READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

STATE BOARD OF PODIATRY [49 PA. CODE CH. 29] Biennial Renewal Fees

The State Board of Podiatry (Board) amends § 29.13 (relating to fees), by raising the biennial renewal fee for podiatrists to read as set forth at 32 Pa.B. 946 (February 16, 2002).

A. *Effective Date*

The amendment is effective upon publication of the final-form regulation in the *Pennsylvania Bulletin*. The new fee will take effect January 1, 2003.

B. *Statutory Authority*

The amendment is authorized under section 14 of the Podiatry Practice Act (act) (63 P. S. § 42.14).

C. *Background and Purpose*

At its May 28, 2001, meeting, the Board reviewed a summary of its revenues and expenses. The summary, prepared by the Bureau of Professional and Occupational (Bureau) Affairs Revenue Office and the Bureau of Finance and Operations, showed that the Board must raise the biennial renewal fee to meet or exceed projected expenditures.

If the biennial fee is not increased, the Department of State (Department) anticipates that a significant deficit will occur during FY 2003-2004. This deficit is compounded and more critical since this Board fiscally stands on its own and is not contained within the Professional Licensure Augmentation Account (PLAA). Since this Board is not a part of the PLAA, it cannot utilize any fiscal backing to carry it through budget shortfalls. Therefore, any budget shortfall will stop operations of this Board until a positive balance is maintained. A detailed explanation of the background of this fee as well as a description of the fee was published at 32 Pa.B. 946.

D. *Comment and Regulatory Review of Proposed Rule-making*

Publication of proposed rulemaking at 32 Pa.B. 946 was followed by a 30-day public comment period during which the Board received no public comments. Following the close of the public comment period, the Board received comments from the House Professional Licensure Committee (HPLC). The Board did not receive comments from either the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC) or the Independent Regulatory Review Commission (IRRC).

The following are the comments submitted by the HPLC and the Board's response:

1. The HPLC asked why the need to increase the fee was not recognized or anticipated by the Board at an earlier time so that fee increases could be phased in rather than resorting to one fee increase?

Section 14 of the act states, "If the revenues raised by fees, fines and civil penalties imposed under this act are

not sufficient to meet expenditures over a 2-year period, the Board shall increase those fees by regulation so that projected revenues will meet or exceed projected expenditures."

The Department, before recommending or suggesting a fee increase to any board, must be certain that a fee increase is required and to what degree that increase will be necessary. That determination can only be made after tracking revenue and expenses and insuring that increase is essential. When a revised fee is proposed, the Department is hopeful that fee will be adequate to sustain for several fee cycles. The Department then will meet with that particular board and outline the affects of a fee increase and several fee options and the results of each option. A biennial renewal fee increase is not recommended until a deficit is projected for the board.

Until FY 01-02, the Board had sufficient revenue to meet or exceed its projected expenditures. However, when the Department of State implemented the License 2000 program, the \$3 million expenditure was apportioned among all 27 licensing boards within the Bureau. This Board was assessed an amount of approximately \$11,000 plus maintenance costs. It was at this point that a fee increase was recommended as necessary to avoid a deficit.

2. The HPLC noted that by FY 2005-2006, the Board's projected expenditures will be \$53,000 more than the FY 2000-2001 and asked why the expenditures of the Board were expected to increase so sharply.

In an effort to develop a budget and to project expenses over fiscal periods, the Department will usually extend the current expenditure base, using a 3% increase over the previous year base deducting any known nonrecurring items. This will account for inflation and any cost of living increases, which are required to be funded. Therefore, the expenditure base will increase exponentially to account for those increased annual costs. This concept (3%) would be a conservative mirror image for the relative rate of increase of a total budget.

The fee that the Board was assessed for the implementation of the License 2000 program was significant. Once there is a deficit, the amount rolls over into subsequent years. Without a fee increase to cover the expenditures, the Board will be unable to continue its operations.

E. *Description of Amendment*

<i>Application</i>	<i>Current Fee</i>	<i>Amended Fee</i>
Biennial Renewal Fee	\$ 175	\$ 395

F. *Compliance with Executive Order 1996-1*

In accordance with Executive Order 1996-1 (February 6, 1996), in drafting and promulgating the regulation the Board considered the least restrictive alternative to regulate costs for services requested by licensees and applicants.

G. *Fiscal Impact and Paperwork Requirements*

The amendment will increase the biennial renewal fee for podiatrists in this Commonwealth but, otherwise, should have no fiscal impact on the private sector, the general public or political subdivisions.

