READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.16-4. Support Guidelines. Calculation of Support Obligation. Formula.

* * * * *

(c) *Substantial or Shared Physical Custody.*

(1) When the children spend 40% or more of their time during the year with the obligor, a rebuttable presumption arises that the obligor is entitled to a reduction in the basic support obligation to reflect this time. This rebuttable presumption also applies in high income cases decided pursuant to Rule 1910.16-3.1. Except as provided in [**subsections (2) and (3)**] **subsection (2)** below, the reduction shall be calculated pursuant to the formula set forth in Part II of subdivision (a) of this rule. For purposes of this provision, the time spent with the children shall be determined by the number of overnights they spend during the year with the obligor.

* * * * *

Rule 1910.16-7. Support Guidelines. Awards of Child Support When There are Multiple Families.

(a) When the total of the obligor's basic child support obligations equals fifty percent or less of his or her monthly net income, there will generally be no deviation from the guideline amount of support on the ground of the existence of a new family. For example, where the obligor requests a reduction of support for one child of the first marriage on the basis that there is a new child of the second intact marriage, and the relevant monthly net incomes are \$2,500 for the obligor, \$500 for the former spouse and \$1,300 for the current spouse, the request for a reduction will be denied because the total support obligation of [**\$1,141 (\$593 for the first child and**

\$548] \$1,140 (\$584 for the first child and \$556 for the second child) is less than half of the obligor's monthly net income.

* * * * *

Rule 1910.17. Support Order. Effective Date. Change of Circumstances. Copies of Order. Priority of Distribution of Payments.

* * * * *

(d) The priorities for distribution of payments and/or collections from the obligor, without regard to the source of the funds or method of collection, are as follows:

(1) **monthly** current child support.

(2) medical, child care or other court-ordered child support-related expenses.

(3) monthly ordered amount toward child support arrears.

(4) **monthly** current spousal support or alimony pendente lite.

Title 25—LOCAL COURT RULES

WASHINGTON COUNTY

Local Civil Rule L-810; Washington County Civil Litigation Mediation Program; No. 2014-1

Order

And Now, this 9th day of September, 2014; *It Is Hereby Ordered* that the previously-stated Washington County Local Civil Rule be restated as follows.

This rule will become effective thirty days after publication in the *Pennsylvania Bulletin*.

By the Court

DEBBIE O'DELL SENECA,
President Judge

L-810. Washington County Civil Litigation Mediation Program.

a. There will be at least two (2) sessions of the Civil Litigation Mediation Program held each calendar year. At each session, mediators will hold settlement/conciliation conferences for those cases selected for the Civil Litigation Mediation Program.

b. The mediators will be practicing attorneys from Washington County, with an emphasis in their practice on civil litigation. The mediators will be selected by the Civil Litigation Mediation Program Committee of the Washington County Bar Association, with the approval of the court.

c. The inclusion of cases in the Civil Litigation Mediation Program will be mandatory, except that asbestos cases will not be included in the Civil Litigation Mediation Program. The attendance of trial counsel, the plaintiff, the defendant/additional defendant and a representative of the defendant's/additional defendant's insurance carrier (if the defendant/additional defendant is insured) at the settlement/conciliation conference shall be mandatory. If the plaintiff, the defendant/additional defendant or the insurance carrier representative fail to appear, the settlement/conciliation conference will not be held and the non-appearing plaintiff, defendant/additional defendant (if self-insured or uninsured) or insurance company representative shall, within thirty (30) days, pay to the other party that party's attorney's fees and expenses in preparing for and attending the settlement/conciliation conference, as assessed and ordered by the mediator.

d. Each mediator will serve one (1) day per session of the Civil Litigation Mediation Program and will be expected to prepare for and hold two (2) settlement/conciliation conferences per day. Two (2) mediators will serve for each day session of the Program.

e. On or before May 15 and September 15, the Court Administrator will select the twenty (20) oldest cases (by date of filing) from the combined civil trial lists of all civil trial judges for inclusion in each session of the Civil Litigation Mediation Program.

