. We recommend that it be added to the final regulation.

3. Section 4.24. High school graduation requirements.—Protection of the public health, safety and welfare; Implementation procedures, Reasonableness; Need; Clarity.

Subsection (b)(1)(iv)(D)

This subsection allows a school entity to include Advanced Placement or International Baccalaureate exams in its graduation requirements. The exams must include academic content that is comparable to the appropriate GCA, and the student must score at a level comparable to proficient on that GCA. The Secretary will establish what that score must be.

We have four concerns on how this test will be administered. First, can a school include Advanced Placement and International Baccalaureate exams in its graduation requirements, or can only one of the exams be included?

Second, if a student takes one of these exams to fulfill graduation requirements but does not score at the proficient level, will the school have to provide supplemental instruction? If the student does not score at the proficient level, will there be an opportunity to take the test again?

Third, how will a school entity know if a particular exam is comparable to a GCA? Would it be possible for one of the exams to be the equivalent of two GCAs? For example, if a student passes an Advanced Placement mathematics exam, would that be comparable to passing the Algebra I, Algebra II and Geometry GCAs?

Fourth, what methodology will the Secretary use to determine the proficient level for a particular Advanced Placement or International Baccalaureate exam?

Subsection (b)(2)(v)

This subsection requires vendors validating local assessments to consider certain criteria when determining whether the local assessment is comparable to GCAs "**under § 4.51(e)**." (Emphasis added.) Why does this subsection refer to Section 4.51(e), when the subject of this section is the PSSAs, not the GCAs? Did the Board intend to reference § 4.51(f) (relating to the development of GCAs)? The Board should correct the citation in the final-form regulation.

Furthermore, why is local assessment being compared only to GCAs? Should the vendor also make comparisons to the PSSA? If so, the necessary criteria for comparison should be included in the final-form regulation. We have a similar concern with the language found in § 4.24 (b)(1)(iv)(C).

The term "related National and State criterion referenced assessments" found in Subsection (b)(2)(v)(E) is vague. The final-form regulation should define this term.

Subsection (c)

This subsection pertains to supplemental instructions. It states the following:

A student who does not score proficient or above on a PSSA administered in 11th grade or GCA administered in any grade shall be provided supplemental instructional support by the student's school entity. The supplemental instructional support must assist the student to attain proficiency in the State academic standards.

We have two concerns. First, why is supplemental instruction for students not scoring proficient or higher on the PSSA required only after 11th grade? Second, the regulation appears to be silent on requirements for supplemental instruction for students scoring less than proficient on local assessments. At what point would a school entity be required to provide supplemental instruction to these students?

4. Section 4.51. State assessment system.—Implementation procedures; Setting lesser standards of compliance for individuals; Clarity.

Subsection (b)

This subsection pertains to PSSAs. It states, in part, the following: "The Department will make samples of assessment questions, instrument formats and scoring guides available to the public after each administration of State assessments." Why hasn't the Board included similar provisions for the GCAs?

Subsection (f)(5)

Under this subsection, scores for the GCAs will be provided to schools "no later than 10 calendar days prior to graduation." With all the required administrative procedures that go into preparing a school for graduation (that is, grading tests, preparing diplomas and exit paperwork), we question whether this is a reasonable time frame for providing the scores.

Subsection (f)(6) and (f)(7)

Subsection (f)(6) refers to a "GCA Module." However, the regulation does not define this term. The final-form regulation should include a definition for this term.

Under Subsection (f)(7), GCA modules "may" be designed in a manner "to allow students who do not score proficient or above to retake those portions of the test in which they did not score proficient or above." The Preamble describes this provision as a requirement. However, the inclusion of the word "may" in the regulation makes this provision optional. We agree with the Board's description of this provision in the Preamble and suggest that "may" be changed to "shall."

Subsection (f)(8)

This subsection states that the Department will provide "guidance" to school entities as to accommodations for students with disabilities and English language learners, "when appropriate." This is nonregulatory language that does not provide the regulated community with a clear understanding of their obligations or the potential costs associated with administering this provision.

The final-form regulation should provide clear and binding standards for how the school district will accommodate the needs of special education and English as Second Language (ESL) students with respect to administration of the GCAs and any resulting remediation.

In addition, several commentators have suggested that exemptions and lesser standards of compliance are needed for some students, in particular special education and ESL students, when high-stakes consequences are attached to individual performance on mandatory assessments. We ask the Board to consider this suggestion, and if the Board decides not to adopt it, to provide a detailed explanation of how students with special needs will be accommodated.
