READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 246—MINOR COURT CIVIL RULES

PART I. GENERAL

[246 PA. CODE CH. 100]

Proposed Amendment to Rule 111 of the Rules of Conduct, Office Standards and Civil Procedure for District Justices

The Minor Court Rules Committee is planning to recommend that the Supreme Court of Pennsylvania amend Rule 111 of the Rules of Conduct, Office Standards and Civil Procedure for District Justices to provide for the use of a facsimile or preprinted seal in lieu of an original seal, to make other minor technical changes, and to add an official Committee Note to the Rule. The Committee has not submitted this proposal for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. The Committee's Report should not be confused with the official Committee Notes to the rules. The Supreme Court does not adopt the Committee's Notes or the contents of the explanatory Reports.

The text of the proposed changes precedes the Report. Additions are shown in bold; deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel,

PART I. GENERAL

CHAPTER 100. RULES AND STANDARDS WITH RESPECT TO OFFICES OF DISTRICT JUSTICES

Rule 111. Seal.

A. Each magisterial district shall have and use a seal, which shall be in the custody of the district justice elected or appointed for **[such]** the magisterial district. The official acts of **[said]** the district justice shall be authenticated therewith. B. A facsimile or preprinted seal may be used for all purposes in lieu of the original seal.

Official Note: This rule was amended in 2002 to provide for the use of a facsimile or preprinted seal in lieu of an original seal. See 42 Pa.C.S. § 1512.

Adopted Nov. 28, 1969, effective Jan. 1, 1970[. **Amended**]; **amended** June 30, 1982, effective 30 days after July 17, 1982; **amended and Note added** _____, effective _____.

REPORT

Proposed Amendment to Rule 111 of the Rules of Conduct, Office Standards and Civil Procedure for District Justices

FACSIMILE SEAL

I. Background

The Committee reviewed Rule 111 at the request of the Special Court Judges Association of Pennsylvania (SCJAP) and in response to the passage of Act 2002-86.¹ Act 86, inter alia, amended Section 1512 of the Judicial Code, 42 Pa.C.S. § 1512, to provide for the use of a facsimile or preprinted seal in lieu of an original seal on documents signed by a district justice.

In 2001, the SCJAP had contacted the Committee and suggested that Rule 111 of the Rules and Standards with Respect to Offices of District Justices be amended to provide for the use of a facsimile seal on documents produced by the District Justice Automated System (DJS), similar to the automated facsimile signature provided for in Rule 113. The SCJAP noted that facsimile or preprinted seals are routinely used on documents originating in the courts of common pleas. In addition, the SCJAP asserted that the use of a facsimile seal would increase the efficiency of the district justice courts and would save money by reducing the number of costly engraved seals needed in the courts. While the Committee saw merit in the SCJAP's suggestion, the Committee, at that time, declined to propose such an amendment to Rule 111 because the statutory scheme relating to judicial seals did not appear to allow the use of a facsimile seal at the district justice level.

Specifically, the Committee noted that district justice seals are governed by statute, Section 1512 of the Judicial Code, 42 Pa.C.S. § 1512 (Seal), and by court rule, Rule 111 of the Rules and Standards with Respect to Offices of District Justices (Seal). Section 1512, at that time, stated, "[e]ach magisterial district shall have a seal, which shall be in the custody of the district justice elected or appointed for such district. The official acts of the district justice shall be authenticated therewith. There shall be engraved on the seal such inscription as may be specified by general rule." 42 Pa.C.S. § 1512 (West 1981) (emphasis added).

Rule 111 is based on the statute and, as currently written, states:

Each magisterial district shall have and use a seal, which shall be in the custody of the district justice elected or appointed for such district. The official acts of said district justice shall be authenticated therewith. There shall be engraved on such seal the same device as is engraved on the great seal of the State, and the words "Commonwealth of Pennsylvania," the name of the county, the number of the magisterial district, and the words "District Justice."

¹The Act of June 28, 2002 (P. L. 518, No. 86, § 1) (hereinafter Act 86).

Rule 111 of the Rules and Standards with Respect to Offices of District Justices (emphasis added).

The Committee believed that the use of the word "engraved" in both the statute and the rule suggested that the legislature and the Supreme Court contemplated the use of an engraved, embossed seal.

As noted above, however, the legislature subsequently amended Section 1512 by adding the language, "[a] facsimile or preprinted seal may be used for all purposes in lieu of the original seal." 42 Pa.C.S. § 1512, as amended by Act 86.

Accordingly, the Committee now proposes that Rule 111 be amended to provide for the use of a facsimile or preprinted seal in lieu of an original seal.

II. Discussion of Proposed Rule Changes

To provide for the use of a facsimile or preprinted seal, the Committee proposes that Rule 111 be divided in two subdivisions. Subdivision A would contain the existing language of the rule, with only minor editorial changes. A new subdivision B would incorporate into the Rule the language from Section 1512 allowing the use of the facsimile or preprinted seal. Finally, the Committee proposes the addition of an official Committee Note to the Rule to explain the 2002 amendment and to cross-reference Section 1512.

JOHN D. KUHN,
President Judge

Rule 1920(c). Appointment and Compensation of Master.

Rule 1920(c) When a case is at issue and all discovery relating to issues to be submitted has been completed, a party may move for the appointment of a master. The motion shall, under Pa.R.C.P. 1920.74, in item (7) state that notice of the filing of the motion is being given concurrently to opposing attorney/pro se party and list the names of local attorneys who may be interested in the case, or contain a statement that no local attorneys are known to be interested. The Court will appoint a Master to hear the issues set forth in the Motion. The Master shall be compensated at an hourly rate that will be periodically set by administrative order. No motion shall be considered unless there has been deposited with the Prothonotary the sum of \$500.00.

Rule 1920(d). Procedure Prior to Master's Hearing.

Rule 1920(d) The Master will conduct a pre hearing conference with the attorneys/pro se party. The Master may direct that the attorneys make arrangements for their respective clients to be available to communicate by phone or some other means with the attorneys during the conference. The Master may establish such deadlines for the completion of additional discovery and other matters as may be necessary for the orderly completion of the proceedings. The Master may direct that additional deposits be made by a date certain by one party or by both parties with apportionment as indicated by the Master. In the event of non-compliance, the Master may petition the Court for relief, requesting appropriate sanctions as well as vacation of the Master's appointment. Any party aggrieved by the Master's establishment of deadlines or direction regarding additional deposits may petition the Court for relief. Petitions for relief fined by a party or the Master shall proceed according to Local Rule 206, provided that the response date to a rule issued shall be 10 days rather than 20 days.

Rule 590. Pleas and Plea Agreements.

(1) The Court will be available for the purpose of taking guilty or nolo contendere pleas from time to time as designated by the Court Administrator on a day(s) which shall be designated as "Plea Day" on the Court Calendar. The day(s) selected shall be at least ten (10) days before the respective trial term.

(2) At the conclusion of each Plea Day, all cases which have not been resolved shall be called by the Commonwealth in open court in a courtroom to be designated. Once the list of remaining cases is called, the Court will not accept any plea for a case on that criminal list unless said plea is to all charges and without agreement as to sentencing. The Court may waive this prohibition against late plea agreements for good cause as the interests of justice require. In the event the Court does find good cause and agrees to take the negotiated plea, such plea may be taken at that time or the case may be continued by the Court for the plea to be taken at another date as the Court may direct.