f. Upon assignment of a mediator for each case selected for mediation, the mediator shall within ten (10) days of his or her assignment to a case notify the Court Administrator of the date and time of the settlement/conciliation conference. The mediator shall schedule the settlement/conciliation conference within sixty (60) days of the assignment of the case.

g. The parties to any case on the civil trial list may at any time by agreement voluntarily submit a case to mediation by the filing of the Civil Litigation Mediation Program consent Submission Form. These forms are available through the Court Administrator's office. However, any such submission shall not delay any scheduled trial of the matter. Further, upon motion of any party to submit a case to mediation, then on a civil trial list, the Court shall direct the parties to proceed to mediation if the scheduling of the mediation will not delay any scheduled trial in the matter.

h. For all cases which are selected for mandatory mediation and are not either: (1) settled or (2) referred to arbitration or (3) mediated due to the failure of one or more of the parties to pay the \$300.00 mediation fee, those cases, pursuant to Pa.R.C.P. 214(s), will be given preference on the trial list. The trial of those cases given preference will be held as soon as is practicable after the date of the settlement/conciliation conference. Cases voluntarily submitted into the Mediation Program will not be given preference on the trial list.

i. If a case is otherwise determined by the Court to be ready for trial, the fact that a settlement/conciliation conference has been scheduled but not yet held will not delay the trial of a case. If the settlement/conciliation is not held, the mediation fee referred to in paragraph (k) will be refunded to each party.

j. At least ten (10) days prior to the settlement/conciliation conference, each party shall file a settlement/conference statement which must include the following:

1. party's succinct statement or position regarding liability and damages;
2. significant legal issues involved, with citation of legal authority;
3. medical reports;
4. expert reports;
5. itemized list of damages;
6. last settlement posture and rationale.

This requirement will be deemed to be satisfied if a party has previously filed a pre-trial statement pursuant to Washington County Local Rule L-212.2 in which case that party will be required to file only a settlement/conciliation statement providing updated information not set forth in the pre-trial statement, but required by the settlement conciliation conference statement.

If a party fails to file timely the settlement/conciliation conference statement, the settlement/conciliation conference will not be held and the party who fails to file timely the required statement will pay the attorney's fees and expenses of those parties who have filed timely their statements.

k. Each party to a case selected for mediation will pay a mediation fee of \$300.00 to be made payable to the Washington County Civil Litigation Mediation Program Trustee Account and to be submitted to the Court Administrator's Office. For those cases subject to mandatory mediation, the \$300.00 mediation fee shall be paid within ten (10) days of the date of the Notice of Scheduling of Settlement/Conciliation Conference. For those cases voluntarily submitted to mediation, the \$300.00 mediation fee shall be paid with the filing of the Consent to Submit Case to Civil Litigation Mediation Program. Failure to pay the \$300.00 mediation fee shall result in the cancellation of the settlement/conciliation conference and shall

subject the offending party to the sanctions set forth in Paragraph (j) of the Mediation Program.

1. Within ten (10) days from the date of the settlement/conciliation conference, the mediator shall file with the Prothonotary a settlement/conference report which shall set forth the following:

1. Plaintiff's final settlement demand;
2. Defendant's final settlement offer;
3. Mediator's assessment of liability;
4. Mediator's assessment of damages;
5. Mediator's opinion regarding potential range of verdict and settlement value of case;
6. Mediator's recommendation regarding settlement of case.

All parties and the Court Administrator will be provided with a copy of the mediator's settlement/conciliation conference report.

m. Notwithstanding the preceding subsections and L-1042.1—1042.20, the Court may in its discretion set a civil case for an alternative dispute resolution ("ADR") before a private mediator. The method of selection of the private mediator shall be in the discretion of the Court. All parties shall bear equally the costs of any Court-ordered private mediation; provided, however, that the Court will take appropriate steps to assure that no referral to ADR results in an unfair or unreasonable economic burden on any party.

Note: When selecting a case for ADR before a private mediator, the Court should consider various criteria, including the nature of the claims involved and their complexity, whether any of the litigants is pro se, the potential for a successful resolution, and the interests of justice.

(1) The method of ADR shall be addressed to the discretion of the private mediator.