The amendment will require the Board to alter some of its forms to reflect the new biennial renewal fees; however, the amendment should create no additional paperwork for the private sector.

H. *Sunset Date*

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

I. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Board submitted copies of the notice of proposed rulemaking, published at 32 Pa.B. 946 to IRRC, the SCP/PLC and the HPLC for review and comment.

In preparing the final-form regulation, the Board has considered any comments received from IRRC, the SCP/PLC, the HPLC and the public.

Under section 5.1(d) of the Regulatory Review Act (71 P. S. § 745.5a(d)), this final-form regulation was deemed approved by the HPLC and the SCP/PLC on July 16, 2002. Under section 5.1(e) of the Regulatory Review Act, this final-form regulation was approved by IRRC effective July 18, 2002.

The Board finds that:

(1) Public notice of proposed rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law and all comments were considered.

(3) This amendment does not enlarge the purpose of proposed rulemaking published at 32 Pa.B. 946.

(4) This amendment is necessary and appropriate for administering and enforcing the authorizing act identified in Part B of this Preamble.

L. *Order*

The Board, acting under its authorizing statutes, orders that:

Title 58—RECREATION

GAME COMMISSION

[58 PA. CODE CH. 135]

Use of and Permissible Activities on State Game Lands

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 9, 2002, meeting adopted the following changes:

Amend §§ 135.2 and 135.41 (relating to unlawful actions; and State game lands) to restrict specified detrimental uses and further define permitted acts and unlawful activities.

These amendments were adopted under the authority of 34 Pa.C.S. (relating to the Game and Wildlife Code) (code).

1. *Introduction*

Section 722(a) of the code (relating to use of property) provides that lands or waters title to which has been acquired by the Commission "... may be used only to create and maintain public hunting and furtaking, game or wildlife propagation areas ... or other uses incidental to hunting, furtaking and game or wildlife resource management." Section 721(a) of the code places the administration of all lands and waters owned or controlled by the Commission under the sole control of the Executive Director and authorizes the Commission to promulgate regulations "... for its use and protection as necessary to properly manage these lands or waters."

The Commonwealth has allowed various recreational uses of the game lands system. Unfortunately, an increase of these recreational uses has resulted in a corresponding increase in user conflicts and habitat degradation and fragmentation. The Commission at its January 15, 2002, meeting proposed, and at its April 9, 2002, meeting finally adopted, changes to §§ 135.2 and 135.41 to place restrictions on some of these recreational uses and to clarify permitted acts.

2. *Purpose and Authority*

The purpose and authority of the adopted changes are outlined in the Introduction. The changes clarify existing regulations regarding use of and permissible activities on game lands and restrict certain recreational uses by the time of year, areas to be used and number of participants. The changes also make it unlawful, while on State game lands, to consume or possess alcohol, possess controlled substances, or engage in any commercial activity without the written permission of the Executive Director.

3. *Regulatory Requirements*

The adopted changes make it unlawful to violate restrictions on specified recreational uses or to engage in prohibited activities.

4. *Persons Affected*

Individuals wishing to use State game lands for specified detrimental uses will be limited. Individuals wishing to use State game lands for other uses will be affected.

5. *Comment and Response Summary*

Seventy-six official comments were received with regard to the adopted changes. Those supporting strongly favored requirement of nonhunters to wear hunter orange when afield on State game lands during hunting seasons; that regulations would reduce or eliminate nonhunting conflicts during hunting seasons; and that regulations would help reduce impacts to both wildlife and habitat. Those opposing primarily voiced the opinion that these were State, public lands and should be open, without restrictions, to all users.

6. *Cost and Paperwork Requirements*

There will be additional cost to the Commission in posting designated routes for specified users as well as posting new regulations on State game lands to inform users of changes. Usual, customary costs associated with signage for any new program can be expected. The anticipated costs are minimal.

7. *Effective Dates*

The adopted changes will be effective February 1, 2003, and will remain in effect until changed by the Commission.

8. *Contact Person*

For further information regarding these changes, contact David E. Overcash, Director, Bureau of Law Enforcement, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Orders

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 135, are amended by amending §§ 135.2 and 135.41 to read as set forth in Annex A to this order.

(b) The Executive Director shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(c) This order shall take effective upon final publication in the *Pennsylvania Bulletin*.