(3) Requests for continuances should normally be made on Plea Day. If, after the conclusion of Plea Day, either party becomes aware of circumstances justifying a continuance, a request should be filed with the Court and all parties in writing prior to close of business on the Wednesday preceding criminal trial week. The motion shall set forth whether the other parties concur with or oppose the relief requested.

(4)(a) All defendants and all attorneys representing defendants on a respective plea day must attend the call of the criminal list unless:

(i) the case has previously been resolved through plea or other disposition; or

(ii) a date certain has been scheduled for the entry of a plea; or

(iii) a motion for a continuance has been previously presented and granted; or

(iv) the defendant and/or counsel and the District Attorney's Office have agreed that the defendant and/or counsel may be excused from the call of the list.

(b) Failure to comply with the requirements of paragraph 4(a) may result in the imposition of sanctions by the Court including the issuance of a bench warrant and revocation of bail bond.

(5) The Court shall state in open court at the commencement of Plea Day and again in open court after concluding the calling of the criminal trial list that, pursuant to Local Rule 590, Plea Day is the last day during which the Court will accept negotiated pleas of guilty or nolo contendere and, thereafter, a party will be required to go to trial during the following trial term or plead guilty as charged.

(6) By the close of business on the Thursday preceding the criminal trial term, the District Attorney's Office shall provide a copy of the trial schedule to the Court Administrator and the Clerk of Courts Office. The Clerk shall, thereafter, post the schedule. If the trial list is longer than the number of court days available, the Commonwealth shall prioritize the list taking into account Pennsylvania Rule of Criminal Procedure 600. Any cases which have not been set for a specific trial date shall remain on a standby list and may proceed to trial in the event a trial date becomes available. At the conclusion of jury selection for all cases scheduled during a trial term, any remaining cases which cannot be heard due to unavailability of trial days shall be continued by the Court to the following trial term for disposition. Such cases, if not resolved prior thereto, shall receive priority in scheduling during the following trial term. The Court, at all times, reserves the right to set the trial schedule.

(7) If a defendant is represented by counsel and desires to tender a guilty or nolo contendere plea, a Guilty/Nolo Contendere Plea Colloquy substantially in the form set forth in Rule 590.1 shall be completed. The Colloquy shall be executed by the defendant and his counsel and filed with the Clerk of Courts prior to entry of the plea.

(8) When the parties have arrived at a plea agreement, they shall state on the record in open Court and in the presence of the Defendant, the terms of the agreement. The agreement will be confirmed in writing substantially in the form set forth in Rule 590.2 and presented to the Court prior to the entry of any plea. At a minimum, the written agreement must contain ALL terms of the agreement and must be executed by the Commonwealth, the Defendant and Defendant's counsel, if any. Nothing in this Rule will prevent the Judge from ordering for good cause shown and with the consent of all parties and counsel, that specific conditions in the agreement be placed on the record in camera and the record sealed.

Comment: Orderly scheduling of jury trials and regard for the convenience of jurors shall be important factors in determining the interests of justice under Pa. R. Crim. P. 106. In order that a trial schedule may be prepared and

announced in accordance with this Rule, requests for continuance ordinarily should be made no later than immediately after the trial list is announced for that particular term. In those instances where witness unavailability or other unforeseeable need arises requiring a continuance subsequent to the call of the trial list, a request for continuance should be made prior to the close of business on the Wednesday preceding the criminal trial term.

Although motions for continuance will obviously be governed by the state rule, the local rule is intended to express Court policy that a definite trial schedule published in advance of trial will reduce inconvenience to the Court, the parties, witnesses and jurors. Timeliness measured from promulgation of the trial list is an important consideration in the decision to grant or deny a continuance request. It is expected that all counsel will act with reasonable diligence and promptness in determining whether a case is ready for trial and that counsel shall be in a position to make that determination, at the latest, on the Wednesday prior to trial.

It is noted that the Court calendar will generally schedule at least two (2) plea days prior to each criminal trial term. The intent of this rule is that each plea day shall be a separate and distinct day concerning applicability of the time limits of this rule and continuances from one plea day to another to avoid the intent of this rule will generally not be granted by the Court except as the interests of justice otherwise require.

Rule 590.1. Form of Plea Colloquy.

Written Plea Colloquies required by Rule 590 shall substantially be in the following form:

GUILTY PLEA COLLOQUY INSTRUCTIONS

TO DEFENDANT:

If you choose to plead guilty or nolo contendere, this Guilty Plea Colloquy should be completed by you. By pleading guilty, you are agreeing and admitting that you committed each of the elements of the crimes. By pleading nolo contendere, you are stating that you do not contest the fact that the Commonwealth can prove you committed the crimes. In criminal law, a plea of nolo contendere has the same effect for sentencing purposes as pleading guilty and, therefore, everything contained in this Guilty Plea Colloquy also applies to a plea of nolo contendere. You should read this document carefully and review it with your lawyer. It is IMPORTANT that you understand, agree with and answer truthfully everything contained in this Guilty Plea Colloquy. If you understand and agree with what is said in a paragraph of this document, place your initials on the line provided. If you do not understand or agree with what is said in a paragraph, DO NOT place your initials on the line provided, and you should tell the judge what you do not agree with or understand.

TO THE DEFENDANT'S LAWYER:

You must explain the content and meaning of this Guilty Plea Colloquy Statement to the defendant. If, after your explanation, the defendant does not understand or agree with something, he/she should not initial that paragraph and you must inform the judge of this fact. If the defendant does not speak, understand, read or write the English language or suffers from some physical, emotional or mental problem or is under the influence of

any substance which affects his/her ability to understand the content of this Guilty Plea Colloquy Statement, the defendant should not complete the Guilty Plea Colloquy Statement and the judge should be advised of this fact.

Right to Trial

3. I understand, and my lawyer has explained to me, that if I plead not guilty, I have a right to have a trial by jury or I may ask that my trial be before a judge without a jury. I understand, and my lawyer has explained to me, that if:

a. I am tried before a jury that the jury would consist of twelve (12) people who live in Adams County; that I have a right to take part in selecting the jurors who would hear my case; that the jurors would decide my guilt or innocence based upon the evidence presented to them; that I can exercise challenges to prevent any person from being a juror in my case if I can show that they would not be a fair juror; that the Commonwealth may not remove a juror just because of their gender, race or nationality; that I can prevent a limited number of people from being jurors in my case without giving any reason at all; and that I cannot be found guilty of the

crimes charged unless all twelve (12) jurors agree that the Commonwealth has proven that I have committed each element of these crimes beyond a reasonable doubt; or

b. if I am tried before a judge alone without a jury that the judge would hear the facts and make a determination as to my guilt or innocence. I understand that before I could be found guilty, the judge must be convinced of my guilt beyond a reasonable doubt as to each and every element of the crimes charged.

4. I understand, and my lawyer has explained to me, that if I plead not guilty and have either a jury or a non-jury trial that:

—I am presumed innocent of these crimes and that the Commonwealth has the burden of proving that I committed each of the elements of the crimes charged beyond a reasonable doubt. If the Commonwealth fails to do so, I cannot be found guilty of these crimes. A reasonable doubt is a doubt that would cause a reasonably careful and sensible person to hesitate before they act upon something that is important in their lives or affairs.