(2) The fact that a case is selected for ADR shall not delay the scheduled trial of a case.

(3) Nothing in this rule shall prevent the parties from voluntarily engaging in ADR before a private mediator on their own initiative.

Explanatory Comment

This local rule reflects the strong judicial policy in favor of parties voluntarily settling lawsuits expressed by the Supreme Court of Pennsylvania in *Rothman v. Fillette*, 469 A.2d 543 (Pa. 1983). The use of Court-directed ADR processes reduce the expense of litigation and often times leads to a quicker and more satisfying alternative when compared to continuing on a more traditional path of litigation. An ancillary benefit to ADR is the potential of reducing the burden on the finite resources of the Court.

RULES AND REGULATIONS

Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

STATE BOARD OF SOCIAL WORKERS, MARRIAGE AND FAMILY THERAPISTS AND PROFESSIONAL COUNSELORS

[49 PA. CODE CHS. 47—49]

Qualifications for Licensure

The State Board of Social Workers, Marriage and Family Therapists and Professional Counselors (Board) amends §§ 47.12c, 48.13 and 49.13 (relating to licensed clinical social worker; licensed MFT; and licensed professional counselor).

Statutory Authority

Section 6(2) of the Social Workers, Marriage and Family Therapists and Professional Counselors Act (act) (63 P. S. § 1906(2)) authorizes the Board to adopt and revise rules and regulations as may be necessary to carry into effect the provisions of the act.

Background and Need for Amendment

The act of March 14, 2012 (P. L. 191, No. 17) (Act 17) amended the act by revising some of the qualifications for licensure as a licensed clinical social worker, licensed marriage and family therapist, and licensed professional counselor. Act 17 amended section 7(d) of the act (63 P. S. § 1907), regarding qualifications for a clinical social work license, to provide an alternative to the completion of 3,000 hours of supervised clinical experience for those applicants who hold an Academy of Certified Social Workers certificate issued prior to January 2, 2001, by the National Association of Social Workers, or otherwise meets the supervision expectation in a manner acceptable to the Board. With regard to qualifications for licensure as a marriage and family therapist and for licensure as a professional counselor, Act 17 amended section 7(e) and (f) of the act to permit an applicant with a master's degree of less than 48 semester hours or 72 quarter hours, granted on or before June 30, 2009, to qualify for licensure. It would also eliminate confusing language regarding the length of the required supervised clinical experience to clarify that 3,000 hours, acceptable to the Board as determined by regulation, are required as a condition of licensure. This final-form rulemaking implements Act 17.

Summary of Comments and the Board's Response

The Board published a proposed rulemaking at 43 Pa.B. 6382 (October 26, 2013) with a 30-day public comment period. During the public comment period, the Board received one public comment. The Board did not receive comments from the House Professional Licensure Committee (HPLC) or the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC). On December 24, 2013, the Board received a letter from the Independent Regulatory Review Commission (IRRC) indicating that it did not have objections, comments or recommendations to offer on the proposed rulemaking.

On November 22, 2013, the Board received a public comment from an individual who suggested that the legislative intent was to permit applicants who have

completed a qualifying master's degree on or before June 30, 2009, regardless of the number of credits in the master's degree program, to qualify for licensure if the applicants obtained the requisite supervised clinical experience at any time after the completion of the qualifying master's degree, rather than "after the completion of 48 semester hours or 72 quarter hours of graduate coursework" as set forth in section 7(e)(3)(i) and (f)(3)(i) of the act. The commentator reported that this is an important distinction because applicants, like the commentator, who obtained a 45-semester-hour master's degree prior to 2009, and completed supervised clinical experience in the years soon after obtaining the master's degree, could qualify for licensure without having to repeat the supervised clinical experience after having completed "48 semester hours" of graduate coursework.