Executive Director

NOTICES

DEPARTMENT OF AGRICULTURE

Pine Shoot Beetle; Order of Quarantine

Whereas, the Plant Pest Act (3 P. S. §§ 258.1—258.27) empowers the Pennsylvania Department of Agriculture (PDA) to take various measures to detect, contain and eradicate plant pests in this Commonwealth; and

Whereas, the powers granted PDA under the Plant Pest Act include (at 3 P. S. § 258.21) the power to establish quarantines to prevent the dissemination of plant pests within this Commonwealth; and

Whereas, Pine Shoot Beetle (*Tomicus piniperda* L.)—a plant pest indigenous to Europe—is a serious plant pest that injures pine trees; and

Whereas, Pine Shoot Beetle had been detected in Allegheny, Armstrong, Beaver, Bedford, Blair, Bradford, Butler, Cambria, Cameron, Clarion, Clearfield, Crawford, Elk, Erie, Fayette, Forest, Greene, Huntingdon, Indiana, Jefferson, Lawrence, McKean, Mercer, Potter, Somerset, Tioga, Venango, Warren, Washington and Westmoreland Counties; and

Whereas, the foregoing counties were made the subject of a Quarantine Order issued by PDA on June 21, 2001 and published at 31 Pa.B. 3558 (July 7, 2001); and

Whereas, Pine Shoot Beetle has since been detected in Centre, Fulton, Lycoming, Susquehanna and Wyoming Counties; and

Whereas, further spread of Pine Shoot Beetle continues to pose a potential serious threat to the economic well-being of the Christmas tree and tree nursery industry within this Commonwealth; and

Whereas, the USDA requires that affected states maintain current, parallel state quarantines in order for USDA to be able to enforce the Federal Pine Shoot Beetle Quarantine with respect to affected areas of the state—rather than against the entire state.

Now, therefore, PDA amends the referenced June 21, 2001, Quarantine Order (published at 31 Pa.B. 3558 (July 7, 2001)) as follows:

1. *Addition of Counties to Quarantine Area.* The Counties of Centre, Fulton, Lycoming, Susquehanna and Wyoming are hereby added to the quarantine area under authority of section 21 of the Plant Pest Act (3 P. S. § 258.21), expanding the quarantined area to include all counties in which the Pine Shoot Beetle is known to be present:

Allegheny County, Armstrong County, Beaver County, Bedford County, Blair County, Bradford County, Butler County, Cambria County, Cameron County, Centre County, Clarion County, Clearfield County, Crawford County, Elk County, Erie County, Fayette County, Forest County, Fulton County, Greene County, Huntingdon County, Indiana County, Jefferson County, Lawrence County, Lycoming County, McKean County, Mercer County, Potter County, Somerset County, Susquehanna County, Tioga County, Venango County, Warren County, Washington County, Westmoreland County and Wyoming County.

2. *Continuation of Provisions.* The Provisions of the June 21, 2001, Quarantine Order (published at 31 Pa.B. 3558 (July 7, 2001)) shall remain in effect with respect to the quarantine area. These restrictions are repeated in Paragraph Nos. 3-13, below:

3. *The Quarantine Area.* The Counties listed in Paragraph No. 1, above, and any other counties added to this quarantine by subsequent order, shall be referred to collectively as the “quarantine area.”

4. *Terms and Definitions.* The following terms and definitions apply to this order:

D. Nursery stock.

E. Any cut, fresh, untreated, unassembled pine materials that have not been manufactured into wreaths or garlands.

F. Stumps.

iii. Any article, product, or means of conveyance that presents a risk of spread of the pine shoot beetle and with respect to which an inspector has notified the person in possession that the article is subject to quarantine.

b. *Certificate.* A document issued or authorized to be issued by an inspector to allow the movement of articles subject to quarantine to a designated destination.

c. *Infestation.* The presence of the Pine Shoot Beetle (*Tomicus piniperda*) or the existence of a reasonable basis to believe that the Pine Shoot Beetle is present.

f. *Person.* An individual, partnership, corporation, company, society, association, or other organized group.

5. *General Conditions of the Quarantine.* An article subject to quarantine shall not be moved from or through the quarantine area unless it is either accompanied by a valid certificate or limited permit issued in accordance with this order or an applicable provision of this order exempts that article from the certificate or limited permit requirement.

6. *Issuance of Certificate.* An inspector shall issue a certificate with respect to any articles subject to this quarantine if:

a. The inspector conducts a complete and thorough examination of the articles and determines that no life stages of the Pine Shoot Beetle are present within or

among the articles and there are no other indicators of the presence of Pine Shoot Beetle present; or

b. The inspector directs treatment of the articles in accordance with methods described in the Federal Pine Shoot Beetle Quarantine, at Section 301.50, and determines that the articles were so treated.