—that the Commonwealth must present witnesses who must testify under oath and that I or my lawyer can cross-examine or ask questions of each of these witnesses.

—that I do not have to testify or present any evidence and no one can force me to do so. If I choose not to testify or present any evidence, that cannot be used or held against me. However, if I want to testify and present evidence and witnesses, I may do so.

—I have the right to call witnesses and present evidence including, but not limited to, evidence that I didn't commit the crime charged; that I have an alibi; that there is a mistaken identity; that an insanity defense exists; that my acts were justified or there is other lawful excuse for my acts.

Motions Before Trial

___ 5. I understand, and my lawyer has explained to me, that before I enter a plea of guilty, or before my trial begins:

—I can file motions to ensure that I get a fair trial. These motions may include, but are not limited to, a motion to prevent the Commonwealth from presenting improperly obtained evidence at my trial including any statements that I may have made, test results, identifications and items taken from me or from some place or thing. If I file such a motion, the Commonwealth has the burden of proving that this evidence can be presented at my trial.

—I can file a motion to have the crimes charged dismissed if my trial was not started within three hundred sixty-five (365) days after the date that the criminal complaint was filed against me, not counting any delays caused by me or my lawyer and, if the judge grants my motion, the Commonwealth cannot charge me with those crimes again.

___ 6. I understand, and my lawyer has explained to me, that by pleading guilty, I am giving up my right to file any of these pre-trial motions. If I did file any motions that have not yet been decided, by pleading guilty or nolo contendere, I am now giving up the right to have the Court rule on them. If the Court granted any motions filed by the Commonwealth or denied any motions filed by me, by pleading guilty or nolo contendere, I am giving up or losing my right to appeal the judge's decision to a higher court and I can never again raise any of the issues stated in these motions before any court.

Effect of Plea

___ 7. I understand, and my lawyer has explained to me, that if I plead guilty or nolo contendere to any of these charges:

—If I am pleading guilty, I understand that I am agreeing and admitting that I committed each element of these crimes. If I am pleading nolo contendere, I am not contesting that I committed each element of these crimes and I agree that the Commonwealth can prove that I committed each element of these crimes beyond a reasonable doubt. My pleas of guilty or nolo contendere will have the same effect as if I had a trial and was convicted of the crimes to which I have pled guilty or nolo contendere.

—If I was on probation, intermediate punishment, or parole at the time the crimes to which I am pleading guilty or nolo contendere were committed, my pleas in this case mean that I have violated probation/intermediate punishment/parole. I understand that if I have violated my probation or intermediate punishment that I can be re-sentenced to jail and if I violate my parole, I may be re-committed to jail to serve the remainder of my sentence(s) without credit for time on parole. I further understand any sentences that I am

required to serve as a result of a probation, intermediate punishment or parole violation may be in addition to any sentence which I may receive as a result of this plea.

___ 8. I understand, and my lawyer has explained to me, that the judge is not bound to accept the terms of any plea agreement that I have with the Commonwealth or with anyone else and that the plea agreement is not binding on the Court unless and until it is accepted by the Court. If the judge decides not to accept the plea agreement, I understand that I will be allowed to withdraw or take back my plea of guilty or nolo contendere. A post-sentence motion may include: a motion challenging the jurisdiction of the Court; a motion challenging the legality of the sentence; a motion asking that the Court modify the sentence imposed; a motion asking that I be permitted to withdraw my plea because it was not voluntarily, knowingly and intelligently entered; or a motion challenging the denial of any motion which I may have had to withdraw my plea(s).

Practice and Procedure

The Environmental Hearing Board (Board) amends Chapter 1021 (relating to practice and procedure) to read as set forth in Annex A. The final-form rulemaking modifies the rules of practice and procedure before the Board by implementing improvements in practice and procedure.

The Board approved the final-form rulemaking at its July 10, 2002, meeting.

Effective Date

The final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

Contact Person

For further information, contact William T. Phillip IV, Secretary to the Board, 2nd Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. If information concerning this notice is required in an alternative form, William Phillip may also be contacted. TDD users may telephone the Board through the AT&T Pennsylvania Relay Service, (800) 654-5984.

Statutory Authority

The final-form rulemaking is promulgated under the authority of section 5 of the Environmental Hearing Board Act (act) (35 P.S. § 7515), which empowers the Board to adopt regulations pertaining to practice and procedure before the Board.

Comments and Revisions to Proposed Rulemaking

The Board received comments on the proposed rulemaking from the Independent Regulatory Review Commission (IRRC). The Board received no comments from the public. IRRC's comments are addressed in the following section.

Electronic Filing

Proposed § 1021.31(c) (relating to signing) stated as follows: "The Board may impose an appropriate sanction for a bad faith violation of subsection (b)." IRRC recommended adding a cross-reference to § 1021.161 (relating to sanctions). This has been done in the final-form rulemaking.

Proposed §§ 1021.71—1021.73 (relating to complaints filed by the Department; complaints filed by other persons; and transferred matters) stated as follows: "Service of the complaint shall be by personal service or any form of mail requiring a receipt. . . ." IRRC recommended clari-

fyng the phrase "any form of mail." The final-form rulemaking has been changed to read "certified or registered mail."

Proposed § 1021.73 stated that a complaint shall be filed "within the time period directed to do so by the Board." IRRC recommended specifying the amount of time in which the Board would allow a party to file a complaint. The final-form rulemaking has been revised to read "within the 30-day time period directed by the Board."

Proposed § 1021.94 (relating to dispositive motions) contained requirements for the filing of dispositive motions. IRRC recommended that the section should also contain a cross-reference to § 1021.34 (relating to service by a party). This has been done in the final-form rulemaking.

Sunset Date

A sunset date has not been established for the final-form rulemaking. The effectiveness of the regulations will be evaluated on an ongoing basis by the Board and the Rules Committee.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 10, 2002, the Board submitted a copy of the notice of proposed rulemaking, published at 32 Pa.B. 1980 (April 20, 2002), to IRRC and to the Chairpersons of the Senate and House Environmental Resources and Energy Committees for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing this final-form rulemaking, the Board has considered the comments received from IRRC, the Committees and the public.

Under section 5.1(d) of the Regulatory Review Act (71 P. S. § 745.5a(d)), on September 26, 2002, this final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on October 24, 2002, and approved the final-form rulemaking.

Findings

The Board finds that:

(1) Public notice of the proposed rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The final-form rulemaking is necessary and appropriate for administration of the act.

(c) Dispositive motions, responses and replies shall be in writing, signed by a party or its attorney and served on the opposing party in accordance with § 1021.34 (relating to service by a party). Dispositive motions shall be accompanied by a supporting memorandum of law or brief. The Board may deny a dispositive motion if a party fails to file a supporting memorandum of law or brief.

(d) A response to a dispositive motion may be filed within 30 days of the date of service of the motion and shall be accompanied by a supporting memorandum of law or brief.

(e) A reply to a response to a dispositive motion may be filed within 15 days of the date of service of the response and may be accompanied by a supporting memorandum of law or brief. Longer briefs or memoranda of law may be permitted at the discretion of the presiding administrative law judge.

(f) An affidavit or other document relied upon in support of a dispositive motion or response, that is not already a part of the record, shall be attached to the motion or response or it will not be considered by the Board in ruling thereon.