The Board considered the comment at its meeting on March 11, 2014, and while the Board sympathizes with the commentator's situation, the act is clear that to qualify for a license as either a licensed marriage and family therapist or a licensed professional counselor, an individual must complete a planned program of 60 semester hours or 90 quarter hours of graduate course work to include a 48-semester-hour or 72-quarter hour master's degree unless the master's degree was earned on or before June 30, 2009, in which case the master's degree could be less than 48 semester hours or 72 quarter hours, and complete at least 3,000 hours of supervised clinical experience "obtained after the completion of 48 semester hours or 72 quarter hours of graduate coursework." The General Assembly did not amend section 7(e)(3)(i) or (f)(3)(i) of the act and the Board finds it reasonable to interpret this omission as intending to place applicants in a similar position, regardless of how many credit hours their master's degree program contained, or when it was completed. That is, every applicant must complete 60 semester hours of graduate coursework, including a qualifying master's degree, and must complete a supervised clinical experience after having completed 48 semester hours (of the total 60 hours) in graduate level coursework. For these reasons, and to remain consistent with section 7(e)(3)(i) and (f)(3)(i) of the act, the Board did not make revisions to the final-form rulemaking.

Fiscal Impact

The final-form rulemaking benefits those individuals who now qualify for licensure without the required 48-semester-hour master's degree in that they will not have to return to school to obtain a 48-semester-hour/72-quarter-hour master's degree. It will also benefit applicants for licensure as licensed marriage and family therapists and licensed professional counselors who can become licensed sooner by not having to complete (and sometimes pay for) 600 additional hours of supervised clinical experience. The final-form rulemaking is not expected to have other fiscal impact on the regulated community, the private sector, the general public or political subdivisions of this Commonwealth.

Paperwork Requirements

The final-form rulemaking will require the Board to alter some of its application forms to reflect the revised qualifications for licensure. However, the final-form rulemaking will not create additional paperwork for the regulated community or the private sector.

Sunset Date

The Board continuously monitors the effectiveness of its regulations on a fiscal year and biennial basis. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 16, 2013, the Board submitted a copy of the notice of proposed rulemaking, published at 43 Pa.B. 6382, to IRRC and the Chairpersons of the HPLC and the SCP/PLC for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC, the HPLC and the SCP/PLC were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board has considered all comments from IRRC, the HPLC, the SCP/PLC and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on September 3, 2014, the final-form rulemaking was deemed approved by the HPLC and the SCP/PLC. Under section 5(g) of the Regulatory Review Act, the final-form rulemaking was deemed approved by IRRC effective September 3, 2014.

Contact Person

Further information may be obtained by contacting Megan Castor, Counsel, State Board of Social Workers, Marriage and Family Therapists and Professional Counselors, P. O. Box 2649, Harrisburg, PA 17105-2649.

(P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law and the comments were considered.

(3) This final-form rulemaking is necessary and appropriate for administering and enforcing the authorizing act identified in this preamble.

Order

The Board, acting under its authorizing statute, orders that:

(a) The regulations of the Board, 49 Pa. Code Chapters 47—49, are amended by amending §§ 47.12c, 48.13 and 49.13 to read as set forth at 43 Pa.B. 6382.

(b) The Board shall submit this order and 43 Pa.B. 6382 to the Office of General Counsel and the Office of Attorney General as required by law.

(c) The Board shall certify this order and 43 Pa.B. 6382 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect on publication in the *Pennsylvania Bulletin*.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan

approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse

disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Application No. PA0252905, Concentrated Animal Feeding Operation (CAFO), **Washington Trotting Association (Meadows Racetrack & Casino)**, PO Box 449, Meadow Lands, PA 15347-449.

Mec PA Racing Inc. has submitted an application for an Individual NPDES permit for an existing CAFO known as Meadows Racetrack & Casino, located in North Strabane Township, **Washington County**.

The CAFO is situated near Unnamed Tributary to Chartiers Creek in Watershed 20-F, which is classified for

Warm Water Fishes. The CAFO is designed to maintain an animal population of approximately 845.0 animal equivalent units (AEUs) consisting of 845 horses. Manure will be stored in a covered building and and loaded out periodically to export to a mushroom farm or to the Arden Landfill. Washwater from the barns is collected with the sanitary sewer. A release or discharge to waters of the Commonwealth under normal operating conditions is not expected.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation

subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

You may make an appointment to review the DEP files on this case by calling the File Review Coordinator at 412-442-4000.