7. *Issuance of Limited Permit.* If an inspector determines that the movement of particular articles subject to quarantine will not result in the spread of the pine shoot beetle, the inspector may issue a limited permit to allow the movement of those articles—without a certificate—to a location outside the quarantine area for particular handling or utilization, or for treatment in accordance with approved procedures.

8. *Certificate or Limited Permit to be Attached to Articles.* A certificate or limited permit shall be either:

a. Securely attached to the outside of the container in which the article subject to quarantine is moved; or

9. *Articles Moved through the Quarantine Area.* An article subject to quarantine may be moved from a location outside the quarantine area, through the quarantine area to a destination outside the quarantine area without a certificate or limited permit if the following conditions are met:

a. During October, November or December; or when the ambient air temperature is below 50°F, passage through the quarantine area is made without stopping except for refueling or traffic conditions; and

b. During January through September, or when the ambient air temperature is at or above 50°F, the article subject to quarantine is moved through the quarantine area in an enclosed vehicle or is completely enclosed by a covering (such as canvas, plastic, or other loosely woven cloth) adequate to prevent access by the Pine Shoot Beetle; and

c. The county and state of origin of the article subject to quarantine are indicated on the waybill or shipping document.

10. *Articles Moved into the Quarantine Area.* If an article subject to quarantine is moved from outside of the quarantine area to a destination within the quarantine area, it shall thereafter be subject to the certificate and

limited permit requirements of this order.

11. *Articles Moved from the Quarantine Area, through an area outside the Quarantine Area, to a Destination in the Quarantine Area.* An article subject to quarantine may be moved from a location within the quarantine area, through an area outside the quarantine area to a destination in the quarantine area without a certificate or limited permit if the following conditions are met:

a. During October, November or December; or when the ambient air temperature is below 50°F, passage through the quarantine area is made without stopping except for refueling or traffic conditions; and

b. During January through September, or when the ambient air temperature is at or above 50° F, the article subject to quarantine is moved through the quarantine area in an enclosed vehicle or is completely enclosed by a covering (such as canvas, plastic, or other loosely woven cloth) adequate to prevent access by the Pine Shoot Beetle; and

c. The county and state of origin and the final destination of the article subject to quarantine are indicated on the waybill or shipping document.

12. *Movement of Living Specimens of the Pine Shoot Beetle for Scientific Purposes.* Living specimens of the Pine Shoot Beetle may be moved out of the quarantine area for scientific purposes only if accompanied by a scientific permit.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of September 2002

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of September 2002, is 7 1/2%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as a principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 5.08 to which was added 2.50 percentage points for a total of 7.58 that by law is rounded off to the nearest quarter at 7 1/2%.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An

acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice, and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

49-310-007: Central Builders Supply Co. (P. O. Box 152, Sunbury, PA 17801) for operation of a wet sand and gravel processing plant in West Chillisquaque Township, **Northumberland County**.

The respective plant is a minor facility. The plant incorporates various pieces of crushing, screening and conveying equipment. Particulate matter emissions from the plant are minimal due to the inherent moisture in the material being processed and the application of water during processing.

The Department of Environmental Protection (Department) has determined that the sand and gravel processing plant has been constructed, and is operating in accordance with all conditions of Plan Approval 49-310-007 as well as in compliance with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12. The Department consequently intends to issue an operating permit for the operation of the respective sand and gravel processing plant.

The following is a summary of the conditions the Department proposes to place in the operating permit to be issued to ensure compliance with all applicable requirements:

1. The permittee shall have onsite an operable water truck equipped with a pressurized spray bar to be used, as needed, for the prevention and control of fugitive air contaminant emissions from roadways, stockpiles, etc.
2. At least the first 250 feet of the main plant entrance/exit road shall be paved.
3. No stationary fossil fuel fired engines or generators shall be operated on site.
4. If it is ever determined that the air contaminant emissions from any piece of sand and gravel processing equipment incorporated in the plant are in excess of any applicable air contaminant emission limit, the permittee shall install water spray dust suppression nozzles and/or take such other control measures as are necessary to reduce the air contaminant emissions to within the applicable limits.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections, application number, and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor, application number, a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Prospective Purchaser Agreement Settlement under the Comprehensive Environmental Response, Compensation And Liability Act and the Hazardous Sites Cleanup Act

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C.A. §§ 9601—9675) among other statutes, has entered into a Prospective Purchaser Agreement with Equity Brokerage, Inc. (EBI) related to the East Tenth Street HSCA Site in Marcus Hook, Delaware County, PA.