(g) Subsection (c) supersedes 1 Pa. Code § 35.177 (relating to scope and content of motions). Subsection (d) supersedes 1 Pa. Code § 35.179 (relating to objections to motions).

**Title 49—PROFESSIONAL
AND VOCATIONAL
STANDARDS**

**STATE BOARD OF SOCIAL WORKERS,
MARRIAGE AND FAMILY THERAPISTS AND
PROFESSIONAL COUNSELORS**

[49 PA. CODE CHS. 47—49]

Fees

The State Board of Social Workers, Marriage and Family Therapists and Professional Counselors (Board) amends §§ 47.4 and 47.34 (relating to licensure fees; and registration of continuing education providers, courses and programs) and adds §§ 48.4 and 49.4 (relating to applicability of general provision in Chapter 47) to read as set forth in Annex A.

A. Effective Date

The rulemaking take effect upon final-form publication in the *Pennsylvania Bulletin*.

B. Statutory Authority

The final-form rulemaking is authorized under section 6(2) of the Social Workers, Marriage and Family Therapists and Professional Counselors Act (act) (63 P. S. § 1906(2)).

C. Background and Purpose

The act requires the Board to set fees by regulation so that revenues meet or exceed expenditures over a biennial period. General operating expenses of the Board are funded through biennial license renewal fees. Expenses related to applications or services which are provided directly to individual licensees or applicants are excluded from general operating revenues and are funded through fees in which the cost of providing the service forms the basis for the fee.

Three licensure groups were added to the Board under the act of December 21, 1998 (P. L. 1017, No. 136), which necessitated a determination of fees for services to the new licensees and applicants. Additionally, it was determined that the existing fees for applications for licensure and original licensure as a licensed social worker and approval as a continuing education provider or program fell short of the actual cost involved in providing the services.

In this final-form rulemaking, fees for the services identified will allocate costs to those who use the service or application.

D. Response to Comments

Notice of proposed rulemaking was published at 31 Pa.B. 4651 (August 25, 2001). Publication was followed by a 30-day public comment period during which the Board received comments from the Pennsylvania Society for Clinical Social Work and the Pennsylvania Chapter of the National Association of Social Workers. Both groups objected to the increase in the application fee for approval as a provider or program of continuing education from \$25 to \$40. In developing this fee, an analysis was made of the time it would take to perform all of the functions necessary to review and process an application. In particular, Board staff receives the request for approval of continuing education programs that licensees are required to complete as a condition of license renewal. The Board staff must review these applications. The Board administrator then sends the application and supporting documents to a Board member for evaluation and recommendation to approve or deny. Following the decision, the applicant is notified of the decision. If approved, the program is entered into the computer system. Based upon the analysis that was undertaken to consider the time and manpower involved in performing these functions, a \$40 fee is required.

Following the close of the public comment period, the Board received comments from the Independent Regulatory Review Commission (IRRC) and the House Professional Licensure Committee (HPLC). The Board did not receive comments from the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC). The final-form rulemaking responds to the comments and suggestions made by IRRC and the HPLC.

The HPLC questioned why the proposal did not delete § 47.4(a)(3) pertaining to a one-time \$30 assessment for licensed social workers licensed during the 1988–1991 licensure cycle. The Board has deleted this in final-form rulemaking. IRRC noted that the proposed rulemaking would have required registration of continuing education providers, courses and programs for licensed marriage

and family therapists or professional counselors but that these two new licensing groups do not yet have requirements for continuing education. IRRC recommended that the course registration be deleted from the final-form rulemaking and that the Board consider developing future rulemaking pertaining to continuing education and registration of program providers. The Board agrees and has deleted these references.

E. Compliance with Executive Order 1996-1, "Regulatory Review and Promulgation"

The Board reviewed this rulemaking and considered its purpose and likely impact on the public and the regulated population under the directives of Executive Order 1996-1. Additionally, in accordance with Executive Order 1996-1, the Board, in developing the rulemaking, solicited comments from the major professional associations representing social workers and the new licensure classes.

F. Fiscal Impact and Paperwork Requirements

This final-form rulemaking would have a fiscal impact and impose additional paperwork requirements on this Commonwealth in that there are three new licensure groups for which applications would be processed and fees would be received.

The proposed rulemaking should not impose any legal, accounting or reporting requirements on the regulated community.

G. Sunset Date

The Board continually monitors the effectiveness of its regulations through communication with the regulated population; accordingly, no sunset date has been assigned.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 3, 2002, the Board submitted a copy of the notice of proposed rulemaking published at 31 Pa.B. 4651, to IRRC and to the Chairpersons of the SCP/PLC and the HPLC for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC the SCP/PLC and the HPLC were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing this final-form rulemaking, the Board has considered the comments received from IRRC, the SCP/PLC and the HPLC and the public.

Under section 5.1(d) of the Regulatory Review Act (71 P. S. § 745.5a(d)), on October 22, 2002, this final-form rulemaking was deemed approved by the HPLC. On October 23, 2002, the final-form rulemaking was deemed approved by the SCP/PLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on October 24, 2002, and approved the final-form rulemaking.

(2) A public comment period was provided as required by law and all comments were considered.

(3) The final-form rulemaking does not enlarge the purpose of proposed rulemaking.

(4) The final-form rulemaking is necessary and appropriate for administering and enforcing the authorizing act identified in Part B of this Preamble.

K. Order

The Board, acting under its authorizing statutes, orders that:

Title 52—PUBLIC UTILITIES

**PENNSYLVANIA PUBLIC UTILITY COMMISSION
[52 PA. CODE CHS. 29, 33 AND 35]**

[L-00010154]

Street Railway Transportation

The Pennsylvania Public Utility Commission (Commission) will delete the existing regulations governing street railway transportation in this Commonwealth. The existing regulations are outdated in light of changes in street railway operations in the Commonwealth.

Executive Summary

At one time, street railway companies provided passenger service to many areas of this Commonwealth. Over the years, many of these street railway companies went out of business due to the widespread use of automobiles. To preserve street railway passenger service in the Pittsburgh and Philadelphia metropolitan areas, the General Assembly passed legislation authorizing the creation of transportation authorities and empowered those transportation authorities to purchase the assets of the street railway companies operating in those metropolitan areas. These transportation authorities, Southeastern Pennsylvania Transportation Authority (SEPTA) and Port Authority of Allegheny County (PAT) purchased the assets of the street railway companies and began operating street railway systems in the Philadelphia and Pittsburgh metropolitan areas. The Philadelphia and Pittsburgh metropolitan areas are the only places in this Commonwealth where street railway systems still operate.

SEPTA's and PAT's enabling legislation provides that those agencies shall determine the facilities they will operate, the services they will provide and the rates they will charge. The Commission is thus precluded from regulating SEPTA or PAT in these areas. In addition, SEPTA and PAT receive Federal funds for their operations. Receipt of the Federal funds is conditioned upon the authorities having safety programs in place that are monitored by the Department of Transportation (Department). Since the Department monitors the safety programs initiated by SEPTA and PAT, the Commission's regulations at §§ 35.1—35.44 are unnecessary.