The Environmental Protection Agency (EPA) permit waiver provision under 40 CFR 123.24(e) does not apply to this NPDES permit.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Plan Location:

Borough or Township	Borough or Township Address	County
Shenango Township	1000 Willowbrook Road New Castle, PA 16101	Lawrence

Plan Description: The approved plan evaluated the
 need for a sanitary sewer collection system in the south-
 eastern portion of the Township in the area located
 between Ellwood Road (SR 65), Harmony Baptist Road
 and Old Pittsburgh Road. It concluded with recommend-
 ing the use of a combination of a low-pressure system and
 gravity system to serve approximately 896 existing struc-
 tures. In conjunction with the collection/conveyance sys-
 tem, three new pump stations may be sited as well as
 upgrades to two existing pump stations. Treatment dis-
 posal will be provided at the New Castle Sanitation
 Authority wastewater treatment plant. This plan also
 satisfies the requirements of the July 15, 2011 Consent
 Order and Agreement (CO&A) made between the Depart-
 ment, the New Castle Sanitation Authority and the
 tributary municipalities of which Shenango Township is
 signatory. The Department's review of the sewage facil-
 ities update revision has not identified any significant
 environmental impacts resulting from this proposal. Any
 required NPDES Permits or WQM Permits must be
 obtained in the name of the municipality or authority as
 appropriate.

Plan Description: Approval of a revision to the Official Sewage Plans of District Township and Longswamp Township, Berks County. The Official Plan revision consists of a subdivision of a 74.44 acre tract into nine (9) lots proposing individual on lot sewage disposal systems. The proposed development is located on the north and south sides of Huffs Church Road, 1500 feet west of Baldy Hill Road in District and Longswamp Townships. The Department's review of the plan revision has not identified any significant impacts resulting from this proposal. The plan provides for the on lot sewage disposal systems for Lots 2, 3, and 8 to be located in the cross hatched areas identified on the plot plan dated August 24, 2014, submitted on September 24, 2014. Lots 4b, 5, 6, and 7 shall utilize a nitrate reduction system as part of the on lot sewage treatment system. The plan recognizes the establishment and protection of a wetland buffer zone as shown on the plot plan and approved by the US Fish and Wildlife Service and the PA Fish and Boat Commission. The wetlands and the associated buffer zone may not be encroached upon as required by the jurisdictional agencies. The proposed on lot sewage systems are located in an exceptional value watershed. As a potential nonpoint pollutant source, the proposed systems must achieve cost-effective and reasonable best management practices to protect and maintain water quality under 25 Pa. Code Chapter 93. The planning, permitting and design requirements in DEP's regulations at 25 Pa. Code Chapters 71—73 provide the applicable best management practices to be utilized in the Commonwealth for on lot sewage systems. The systems as proposed will achieve those best management practices. The DEP Code Number for this planning module is A3-06929-061-2 in District Township and A3-06939-133-2 in Longswamp Township. Permits for the on lot sewage disposal systems will be issued by the appropriate municipality.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the

selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment

report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to

the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

This Permit is Phase IV of an overall project for associated impacts; to construct the proposed I-276/I-95 Interchange Project which involves a high-speed, fully directional interchange between the Pennsylvania Turnpike (I-276) and Interstate 95 (I-95). The project also includes relocation of the Pennsylvania Turnpike barrier toll plaza (Interchange 359), widening of I-276 from four to six lanes between Interchange 351 and the Delaware River, and construction of an additional parallel bridge across the Delaware River. In addition, I-95 would be widened to accommodate ramps and merge lanes resulting from the construction of the interchange.

This permit is for roadway construction and widening along I-276 extend approximately 9.2 miles along I-276 from just west of Interchange 351, Bensalem Township, Bucks County, Pennsylvania (Langhorne, PA USGS Quadrangle N: 1.6 inches; W: 14.8 inches), across the Delaware River Turnpike Bridge into Burlington and Florence Townships, Burlington County, New Jersey (Bristol, PA-NJ USGS Quadrangle N: 20.2 inches; W: 8.3 inches). Approximately 1.3 miles of the study limits are located in New Jersey. The study limits along I-95 extend 3.2 miles from just south of Trenton Road in Middletown Township, Bucks County, Pennsylvania (Langhorne, PA USGS Quadrangle N: 3.4 inches; W: 2.9 inches), to the east bank of the Neshaminy Creek in Bristol Township, Bucks County, Pennsylvania (Beverly, PA USGS Quadrangle N: 18.8 inches; W: 3.8 inches).