Under the terms of the Prospective Purchaser Agreement, EBI will make a contribution towards the Department's response costs at the Site and agrees not to exacerbate any existing contamination attributable to the East Tenth Street Site in exchange for a covenant not to sue and contribution protection from the Department.

Copies of the full Prospective Purchaser Agreement are maintained in the Department's Southeast Regional Office, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, and may be viewed or obtained by contacting April Flipse at (610) 843-5937 or William Blasberg at (610) 832-6000 during normal business hours. A 60-day period of public comment will follow the date of publication of this Notice, and the Department has reserved the right to withdraw from the Prospective Purchaser Agreement in the event that comments submitted during the comment period disclose facts or considerations which indicate, in the Department's discretion, that the Prospective Purchaser Agreement is inappropriate or not in the public interest. Interested parties may submit comments in writing to April Flipse at the Department's Southeast Regional Office.

Notice of Prompt Interim Response Mount Union Creosote Site Mount Union Borough Huntingdon County, Pennsylvania

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) has initiated a prompt interim response at Mount Union Creosote Site. This response has been initiated under sections 501(a) and 505(b) of the HSCA (35 P. S. §§ 6020.501(a) and 6020.505(b)). The site is located at Mount Union Borough, Huntingdon County, PA.

The Mount Union Creosote Site (Site) is located in the northeastern section of Mount Union Borough, Huntingdon County. The area of concern is 15.5 acres previously occupied by a creosote treatment plant and its associated features. Former creosote treatment, storage and disposal activities have resulted in the release of hazardous substances. The athletic fields of the Mount Union Area High School are located in the area previ-

ously occupied by the south end of the former creosote plant operations and are believed to have been constructed over the area used for drying creosote impregnated railroad ties.

The Department conducted an investigation during July 1999 to assess the impact of former creosote activities on surface soils (less than 2 feet below the ground surface), the bedrock aquifer, and to determine groundwater flow paths and impacts to surface waters and sediments of the Juniata River.

The collection and analysis of surface soil samples throughout the Site indicate a sporadic occurrence of creosote-impacted soils. The chemicals of concern (COCs) are creosote related organic contaminants present above regulatory site-specific standards. The Site COCs are benzo(a)anthracene, benzo(a)pyrene, and benzo(b)fluoranthene. Analysis of site monitoring wells shows the presence of soil COCs in the shallow groundwater.

To assess the site-specific potential impact of the COCs in the surface soil on the groundwater, a fate and transport analysis of potential leaching was performed and site-specific concentrations were calculated. The calculations indicate that existing groundwater contaminant levels are not currently impacting the Juniata River and will not impact river sediment and surface water in the future.

The Department proposes a prompt interim response at this Site to protect public health and safety or the environment. This determination is based on the potential and actual human exposure to hazardous substances in the shallow soil via inhalation, ingestion and dermal contact.

The Department considered three alternatives: 1. No action, which allows the continued exposure to COCs in the shallow soil. 2. Limited action, which includes implementation of a deed restriction to prevent future intrusive activities at the Site, and prohibit future use of groundwater at the Site. 3. Excavation and disposal of contaminated surface soil, and continued groundwater monitoring.

The Department has chosen to implement specific elements of Alternative 2 and implement Alternative 3. Both comply with applicable, relevant and appropriate requirements (ARARs), will reduce hazardous constituent concentrations below regulatory standards, remove direct contact threats, and are cost effective. These alternatives are protective of human health, safety, welfare and the environment by eliminating the risk from further release of hazardous substances at the Site.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)), and the publication of this notice starts the administrative record period under HSCA. The Administrative Record which contains information about this site and which supports the Department's decision to perform this action at the site is available for public review and comment. The Administrative Record can be examined from 8 a.m. to 4 p.m. at the Department's Southcentral Regional Office located at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Crystal Snook at (717) 705-6645. The Administrative Record can also be reviewed at the Mount Union Public Library, Mount Union, PA.

The Administrative record will be open for comment from the date of publication of this notice in the *Pennsylvania Bulletin* and will remain open for 90 days. Persons may submit written comments regarding this action to

the Department before November 29, 2002, by mailing them to Crystal Snook at Department of Environmental Protection, South Central Region, 909 Elmerton Avenue, Harrisburg, PA 17110-8200.