The Commission initiated this rulemaking by order adopted November 30, 2001. On December 18, 2001, the Office of Attorney General approved the proposed regulations as to form and content. The *Pennsylvania Bulletin* published the proposed rulemaking on February 9, 2002. The only comments to the proposed rulemaking were filed

by the Independent Regulatory Review Commission (IRRC). The Commission has incorporated those comments into the final-form rulemaking. The final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Deletion of Street Railway Transportation Regulations at 52 Pa. Code §§ 35.1—35.44; Doc. No. L-00010154

Order

By the Commission:

By Order adopted November 30, 2001, at L-00010154, we initiated a proposed rulemaking under sections 501 and 1501 of the Public Utility Code (66 Pa.C.S. §§ 501 and 1501) and the Commonwealth Documents Law (45 P. S. §§ 1201 et seq.) and regulations promulgated thereunder at 1 Pa. Code §§ 7.1, 7.2 and 7.5. The purpose of the proposed rulemaking was to delete existing Commission regulations governing street railway transportation in this Commonwealth. The current regulations are outdated in light of changes in street railway operations in this Commonwealth.

On December 18, 2001, the Office of Attorney General issued its approval of the proposed rulemaking as to form and legality. On January 24, 2002, we delivered copies of the proposed rulemaking to the House Committee on Consumer Affairs, the Senate Consumer Protection and Professional Licensure Committee, IRRC and the Legislative Reference Bureau. The *Pennsylvania Bulletin* published the proposed rulemaking for comment at 32 Pa.B. 797 (February 9, 2002).

The only comments to the proposed rulemaking were filed by IRRC on April 11, 2002. IRRC noted that three additional sections of 52 Pa. Code refer to terms found at Chapter 35, which these regulations propose to delete. IRRC's comments state that § 5.11(b) refers to § 35.1; that § 29.73 uses the term "street railway cars" in the posting notice prohibiting conversation; and that § 33.1 uses the term "street railway" in the definition of "carrier." IRRC recommends that these terms and references should be deleted in the final-form rulemaking since they will become obsolete with the deletion of Chapter 35.

The Commission notes that the regulation at § 5.11(b), cited to in IRRC's comments, actually refers to 1 Pa. Code § 35.1, not 52 Pa. Code § 35.1. The Commission therefore declines to make this change suggested by IRRC.

The Commission agrees with the remaining comments filed by IRRC regarding references to Chapter 35 in §§ 29.73 and 33.1. Section 29.73 refers to "street railway cars" in the posting notice, which prohibits operators of motor or trackless trolley buses, as well as street railway cars, from conversing with passengers while the vehicle is in motion. Our deletion of Chapter 35 eliminates Commission authority over street railway operations. Since the Commission will no longer regulate street railway operations in this Commonwealth, the prohibition of conversation between operators and passengers on street railway cars is unnecessary and will be deleted.

Section 33.1 includes the term "street railway" in the definition of "carrier." Since deleting Chapter 35 will

eliminate the Commission's regulations regarding street railway operations in this Commonwealth, street railways will no longer be carriers for purposes of our regulations. Therefore, it is appropriate to delete their inclusion within the definition of carriers at § 33.1.

After considering the comments filed to the proposed rulemaking, the Commission believes that the regulations as set forth here in Annex A should be adopted as the final-form rulemaking. Accordingly, under sections 501 and 1501 of the Public Utility Code, the Commonwealth Document Law and regulations promulgated thereunder at 1 Pa. Code §§ 7.1, 7.2 and 7.5, we amend the regulations at §§ 29.73, 33.1 and 35.1—35.44 to read as set forth in Annex A; *Therefore,*

It Is Ordered That:

1. The regulations of the Commission, 52 Pa. Code Chapters 29, 31 and 35, are amended by amending §§ 29.73 and 33.1 and by deleting 35.1—35.3., 35.11—35.13, 35.21—35.26, 35.31—35.36 and 35.41—35.44 to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.
2. The Secretary shall submit this order and Annex A to the Office of Attorney General for approval as to legality.
3. The Secretary shall submit this order and Annex A to the Governor's Budget Office for review of fiscal impact.
4. The Secretary shall submit this order and Annex A for formal review by the designated standing committees of both Houses of the General Assembly and for formal review and approval by IRRC.
5. The Secretary shall deposit this order and Annex A with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.
6. These regulations shall become effective upon publication in the *Pennsylvania Bulletin*.

JAMES J. MCNULTY,
Secretary

(Editor's Note: The amendments to §§ 29.73 and 33.1 were not included in the proposal at 32 Pa.B. 797. For the text of the order of the Independent Regulatory Review Commission, relating to this document, see 32 Pa.B. 5582 (November 9, 2002).)

GAME COMMISSION

[58 PA. CODE CH. 141]

Small Game

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its October 8, 2002, meeting, adopted the following change:

Amend § 141.22 (relating to small game) to provide lawful methods for taking small game.

This final-form rulemaking was adopted under the authority of 34 Pa.C.S. (relating to the Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 32 Pa.B. 1219 (March 2, 2002).

1. Introduction

The Commission amended § 141.22(a) by adding paragraph (8) to make it unlawful to hunt or take small game except woodchucks with a handgun using larger than .40 caliber ammunition.

2. Purpose and Authority

Since the codification of the code, lawful methods for taking small game have not been clearly defined. The

language will clearly define the size of firearms for lawfully taking small game.

Section 322(c)(5) of the code (relating to powers and duties of commission) authorizes the Commission to fix the type and number of devices which may be used to take game or wildlife. Section 2102(a) of the code (relating to regulations) authorizes the Commission to promulgate regulations relating to the hunting of game or wildlife in this Commonwealth. These sections provide the regulatory authority for the final-form rulemaking.

3. *Regulatory Requirements*

The final-form rulemaking will restrict the size of firearms that small game hunters can use.

4. *Persons Affected*

Small game hunters will be affected by this final-form rulemaking.

5. *Comment and Response Summary*

There were no official comments received with regard to this final-form rulemaking.

6. *Cost and Paperwork Requirements*

The final-form rulemaking should not result in any additional cost or paperwork.

7. *Effective Dates*

The final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

8. *Contact Person*

For further information regarding this final-form rulemaking, contact David E. Overcash, Director, Bureau of Law Enforcement, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Reserve §§ 143.204 and 205 (relating to unlawful acts; and penalties) and add §§ 143.206—143.208 (relating to validity of license; unlawful acts; and penalties) to establish where elk licenses are valid and whether an elk license is valid for an antlered or antlerless elk.

The final-form rulemaking was adopted under the authority of 34 Pa.C.S. (relating to the Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 32 Pa.B. 3952 (August 10, 2002).

1. *Introduction*

The Commission amended Subchapter K (relating to elk licenses) by reserving §§ 143.204 and 143.205 and adding §§ 143.206 and 143.208.

2. *Purpose and Authority*

There are currently no provisions in Subchapter K describing where elk licenses are valid or whether an elk license is valid for an antlered or antlerless elk.

Section 2102(a) of the code (relating to regulations) directs the Commission to promulgate regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth. In addition, section 2722(g)(2) of the code (relating to authorized license-issuing agents) directs the Commission to adopt regulations for the administration, control and performance of activities relating to hunting licenses. These sections provide the regulatory authority for the final-form rulemaking.