The overall project proposes to permanently impact a total of 1.83 acres of wetlands (PEM/PSS/PFO) and 7,939 linear feet of perennial stream. The applicant proposes to create, restore, enhance and protect wetlands, streams and riparian habitat as compensatory mitigation for impacts. Compensatory wetland mitigation for the entire project will occur on land owned by the Pennsylvania Turnpike Commission (PTC) located at the corner of

Zimmerman Lane and Newportville Road in Middletown Township, Bucks County; and stream mitigation will occur along Mill Creek in the Plumbridge Community in Bristol Township, Bucks County.

The issuance of this permit also constitutes approval of a Water Quality Certification under Section 401 of the Federal Water Pollution Control Act [33 U.S.C.A. 1341(a)].

INDEPENDENT REGULATORY REVIEW COMMISSION

Action Taken by the Commission

The Independent Regulatory Review Commission met publicly at 10 a.m., Thursday, September 18, 2014, and announced the following:

Action Take—Regulation Disapproved:

Department of State #16-56: Lobbying Disclosure Registration Fee (51 Pa. Code Subsection 53.1(a))

Disapproval Order

Public Meeting Held
September 18, 2014

Commissioners Voting: John F. Mizner, Esq., Chairperson, George D. Bedwick, Vice Chairperson, W. Russell Faber, Dennis A. Watson, Esq., dissenting

*Lobbying Disclosure Registration Fee—
Department of State;
Regulation No. 16-56 (#3012)*

On May 20, 2013, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of State (Department). This rulemaking amends 51 Pa. Code Subsection 53.1(a). The proposed regulation was published in the June 1, 2013 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on August 29, 2014.

This regulation would raise the biennial fee for lobbying registration from \$200 to \$400 effective January 1, 2015. The Department states the fee increase is needed to help defray some of its costs of administering the Lobbying Disclosure Act (Act). As explained below, we find that the regulation does not sufficiently balance all of the provisions of the Lobbying Disclosure Act.

The Act includes the following statement of intent:

The Constitution of Pennsylvania recognizes that all free governments are founded upon the authority of the people The Constitution also guarantees the people the right to petition those invested with the powers of government for redress of grievances. The ability of the people to exercise their fundamental authority and to have confidence in the integrity of the processes by which laws are made and enforced in this Commonwealth demands that the identity and scope of activity of those who are paid to influence the actions of the General Assembly and the Executive Department be publicly and regularly disclosed.

65 P. S. §§ 13A02(a).

The Act also provides for a filing fee, exemptions and inflation of the dollar amount threshold for exemptions and fees:

Inflation adjustment.—On a biennial basis commencing in January 2009, the department shall review the threshold under section 13A06 (relating to exemption from registration and reporting) for registration under section 13A04 (relating to registration) and the threshold for reporting under section 13A05(d) (relating to reporting) and shall increase these amounts to rates deemed reasonable for assuring appropriate disclosure. On a biennial basis commencing in January 2009, the department shall review the filing fee established under section 13A10 (relating to registration fees; fund established; system; regulations) and may by regulation adjust this amount if the department determines that a higher fee is needed to cover the costs of carrying out the provisions of this chapter. The department shall publish adjusted amounts in the *Pennsylvania Bulletin* by June 1, 2009, and by June 1 every two years thereafter as necessary.

65 P. S. § 13A08(j).

The Act set an original fee of \$100 for registration, comprising a small portion of the overall program cost. The Department subsequently doubled the biennial fee from \$100 to \$200, effective January 1, 2011. In this proposed regulation, the Department proposed a fee of \$700 but, upon review and consideration of comments, reduced the fee to \$400 in the final regulation.