The public will have an opportunity to present oral comments regarding the proposed action at a public hearing. The hearing has been scheduled for October 1, 2002, at 7 p.m. at the Mount Union High School Auditorium located at 706 North Shaver Street, Mount Union, PA. Persons wishing to present formal oral comment at the hearing should register before 4 p.m., September 26, 2002, by calling Sandra Roderick at (717) 705-4931.

If no person registers to present oral comments by September 26, 2002, the hearing will not be held but will be replaced with an informational meeting. Persons interested in finding out if anyone has registered, and if the hearing will be held, should also contact Sandra Roderick at the same number previously listed. An informational meeting will be held following the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should call Sandra Roderick at the same number previously listed or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

**North Front Associates/Container Recyclers Site,
Philadelphia County**

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P.S. §§ 6020.101—6020.1305) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C.A. §§ 9601—9675), has entered into a proposed settlement with William H. Cooper's Sons, Inc., concerning the cleanup of the North Front Associates (former Container Recyclers Ltd.) site in Philadelphia County, PA. Under the terms of the proposed Consent Decree, William H. Cooper's Sons, Inc. will pay into the Pennsylvania Hazardous Sites Cleanup Fund the sum of \$10,600 in three installments. In the mid 1990's the Department implemented an Interim Response and a Prompt Interim Response to mitigate the threat to human health and the environment posed by the hazardous substances released there.

The specific terms of this settlement are set forth in the proposed Consent Decree between the Department and William H. Cooper's Sons, Inc. The Department will receive and consider comments relating to the proposed Consent Decree for 60 days from the date of this Public Notice. The Department has the right to withdraw its consent to the proposed Consent Decree if the comments concerning the proposed Consent Decree disclose facts or considerations which indicate that the proposed Consent Decree is inappropriate, improper, or not in the public interest. After the public comment period, the Department's settlement with William H. Cooper's Sons, Inc. shall be effective on the date which, if the Department has notified the United State District Court for the Eastern District of Pennsylvania in writing that no significant comments were received or that a response to significant written comments has been filed, the Court issues an Order entering the Consent Decree.

Copies of the proposed Consent Decree are available for inspection at the Department's Southeast Regional Office in Conshohocken, Montgomery County. Provisions of 25 Pa. Code § 250.8 (relating to publication), Administration of the Land Recycling and Environmental Remediation Standards Act (act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. SPECIAL NOTICES

**Pennsylvania Department of Environmental Protection
Public Meeting/Public Hearing Cancellation
Dougherty and Lehman NPDES-CAFO Permit Applications
Limestone Township, Lycoming County**

The Department of Environmental Protection (Department) is cancelling, until further notice, the public meeting/public hearing, originally scheduled for September 5, 2002, at the Jersey Shore Area High School auditorium. The original purpose of the hearing was to discuss two separate National Pollutant Discharge Elimination System (NPDES) Concentrated Animal Feeding Operation (CAFO) General Permit applications for facilities proposed in Limestone Township, Lycoming County. The two applicants are: (1) Charles L. and Michelle L. Dougherty; and (2) Michael V. and Dorothea A. Lehman. The meeting/hearing has been cancelled because the Department has determined that it will be necessary for the applicants to submit Individual NPDES application packages, rather than Notices of Intent to be covered under the General NPDES permit. It will also be required that Water Quality Management permit applications be submitted for the proposed manure storage facilities. A meeting/hearing may be re-scheduled, after the Department receives the new application packages. Notice of any rescheduled meeting/hearing will be announced in this *Pennsylvania Bulletin*.

The Treasury Department holds all unclaimed property in safekeeping until the rightful owner, or his legal representative, files a claim. If your name appears on the list in this notice, please contact the Bureau of Unclaimed Property at (800) 222-2046 to file a claim. Customer service representatives are available to assist you Monday through Friday, 7:30 a.m.—5 p.m. You may also file a claim by writing to the Pennsylvania Treasury Department at:

Bureau of Unclaimed Property
P.O. Box 1837
Harrisburg, PA 17105-1837
Attn. Tangible Research

According to Pennsylvania's Disposition of Abandoned and Unclaimed Property Act, the Treasury Department may sell tangible items to the highest bidder at public sale if no claim is filed; however, the proceeds of the sale are maintained in the name of the rightful owner, until the owner or his legal representative is found.

Pennsylvania's unclaimed property program is administered by Barbara Hafer, State Treasurer.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.

GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.