PROPOSED RULEMAKING

DEPARTMENT OF STATE

[4 PA. CODE CHS. 182 AND 183]

Statewide Uniform Registry of Electors (SURE)

The Department of State (Department) proposes to add Chapter 183 (relating to establishment, implementation and administration of the Statewide Uniform Registry of Electors) and delete Chapter 182 (relating to Statewide central registry feasibility study). The act of January 31, 2002 (P.L. 18, No. 3) (act) provided for a new voter registration law, and repealed the Pennsylvania Voter Registration Act (PVRA) (25 P.S. §§ 961.501—961.5109). Most of the statutory provisions of the PVRA were renumbered or materially revised under the act. Section 1222(f) of 25 Pa.C.S. (relating to SURE system), requires a comprehensive package of regulations, including the promulgation of regulations necessary to establish, implement and administer the Statewide Uniform Registry of Electors (SURE) system.

The act also provides in 25 Pa.C.S. § 1222(e), that the Department will establish, by regulation, a schedule for each county voter registration commission to be connected to the SURE system. This proposal provides for that schedule. Additional regulations to comply with the requirements of 25 Pa.C.S. § 1222(f), will be proposed in the near future. The regulations regarding the implementation schedule are set forth in Annex A.

In addition to adding Chapter 183, the Department also makes two minor amendments to Part VIII. First, the Department corrects the title of Part VIII. Second, the Department deletes Chapter 182, which had provided for a Statewide Central Registry Feasibility Study. Although this study was conducted, the enactment of the act no longer requires regulations for a feasibility study.

Section 2 of the act provides that the promulgation of these regulations is exempt from section 204(b) of the Commonwealth Attorneys Act (71 P.S. § 732-204(b)), and is exempt from the Regulatory Review Act (71 P.S. §§ 745.1—745.14). Public comment is requested in accordance with section 201(4) of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. § 1201(4)), known as the Commonwealth Documents Law.

Purpose

The purpose of this proposed rulemaking is to establish a schedule for each county voter registration commission to be connected to the SURE system, as required by 25 Pa.C.S. § 1222(e). The chapter first defines the categories of the counties to be connected to the SURE system in § 183.1. In § 183.2, the regulation sets forth the schedule for each category of county to be connected to the SURE system.

In developing the schedule for connection to the SURE system, the Department seeks to maximize the accuracy, integrity and protection of registration records on a statewide basis in accordance with 25 Pa.C.S. § 1222(e).

Paperwork Requirements

Paperwork requirements will not be substantially altered as a result of the proposed regulation.

Regulatory Review

Section 2 of the Act provides that the promulgation of these regulations is exempt from section 204(b) of the Commonwealth Attorneys Act, and is exempt from the Regulatory Review Act.

Public Comment

Individuals are invited to submit comments in accordance with section 201(4) of the Commonwealth Documents Law. Comments shall be sent within 10 calendar days to L. Lawrence Boyle, Deputy Chief Counsel, Pennsylvania Department of State, 302 North Office Building, Harrisburg, PA 17120 or e-mail at lboyl@state.pa.us.

forth in Annex A. This proposed rulemaking sets forth the estimation procedures to be used by the Treasury when a holder of unclaimed property has insufficient records to determine its actual amount of liability.

Effective Date

The proposed rulemaking will be effective upon publication of final-form rulemaking in the *Pennsylvania Bulletin*.

Statutory Authority

Under section 1301.26(b) of The Fiscal Code (act) (72 P. S. § 1301.26(b)), the Treasury is required to promulgate regulations regarding estimation calculations that the Treasury may use, under section 1301.23(b) of the act (72 P. S. § 1301.23(b)), if a holder of unclaimed property has insufficient records to conduct an examination as authorized under section 1301.23(a) of the act.

Background and Purpose

Although holders of unclaimed property should maintain records to account for their liability, the Treasury routinely encounters holders who maintain partial or no records prior to an examination by the Treasury. Therefore, it is necessary for the Treasury to estimate this liability when holders cannot have their unclaimed property liability determined due to a lack of, or inadequate, recordkeeping.

Description of Proposed Amendment

The proposed rulemaking would add § 951.8 to authorize the Treasury to apply estimation calculations when records are insufficient to conduct an examination as authorized under section 1301.23 of the act.

The proposed rulemaking is necessary to encourage better recordkeeping regarding unclaimed property within the holder community to ensure that rightful owners are notified of their right to claim this property in the custody of holders.

The proposed rulemaking is limited in its application and would not be authorized when records are available to conduct an examination by the Treasury.

Fiscal Impact and Paperwork Requirement

The proposed rulemaking will have no fiscal impact on the Commonwealth or its political subdivisions. Furthermore, the proposed rulemaking is not anticipated to require any legal requirements, or create any additional accounting, reporting or other paperwork not currently being performed by the Treasury during its examinations of holders.

Sunset Date

The Treasury continuously monitors the cost effectiveness of its regulations and, therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. §§ 745.5(a)), on November 18, 2002, the Treasury submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House and Senate Standing Committees (Committees). Also, the Treasury has prepared and provided IRRC and the Committees with a detailed Regulatory Analysis Form (RAF). A copy of this RAF is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed rulemaking, it will notify the Treasury within 10 days of

TREASURY DEPARTMENT

[61 PA. CODE CH. 951]

Estimation Calculations for Determining Unclaimed Property Liability

The Treasury Department (Treasury) proposes to add § 951.8 (relating to estimation calculations) to read as set

the close of the Committees' review period. The notification shall specify the regulatory review criteria that have not been met by the portion of the proposed rulemaking to which an objection is made. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Treasury, the General Assembly and the Governor of objections raised.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to Carole Huberman-Talerico, CPA, Director, Pennsylvania Treasury Department, Bureau of Unclaimed Property, Riverfront Office Center, 1101 South Front Street, 4th Floor, Harrisburg, PA 17104, within 30 days of publication of this notice of proposed rulemaking in the *Pennsylvania Bulletin*.

(b) When no holder's records exist or when a holder's records are insufficient for examination, the State Treasurer may apply sampling and estimation procedures to determine a holder's liability. Under the Federal Clean Water Act and The Clean Streams Law, the following parties have applied for an NPDES permit or to renew their current permit to discharge controlled wastewaters into the waters of this Commonwealth or to conduct other activities required by the NPDES permit. For renewal applications listed in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements. For new permit

applications, renewal application with major changes or applications for permits not waived by the EPA, the Department, based upon preliminary reviews, also made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications listed in Section II. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement, to the office noted before the application, within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

Persons with a disability, who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PA0246905, CAFO, **Lauden Farms**, 2248 Back Road, Halifax, PA 17032. Murray L. Laudenslager has submitted an application for an Individual NPDES permit for an expanding CAFO known as Lauden Farms, 2248 Back Road, Halifax, PA 17032 in Wayne Township, **Dauphin County**.

The CAFO is situated near Powell Creek in Watershed 6-C, which is classified for TSF. The CAFO will be designed to maintain an animal population of approximately 1,493.3 animal equivalent units (AEUs) consisting of 850 mature Holstein cows, 150 15-month old heifers, 125 9- to 15-month old heifers and 150 calves. The animals will be housed in a free stall barn and two heifer barns. Manure will be stored in two below house storage pits and a steel slurry tank. The total capacity of the manure storage facilities will be 20 2,814,000 gallons in below house pits and 250,000 gallons in the stop/slurry storage tank. Prior to operation of the manure storage facilities, the design engineer will be required to submit certification that the facilities were constructed in accordance with appropriate Technical Guide Standards. A release or discharge to waters of this Commonwealth under normal operating conditions is not expected. Normal operating conditions are defined as conditions below a 25-year, 24-hour storm event.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

The permit application and draft permit are on file at the Southcentral Regional Office of the Department. Individuals may make an appointment to review the files by calling the File Review Coordinator at (717) 705-4732.