The provisions of the Act must be balanced in order to accomplish its intent to publicly disclose “the identity and scope of activity of those who are paid to influence the actions of the General Assembly and the Executive Department.” 65 P. S. §§ 13A02(a). While accomplishing disclosure, the Department must also heed the statement in the Act that, constitutionally, Pennsylvania citizens are guaranteed “the right to petition those invested with the powers of government for redress of grievances.” *Id.* Included in this balance is a fee that is sufficient to achieve lobbying disclosure while remaining consistent with the goals of the Act.

The Act, in a provision captioned “[i]nflation adjustment,” provides the Department with authority to charge and adjust a fee. As stated above, this regulation would increase the current biennial fee of \$200 to \$400, a 100% increase over the current fee and in reference to the original fee established by statute of \$100, a 400% increase, both of which are profoundly beyond an inflation adjustment based on the Consumer Price Index. Public comment, including letters from non-profit organizations which will be impacted by the increase, stated that the \$400 fee would inhibit some organizations from lobbying.

While the Department reduced its originally proposed fee of \$700 to \$400, we remain concerned with the impact of a flat fee of \$400 on small lobbying efforts and non-profit organizations, particularly relating to the participatory process envisioned by the Act.

The Department has the burden to establish that the fee is reasonable and will not hinder “the right to petition those invested with the powers of government for redress of grievances.” After consideration of all of the comments submitted on this regulation, the Department’s written responses and discussion during our public meeting, we find that the Department has not sufficiently established that the \$400 fee will not hinder “the right to petition those invested with the powers of government for redress of grievances.”

We are also concerned that, in attempting to adjust its registration fees, the Department has failed to adjust the registration and reporting thresholds which are similarly subject to the Act’s inflation provisions. The Act, at 65 P. S. §§ 13A06(4), 13A04(6) and 13A05(d), specifies exemptions from registration and reporting for activities that do not exceed \$2,500 in value in a reporting period. The Department included the \$2,500 thresholds in its regulation at 51 Pa. Code §§ 55.1(a), 55.1(b), 57.2(a)(4), and 57.2(a)(6).

Without adjustment for inflation, these thresholds are effectively more stringent today than the original thresholds specified in the statute. If they were to be adjusted for inflation, the Department estimates the thresholds would be \$2,849 today. Left unchanged, smaller lobbying efforts may be burdened with costs relating to lobbying when they could potentially be exempted. Raising the threshold by even a small amount may make a big difference to these small businesses and non-profit organizations. Additionally, by not raising the threshold, the Department may be incurring unnecessary costs to regulate small lobbying efforts beyond what the Act intended for disclosure. The Department has proposed raising the fee twice, but has not yet raised the threshold amount for inflation found in the same provision of the Act. Again, we find that the Department has not provided sufficient justification for retaining the original thresholds in the Act.

We have determined this regulation is consistent with the statutory authority of the Department (65 P. S. § 13A08(j)). However, we find that this regulation does not meet the criteria of legislative intent, reasonableness and protection of the public health, safety and welfare. 71 P. S. §§ 745.5b(a), (b)(2) and (b)(3). Therefore, we find that promulgation of this regulation is not in the public interest.

By Order of the Commission:

The regulation #16-56 (IRRC #3012) from the Department of State was disapproved on September 18, 2014.

JOHN F. MIZNER, Esq.,
Chairperson

**Dissenting Statement of Commissioner
Dennis A. Watson, Esq.**

Through this regulation, the Department is proposing to raise the biennial fee for lobbying registration from \$200 to \$400 effective January 1, 2015. The Department is confronted with a mandate to implement the Lobbying Disclosure Act (Act). The Department explained that it has not had any significant change in its budget from the general fund to meet the increasing costs of implementing the Act. In its responses to public comments, the Depart-

ment explained that it has decreased its staff and it reduced its originally proposed fee of \$700 to \$400. The Department also explained that it does not believe it has the statutory authority to charge anything but a flat fee. The Department is engaged in a balancing test and I believe it has struck an appropriate balance. Therefore, I

respectfully dissent from the majority vote to disapprove this regulation.