Persons wishing to comment on the proposed permit are invited to submit written comments to the previous address within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in formulating the Department's final determination regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the basis of the comment and the relevant facts upon which it is based.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time the determination may be appealed to the Environmental Hearing Board.

The EPA permit waiver provision under 40 CFR 123.24(e) does not apply to this NPDES permit.

PAG123568, CAFO, **Fred and Cindy England, Penn England Farm**, R. D. 1, Box 152, Williamsburg, PA 16693. This proposed facility is located in Catherine Township, **Blair County**.

Description of Proposed Activity: The Penn England Farm is an existing dairy farm with a total AEUs of 1,444.6. An estimated quantity of total annual manure production is 32,392 tons. The operation consists of 1,310 dairy animals and 15 swine. The manure containment facility is a two-stage storage system. Stages 1 and 2 contain 0.58 million and 3.0 million gallons of active depth. The system is designed to store manure from 800 mature milking animals for 180 days. All of the 6,890,017 gallons and 2,653 tons of manure generated on the farm is used on the farm.

The receiving stream, Frankstown Branch Juniata River, is in the State Water Plan watershed 11-A and is classified for WWF.

The proposed effluent limits for the operation/activity include: Except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where

applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Stream Law constitutes compliance with the State narrative water quality standards.

PA0028631, Sewerage, SIC 4952, **Mid-Cameron Authority**, 421 North Broad St., Emporium, PA 15834. The proposed discharges are located in Shippen Township, **Cameron County**.

Description of Proposed Activity: Activity is the pending issuance of an NPDES permit for four discharges in association with the Emporium Shippen Township Wastewater Treatment Plant. Outfall 001 is the existing (and expanded) wastewater treatment plant outfall location. Effluent is currently discharged from the plant through Outfall 001 up to 1.05 MGD. Presently, flow in excess of 1.05 MGD is released through a combined sewer overflow, Outfall 002. An expansion of the treatment plant is proposed. Upon initiation of operation of the expanded plant, effluent will be discharged through Outfall 001 up to 2.5 MGD. Outfall 002 will be abandoned. Flow from 2.5 MGD to 3.7 MGD will travel through "side stream" treatment facilities, including screening, aerated grit, clarification and chlorine contact. Discharge from the "side stream" treatment will flow to a constructed wetland. The overflow from the constructed wetland will be discharged through Outfall 003 (CSO-Related Bypass). In addition, flow from the treatment plant will be diverted to the wetland during dry periods to sustain plant life. During extreme precipitation events, flow in excess of 3.7 MGD will be discharged directly to the Driftwood Branch of Sinnemahoning Creek through Outfall 004 (Expanded Plant CSO).

The receiving stream, Driftwood Branch of Sinnemahoning Creek, is in the State Water Plan Watershed 8A and is classified for TSF. There are no affected downstream public water supply intakes.

The proposed effluent limits for Outfall 001 are based on a design flow of 1.0 MGD.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of

Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first.

Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the Act.

The facility is a non-Title V (State only) facility. This construction will result in a potential particulate emission rate of 1.7 tons per hour. The source is subject to 40 CFR Part 60, Subpart 000—Standards of Performance for New Stationary Sources. The approval will include monitoring, recordkeeping, work practices and reporting requirements designed to keep the source operating within all applicable air quality requirements.

This installation is subject to 40 CFR Part 60, Subpart BB—Standards of Performance for Kraft Pulp Mills and 40 CFR Part 63, Subpart S—National Emission Standards for Hazardous air Pollutants from the Pulp and Paper Industry. No increase in emissions due to the burning of HVLC gases in the No. 3 Recovery Boiler is expected.

The P. H. Glatfelter Co. is a pulp and paper mill in Spring Grove Borough, **York County**. The facility currently has a Title V Permit No. 67-05004. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V Operating Permit through an administrative amendment at a later date.

PUBLIC HEARINGS

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Contact: Ronald Davis, New Source Review Chief, 17-705-4702.

06-05024B: Reliant Energy Mid-Atlantic Power Holdings, LLC (P. O. Box 1050, Johnstown, PA 15907-1050). The Department has made a preliminary determination to issue a plan approval and amendments to the State Implementation Plan (SIP) for the Titus Station in Cumru Township, **Berks County**.

The proposed plan approval and SIP revision adopts new sulfur dioxide emission limits for the three boilers used in the generation of electricity controlled by electrostatic precipitators, low NOx burners with SOFA and low sulfur coal. The emissions from the sources will not be changed and may result in a reduction in sulfur dioxide due to the use of lower sulfur coals. The proposed new sulfur dioxide limits are 2.7 pounds per million Btu (3 hour block average) and 2.4 pounds per million Btu (24 hour block average). The facility is a major source subject to Title V. The facility is also subject to acid rain and the NOx allowance regulations. The plan approval will in-

clude monitoring, recordkeeping, reporting and work practice requirements designed to keep the source operating within these limits and all other air quality requirements. The Title V Operating Permit No. 06-05024 presently covers the facility.

According to 40 CFR 52.21(l)(2), an alternative to the air quality models specified in 40 CFR Part 51, Appendix W (Guideline on Air Quality Models) may be used to model air quality if the EPA approves the substitute model. As an alternative to the EPA Guideline Models, AERMOD was used in the air quality analysis for the proposed modification to the Reliant generating facility. Specific approval for the use of AERMOD in this analysis was granted by the EPA Region III Administrator and was consistent with the recommendations under section 3.2 of Appendix W to 40 CFR Part 51.

Pertinent documents are available at the Reading District Office. Reviews may be scheduled by contacting Roger Fitterling at (610) 916-0100 between 8:30 a.m. and 3 p.m., Monday through Friday, except holidays.

One public hearing will be held for the purpose of receiving comments on the proposal and the use of the nonguideline model, AERMOD. The hearing will be held on January 7, 2003, at 9 a.m. in the Reading District Office. The public is invited to comment on the proposal and SIP revision. Persons wishing to give testimony at the hearing should contact Roger Fitterling at (610) 916-0100 to reserve a time to present testimony. Oral testimony will be limited to 10 minutes. Groups or organizations are required to designate one witness to present testimony on its behalf. Commenters shall provide two written copies of their remarks at the time of the hearings. Persons interested in submitting written comments should send their comments to Roger Fitterling, Air Quality, 1005 Cross Roads Boulevard, Reading, PA 19605, no later than January 31, 2003.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Jeff Minskey at (717) 705-4709 or the AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); and The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401

Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Settlement under the Comprehensive Environmental Response, Compensation and Liability Act and the Hazardous Sites Cleanup Act
M. W. Manufacturing Site, Valley Township, Montour County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305)

and the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C.A. §§ 9601—9675), has entered into a proposed settlement with Nassau Metals Corporation, formerly AT&T Nassau Metals Corporation (Nassau), regarding past response costs incurred by the Department at the M. W. Manufacturing Site (Site) located in Valley Township, Montour County.

Historically, M. W. Manufacturing Company operated a metal reclamation business at the Site and specialized in recovering copper and lead from electrical and telephone wire and cable it bought as scrap. Nassau sent scrap wire and cable to the M. W. Manufacturing Company for processing and disposal at the Site. M. W. Manufacturing Company's operations involved separating the plastic insulation from the metal wire, stockpiling the discarded insulation on Site and recovering and salvaging the metal for resale. These activities resulted in releases of hazardous substances and contaminants to the environment at the Site. Based upon a preliminary characterization of the Site, heavy metals and organic solvents have been detected. It is believed that hazardous substances and/or contaminants associated with the Site have migrated, spilled or were placed on neighboring properties. There is a threat to the public health, safety and the environment from the continued release and threat of release of hazardous substances and contaminants at and from the Site.

The Department has determined that response actions are and were necessary to abate the release and threatened release of hazardous substances and contaminants at the Site. The Department and Nassau entered into a proposed Consent Order and Agreement (COA). Under terms of the proposed settlement, Nassau will pay the Department \$120,000 as reimbursement for past response costs.

This notice is provided under section 1113 of the HSCA (35 P.S. § 6020.1113). This section provides that the settlement will become final upon the filing of the Department's response to any significant written comments. The proposed COA that contains the specific terms of the settlement is available for public review and comment. The proposed COA can be examined from 8 a.m. to 4 p.m. at the Department's office at 208 West Third Street, Suite 101, Williamsport, PA 17701 by contacting Michael Welch at (570) 321-6525. A public comment period on the proposed COA will extend for 60 days from November 30, 2002. Persons may submit written comments regarding the proposed COA to the Department by January 29, 2003, by submitting them to Michael C. Welch, Environmental Program Manager at the previous address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

A final report is submitted to document cleanup of a release of a regulated substance at a site where one of the Act's remediation standards. A final report provides a description of the site investigation

to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Submission Deadline for Application for Reimbursement for Certified Host Municipality Inspectors

The Department of Environmental Protection (Department) announces the submission deadline for 2002 host municipality inspector program reimbursement applications as March 31, 2003. Reimbursements are available to municipalities under section 1102 of the Municipal Waste Planning, Recycling and Waste Reduction Act (Act 101) and section 304 of the Hazardous Sites Cleanup Act (Act 108). Municipalities include cities, boroughs, incorporated towns, townships and home rule municipalities.

Reimbursements are allocated from the Recycling Fund authorized under Act 101 for municipal waste facilities or from the Hazardous Sites Cleanup Fund under Act 108 for hazardous waste facilities. Reimbursements are available to a municipality that has a municipal waste landfill, resource recovery or commercial hazardous waste storage, treatment and disposal facilities located within its geographic borders. Upon application from any host municipality, the Department shall award reimbursements for authorized costs incurred for the salary and expenses of up to two certified host municipality inspectors. The reimbursement shall not exceed 50% of the approved costs of salaries and expenses. Reimbursement is available only for host municipality inspectors trained and certified by the Department.

The application for reimbursement contains tables for specifying the itemized expenses for certified inspectors and for calculating the total reimbursement request. Complete instructions are included with the application, which is being distributed to municipalities that have participated in the program. If a municipality does not receive but requires an application or has questions about

this program, contact the Program Development Section, Department of Environmental Protection, Bureau of Land Recycling and Waste Management, Rachel Carson State Office Building, P. O. Box 8471, Harrisburg, PA 17105-8471, (717) 787-9870 or visit www.dep.state.pa.us, Keyword "Municipal Waste."

Request for Comment and Notice of Public Meeting for the Proposed Total Maximum Daily Load (TMDL) for the Blacks Creek Watershed

The Department of Environmental Protection (Department) is holding a public meeting on December 12, 2002, at 6 p.m. at the Jennings Environmental Education Center in Butler County to discuss and accept comments on a proposed TMDL, established in accordance with the requirements of section 303(d) of The Clean Water Act. This meeting will precede the monthly meeting of the Slippery Rock Watershed Coalition.

A stream segment in the Blacks Creek Watershed has been identified as impaired on the 1996 and 1998 Pennsylvania 303(d) lists due to high concentrations of metals. The listed segment and miles degraded are shown in the following table:

<i>Stream Code</i>	<i>Stream Name</i>	<i>Miles Degraded</i>
34731	Blacks Creek	4.54

The proposed plan provides calculations of the stream's total capacity to accept metals (aluminum, iron, manganese and acidity) and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion value (mg/l)</i>	<i>Total Recoverable/Dissolved</i>
Aluminum	0.1 of the 96 hour LC 50 0.75	Total Recoverable
Iron	1.5 0.3	Total Recoverable Dissolved
Manganese	1.00	Total Recoverable
pH	6.0—9.0	NA

The primary pollutant source for the watershed is abandoned mine workings. This watershed was heavily mined for coal in the late 19th and to the mid 20th centuries. The effects of this are still present. Allocations made in the TMDL are load allocations (LA) which are made to nonpoint sources of pollution.

The TMDL was developed using Monte Carlo Simulation to determine long term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. Monte Carlo Simulation allows for the expansion of a data set based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data collected over the past 10 years.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact Timothy Gillen, Licensed Professional Geologist, Knox District Mining Office, P. O. Box 669, Knox, PA 16232, (814) 797-1191, jmital@state.pa.us. Directions to the Jennings Environmental Education Center meeting place can also be obtained by contacting this address.

The TMDL can be accessed through the Department's website, www.dep.state.pa.us, by typing "TMDL" in the direct link field and by clicking "GO." A copy of the TMDL, supporting information and an information sheet can be obtained by contacting Lori Odenthal, Knox Office, Department of Environmental Protection, P. O. Box 669, Knox, PA 16232-0669, (814) 797-1191.

Persons with a disability wishing to attend this meeting and require an auxiliary aid, service or other accommodation to participate should contact the ADA Coordinator at (814) 797-1191 to discuss how their needs may be best accommodated. Individuals may use the AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users) and request that the call be relayed to the ADA Coordinator at (814) 797-1191.

Written comments will be accepted at the previous address and must be postmarked by February 12, 2003. Persons who plan to make a presentation at the public meeting should notify the Department no later than 4 p.m. on December 5, 2002. The Department will consider all comments in developing the final TMDL, which will be submitted to the EPA for approval.

Request for Comment and Notice of Public Meeting for the Proposed TMDL for the Seaton Creek Watershed

The Department is holding a public meeting on December 12, 2002, at 6:30 p.m. at the Jennings Environmental Education Center in Butler County to discuss and accept

comments on a proposed TMDL, established in accordance with the requirements of section 303(d) of The Clean Water Act. This meeting will precede the monthly meeting of the Slippery Rock Watershed Coalition.

One stream segment in the Seaton Creek Watershed has been identified as impaired on the 1996 and 1998 Pennsylvania 303(d) list due to depressed pH and high concentrations of metals. The listed segments and miles degraded are shown in the following table:

<i>Stream Code</i>	<i>Stream Name</i>	<i>Miles Degraded</i>
34751	Seaton Creek	4.42

The proposed plan provides calculations of stream's total capacity to accept metals (aluminum, iron, manganese and acidity), pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion value (mg/l)</i>	<i>Total Recoverable/Dissolved</i>
Aluminum	0.1 of the 96 hour LC 50 0.75	Total Recoverable
